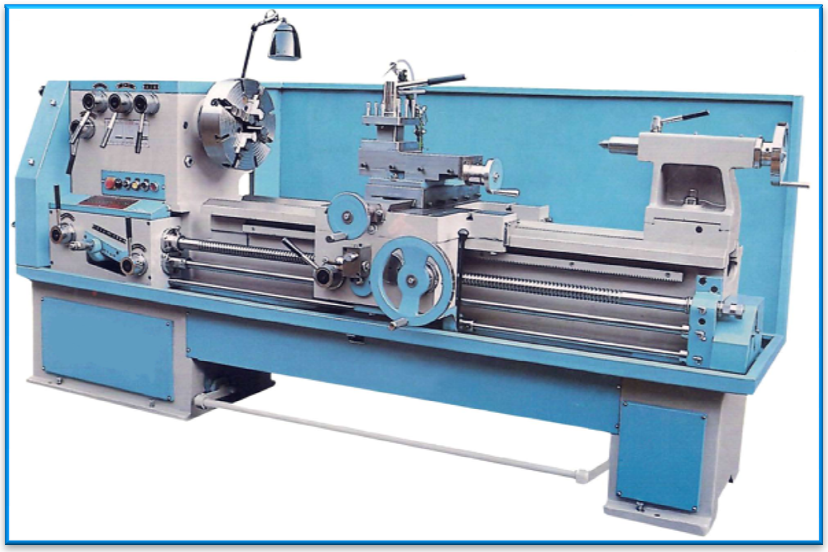
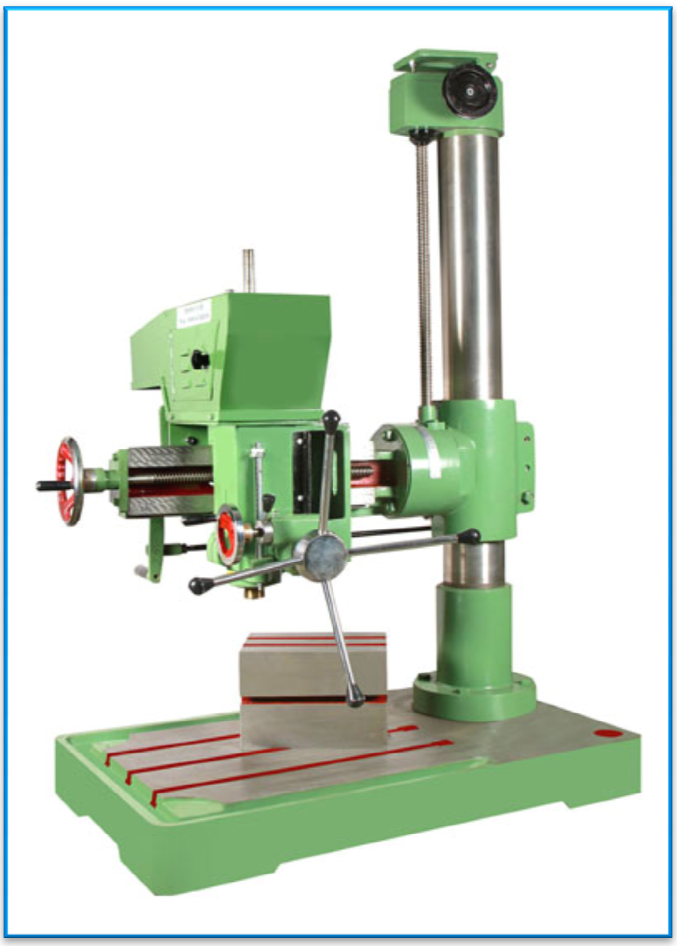
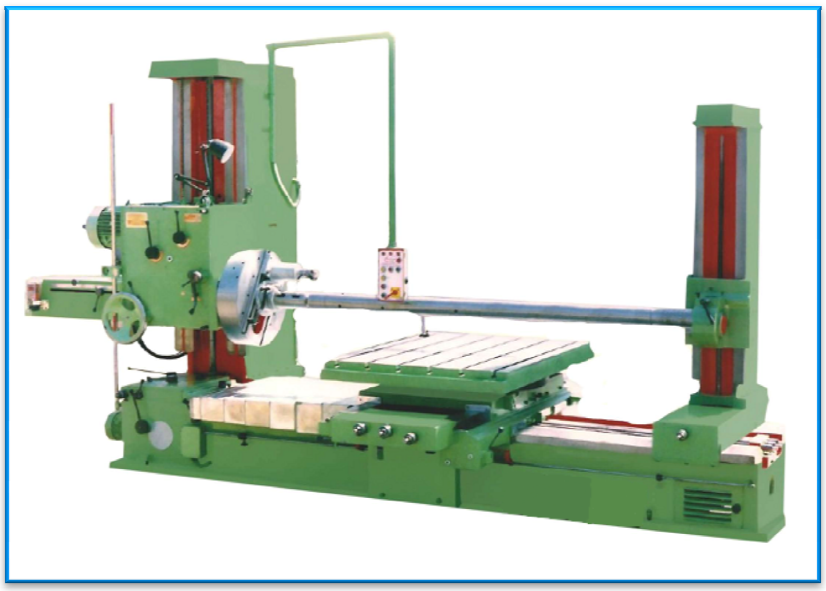
# OM INTERNATIONAL MACHINE TOOLS







# INTRODUCTION

Industry is the backbone of the Indian Economy. This sector forms the largest segment at national level for self employment and also provides lively hood for countries migrant laborers and remains a vital factor of the nation. Self sufficient program being relentlessly persuade by each five year plan. The industrial sector having progressed from the ox plough stage is now greatly dependent on modern technological equipments & supporting implements to enable boosting of productions while saving on time, manpower. By cnc machines for achieving better, faster and economical industry today every organization, to maximize its profits adopts a well planned marketing strategy which is analyzed every year.

OM International is contributing to green revolution in India since 1975. Initially it started with workshop equipments and machinery. Apart from Lathe machines its product line Includes Multi Utility vehicles, Hydraulic systems, casting, Forging, Components Manufacturing and various agricultural & Farm equipments and implements. OM since the inception has tried to understand customers need to be able to facilitate them with its value for money products.

The corporate philosophy embedded in trust, quantity and commitment has helped the group to carve a niche for itself in the highly competitive world of machinery.

# OM INTERNATIONAL MACHINE TOOLS

## ABOUT US

**OM GROUP** is a renowned **Manufacturer, Exporter, Importer and Supplier** of Lathe Machine, All Geared Lathe Machine, Boring Machine, Planner Machine, Plano Miller Machine, Shaping Machine, Drilling Machine, Milling Machine, Slotting Machines, Hydraulic Press Machine, Power Press Machines, Hydraulic Hacksaw Machine, Band saw Machines. We have the experience and engineering expertise of manufacturing machines and equipment for Steel Rolling Mills, Paper Mills, Sugar Mills and Forging Units. Designed as per industry standards, our range of Lathe Machines, Drilling Machines, All Geared Lathe Machine, Boring Machine and Milling Machine are known for its robust construction, corrosion resistance and high performance.

Company's engineers were sent all over the country to assess the needs and requirements of the customers and also to know what problems are being faced with the brands being used by them. R&D exercise was undertaken and a machine was developed with the combined efforts of workers and engineers of the company. There was practically 'Q' of the dealers and the number of dealers has reached more than 100 now having representation from all states.

The 'OM GROUP' after the great success of its Lathe models and improved machines model continued its effort in manufacturing yet another models with increased power with foreign technology in the shape of VTL machine. These high ranges have also caught the high efficiency The Company has shown a record growth rate of 124%, which has not been registered by any other brand so far and that too within a short duration. It is credited indeed and speaks of company" spreading its wings at a very fast speed. Keeping in view the requirements of customers with small holdings.

## Segments Catered To

Our range of Lathe Machines, Milling, Grinding & Boring Machines and Special Purpose Machinery conforms to international quality standards. These are known

for their robust construction, corrosion resistance and high performance and cater to the requirements of the following segments:

- **Steel Rolling Mills**
- **Paper Mills**
- **Sugar Mills**
- **Electronic Industry**
- **Railway**
- **Automobile Industry**
- **Forging Units**
- **Shipping Industry**
- **Cement Plants**
- **Workshops**

## Infrastructure

We have well established infrastructure that enables us to carry out our business operations effectively. Located at BATALA in the state of Punjab (India), our manufacturing unit covers huge area. These streamlined facilities with latest technology set up enables us to manufacture machines within shortest time frame. Moreover, we also have state-of-the-art testing facilities to ensure quality and performance of the machines from time to time. This reduces the risk of errors and timely deliveries on our part thus leading to maximum client satisfaction.

Some of the machines and equipment installed at our unit include:

- **Lathe Machines**
- **Planners**
- **Grinding Machines**
- **Electronic Machines**
- **Shapers**
- **Hacksaws**
- **Radial Drills**
- **Boring Machines**

# OM INTERNATIONAL MACHINE TOOLS

## Research & Development

We have established an advanced **R & D** unit that helps us in catering to the ever growing demands of the industry. Our R&D experts are highly proficient and keep themselves abreast with the latest technological advancements. It is due to their market surveys and studies that we are able to fabricate an optimum **range of** machines. Further, our **R & D** experts keep in touch with our clients to conceptualize their changing requirements. Their interaction with our clients helps us to provide cost- effective solutions specific to the individual requirement.

## Client Satisfaction

We have been able to garner a huge client base in Nepal, UAE, Kenya, Bangladesh and Uganda and also in some countries of East Asia and South Africa, owing to our quality range and client centric operations. Our rich industry experience and efficient workforce allow us to cater to the specific requirements of our valued clients. Further, we are also assisted by a state-of-the-art infrastructure that is facilitated with hi-tech machines and equipment. This enables us to provide a superior range that caters to the requirements of Steel Rolling Mills, Paper Mills, Electronic and Automobile Industries, Sugar Mill, Railway, Forging Units, Cement Industries, Workshop, Pneumatic Units.

Moreover, our ethical business policies, timely delivery and competitive prices have helped us to gain the trust of our clients based across the globe.

## Our strengths

We have carved a niche for ourselves in this industry and have one of a kind state-of-the-art infrastructure which is designed as per world class standards. Other factors that have made us the most preferred name in the industry are our customized solutions provided to our clients, time and again, without compromising on quality. Our prices are competitive and we believe in timely delivery of products. We also constantly endeavor to involve ourselves in intensive research and development programs. This enables us to innovate and upgrade in order to provide maximum satisfaction to our end users.

## PRODUCTS MANUFACTURED

OM Produces a wide range of products.
OM launches their products in different range.
The different products manufactured by OM Group are as below:

1. **Lathes – 150 Models**
2. **Shaper Machines**
3. **Drilling machines**
4. **Slotter machines**
5. **Milling machines**
6. **Power presses**
7. **Hydraulic hacksaws**
8. **Bandsaw machines**
9. **Plano miller machines**
10. **Surface grinder machines**

## ABOUT THE "OM" PLANT

OM Consist of the following shops & Departments:

**: Foundry section**
**: Casting section**
**: Installation section**
**: Assembling section**
**: Paint section**
**: Quality Control**
**: Research & Development**
**: Technology**
**: Material Testing & services**
**: Dispatch Shop**
**: Store**
**: Administrative Block**
**: Marketing Block**
**: Training center**

## COMPANY ACHIEVEMENTS

OM GROUP has been one of the first few companies to get ISO – 9001: 2008 Certifications.

## COMPANY AWARDED

ISO 9001: 2008

IN RECOGNISATION OF QUALITY AND STANDARDS

OM GROUP has been certified as ISO 9001 issued by international standards organizations. The certification can be earned those organizations only who can establish and demonstrate strict compliance of quality systems prescribed under ISO 9001 as highest level of certification under which the organizations posses capabilities in the area of design and, development and in manufacturing and marketing functions. It is indeed a great honour for the OM to have achieved this nomination such company in India, which has received this certification.
The scope of registration covers design, development production and installation. The registration is a quality mark.

## WORLD CLASS COMPANY

How companies become world class? Obviously, through excellence in human resource, continues improvement through R & D, quality systems, manufacturing and benchmarking world class machines.
Soon after starting manufacturing operations the company put in place most modern manufacturing and quality systems; some salient features are described below:
Power projects : OM One of the best company whose nominates those categories whose sound the market of power project some of the best companies whose close their deals successfully closed names are BGR ENRGY, Larsen & Toubro Ltd, Reliance Power Etc.

## HUMAN EXCELLENCE

The company has most qualified and well trained manpower in all the functions at all levels. In order to continuously develop, upgrade and sustain human excellence, the company iscounducting the following training programmes:

- **Free education for employee's Kids**
- **Art of living courses for all new entrants**
- **Team Building**
- **Customer supplier focus**
- **Communication & presentation skills**
- **Leadership skills**
- **Motivation**
- **Productively & cost reduction**
- **Problem solving approach**
- **Multi skilling**

Employees are encouraged to go in for self-development oriented training programmes/ workshops. The training approach to human excellence has worked very well.

## MODERN R & D FACILITIES

Main thrust of research and development in the company is on:

- New & futuristic design of machines (keeping in viewing customer's future needs comfort & safety).
- Constant up generation of existing models to achieve better output, cost control (to absorb rising material cost, not to pass on to customers)
- Benchmarking with the best machines in the world in the term of features, comfort and safety.

## SERVICE SYSTEM ON DEALERSHIP

There is a wide network of the OM Brand Dealer's, stockiest and the spare part shops. There are 200 Dealers, and 35 exclusive spare parts stockiest.
There are four stages, which are done at dealership.

1. PDI (Pre Delivery Inspection)
2. Installation
3. Free service
4. Warranty

1. PDI: The complete inspection of machine before taking delivery from company and also inspection the machine before given delivery to customer during customer presence. During PDI 100% warranty is given.
2. Installation: This should be done within one week after the machine sales at the customer end. To provide the complete knowledge to customer about machine, about their use, safety precautions, warranty policy, to get valuable one free service and also about company.
3. Free service: there will be one free service which is given to customer for the machine.
4. Warranty: The warranty of machine is one year after the machine sales. The warranty is given only on manufacture defects or parts failure.

## QUALITY ASSURANCE PLAN

Quality is our trademark and we make sure that it is maintained at each level of production process. We undertake rigorous measures while fabricating our range of machines so as to ensure that it corresponds with international standards. Further, we have facilitated our manufacturing unit with technically sound **LATHE MACHINE** and equipment that enables us to manufacture machines with utmost precision.

Since our establishment, we have laid great emphasis on quality. We implement a well defined **Quality Management System (QMS)** that forms an essential part of every operation. The Quality Assurance Division is managed by highly qualified professionals, who work towards maintaining international standards in our range of machines. They undertake stringent measures at each stage of the production process, so that no compromise is made on the quality. Further, our quality control professionals test the range on the below mentioned parameters so that only optimum range is delivered at the client's end.

We have carved a niche for ourselves in this industry and have one of a kind state-of-the-art infrastructure which is designed as per world class standards. Other factors that have made us the most preferred name in the industry are our customized solutions provided to our clients, time and again, without compromising on quality. Our prices are competitive and we believe in timely delivery of products. We also constantly endeavor to involve ourselves in intensive research and development programs. This enables us to innovate and upgrade in order to provide maximum satisfaction to our end users.

We have well established infrastructure that enables us to carry out our business operations effectively. Located at **BATALA** in the state of Punjab (India), our manufacturing unit covers huge area. These streamlined facilities with latest technology set up enables us to manufacture machines within shortest time frame. Moreover, we also have state-of-the-art testing facilities to ensure quality and performance of the machines from time to time. This reduces the risk of errors and timely deliveries on our part thus leading to maximum client satisfaction.
