About US

The company was established in 2005 with a vision to manufacture & supply defect free sheet metal components to the leading OEM's.

Mr. Premal Shah is a Production Engineer and has past experience in Tool Design from L&T, Powai.

Enduring with our vision, the company has grown continually over the years and has the potential and motivation to continue the trend.

We have InHouse Tool Room for Die Manufacturing and Maintenance.

Apart from **Quality**, "Timely Delivery and Reasonable Price" are a few factors that differentiate us from our competitors. These could be easily achieved due to our innovative & state of the art "tool designs" and trained Personnel. This fact is well proven by our delighted client base.
