About us

Osam Speciality Chemicals Pvt Ltd is a company that is engaged in the manufacturing of premium quality textile auxiliaries such as sequestering agents, scouring agents, lubricants, dye bath additives, after wash agents, demineralisers, wetting oil, soaping agents and dispersing agents, serving clientele both in Domestic and Overseas.

We also offer an exciting range of effluent treatment chemicals like textile decolorants, polyelectrolyte, flocculants and coagulants. Established in 2001, our company has developed sound understanding of the market developments & is hence in a position to satisfactorily serve the market requirements. Based in Mumbai, we offer a wide range of products that can be used to achieve desirable results.

Our firm is nurturing & growing under the able & motivating guidance of **Mr. Dhiren Chhaya** who is the CEO of the company. His far-sighted vision coupled with innovative approach is enabling the company to successfully keep pace with the changing market requirements.

Team / Manpower:

We have a team of highly experienced and skilled workers who are specialists in their work.

Devoted to their work, our team members are playing a vital role in production and delivery of high quality products. The workforce is properly trained to meet the deadlines, without compromising on the quality quotient.

Clientele:

Steady growth in the market, leading to enhanced market share speaks about the success story of our company. We are satisfactorily catering to the demands of the interested buyers, importers, suppliers, traders and dealers. We are constantly focusing on making our range of products and services customer friendly.

Quality Policy / Processes:

Quality is one of our foundation pillars that is given foremost importance in our company. We believe that compromising on quality leads to losing market share. To ensure our clients are fully satisfied with our range of products, we have adopted quality assurance policy.

According to this policy, every product that is produced at our unit is subjected to varied quality checks. The responsible quality managers maintain a strict vigil at every stage that includes initial stage of production to the final stages of packaging and delivery.
