

Rely on us to avail unparalleled Laboratory
Equipments viz. Stability / Photo-Stability Chambers,
Dual Chambers, Freezers, Walk-in Chambers,
Furnaces, Vertical Autoclaves etc...

Mr Sandeep Shrikrishna Nagle (Proprietor)

About Us

Making each penny spent on the products worthy is the work of a quality-focused company as it very well understands the concept of making quality & reliability speak on behalf of the products. Tech Panacea is elated to let the valued patrons know that we are a proud quality focused company gradually scaling to meet international quality standards in the field of Laboratory Instrumentation. Operating as a manufacturer, our company is making clients have simply the best in functionality and looks BOD Incubator, Walk-in Chambers, Freezers, Stability Chambers, Dual Chambers, Vertical Autoclaves, Furnaces, Ovens etc. Since inception we have attained great market recognition by offering exceptional quality products to our valued Clientele. Each and every product undergoes wide series of quality checks in order to come out as winner for a long term, defect free performance at the Customer end. Products are well-stocked to serve all urgent market requirements. Packaging is given utmost importance. For safe transportation, we make use of strong and finest packaging materials.

Innovation At Work

It's not a fake applaud but a proud self-praise to introduce ourselves as a 'Single company who perfectly understand the real meaning and idea of using the tool of innovation'. We have been applying this tool of innovation at all right business places to get maximum number of advantages in the form of increased client base thus providing us with a competitive edge ahead of our competitors. Modern techniques & latest tools are implemented in each process of manufacturing viz. Raw material procurement, Managing inventory & stores, designing of Instruments in CAD for better aesthetics, fabrication, assembly to final quality testing etc.

Who Are We?

Customer-Focused- Our renowned company is highly customer-focused and this is well-depicted in the honest way of doing business deals. Promise Keeper- We honestly strive to live by all our commitments which we make during a business deal pertaining to price/quality/performance/delivery & Customer support. Quality-Conscious- We work on a simple philosophy that "Use of quality raw material results in a quality final product". So for a maintenance free performance we always rely and incorporate quality raw material in our products
