About Us

For the manufacturing industries whose production & efficiency depends upon Chemicals & Minerals, we at **Braj Chemical & Minerals** are bringing the finest quality of products. Serving since a couple of years only, our company & products have started earning huge popularity & acclamation under the brand name of Braj. By working as a **manufacturer, wholesaler** and **exporter**, we are offering a superior quality range of industrial chemicals prepared by experts as per standard requirements of industries. Our widely demanded product range includes items such as **Precipitated Calcium Carbonate and Calcium Carbonate**.

We have state-of-the-art facilities for sustaining a high-quality production rate of Industrial chemicals with proper safety. Under our well set up manufacturing unit, we have installed all necessary laboratory equipment & tools that are essential for pulling a resourceful production.

Our company is focused towards enhancing the availability of superior quality industrial chemicals in the market and setting up new quality standards for products in the whole domain. With all this, we look forward to developing a unique & trustworthy name of our company, which will successfully last for a long time.

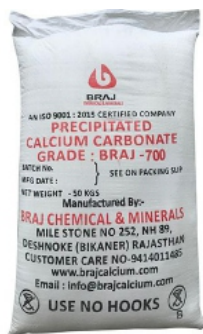

Braj Chemical & Minerals was introduced in the year 2017 with the sheer goal of establishing its name as the most trusted supplier of Industrial chemicals in the world. The company manages A-grade facilities and resources to maintain a consistent flow of production every day. With such resources, the main concern of the company is with the qualitative production of items such as Calcium Carbonate and Precipitated Calcium Carbonate.

Our Network & Shipment

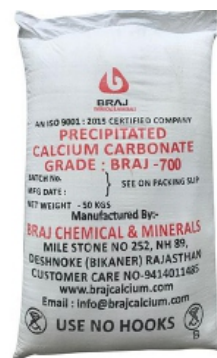

The high quantity & quality production of our company allows us to easily fulfill every uprising demand of the market for industrial chemicals. Our 70% of total supply is at domestic levels, whereas 30% of the supply is served to nearby countries including **Nepal, Bhutan, Bangladesh, Sri Lanka etc.** Our offered range of **Calcium Carbonate and Precipitated Calcium Carbonate** is highly appreciated by each customer.

Furthermore, our concern is also with the shipment of each order. For this, we provide safe packaging of product so that it does not get affected with environmental, light & temperature conditions. We rely upon roadways, airways & seaways to deliver the orders within assured timeline.
