# HUSKED COCONUT ( FULL AND SEMI ) :

- We offer an excellent quality range of Full and semi Husked Coconut. The coconut is a tropical fruit which is rich in protein. The meat of the coconut is very good in destroying intestinal parasites that we get from eating infected food. Coconut water is good for kidney and urinary bladder problems. We offer the range as per client requirements at best available industry prices.
- The weight of the each nut is 600 to 700 grams. Then the circumference of the nut is above 13 cm. we packing the products as per the customer requirements.

- We supply product and packaging in customer requirements.

# COCONUT WATER:

- Fresh Coconut is cut by using protected sterilized stainless steel cutters. Fresh coconut water collected is filled in plastic bottles in sterile condition. After filling the bottle, it is heat retorted for sterilization process. Finally filled bottle is stacked for one week in shelf for observing leaking problem, product quality problem if any to check. Lab test is conducted in every batch. Our quality inspectors send filled bottle for affixing shrink sleeve and final sealing is done for the purpose of dispatch. This coconut water is organic and non GMO.

## TECHNICAL DETAILS:

Carbohydrates	5gm
Calcium	30mg
Potassium	340mg
Sodium	25mg
Energy	18K
Fat	0gm
Protein	0.01gm

- We supply product and packaging in customer requirements.

# COCONUT SUGAR:

- Extracted from the aromatic nectar of the coconut inflorescence, the sap is dried and granulated to make fine coconut sugar. Its low glycemic index makes it an healthy alternative to refined cane sugar.
- It is also ultra low in fructose, which makes all the more beneficial replacement for cane sugar. Besides is also rich in nutrients like iron, zinc and antioxidants. The one teaspoon of the coconut sugar contains 15 calories. Our organic coconut sugar is unrefined, vegan and non-GMO.
