

Orthopaedic Appliances  
& Fracture Aids

# an overview

CE

ISO 9001:2015

W.H.O. G.M.P.

NATIONAL  
AWARD 2010

US-FDA

ISO EN 13485:2012

The most ethical company of India  
Award 2011

## Our Vision

"Providing world class and innovative solutions in Orthopedics and allied fields through focus on R and D

To work in collaboration with academic and medical fraternity to improve health care standards

Emphasis on ethical working and use of technology to reduce cost of health care"

## Quality Policy

"We are committed to delight our customers and become market leaders".

- By adopting highest industry standards.
- By continual improvement in production efficiency, quality, cost effectiveness and delivery of our products.
- By improving our human resource, through team spirit and better work environment.

## Our Mission

To be India's "number one" brand in medical device industry.

To be India's most "ethical and honest" Company.

To be one of the "World's top 10 brands" in Orthopaedic Appliances.

To provide the "highest value for money" Orthopaedic Appliances.

# BODY BELTS & BRACES

## Abdominal Support 9''

Product Code: A-01 Size: S, M, L, XL, XXL

Thin construction in single panel, remains inconspicuous through clothes. Strong & Porous elastic webbing ensures good compression, improves ventilation and comfort. Broad hook loop tape flapper offers secured holding and size adjustability. Designed in nice shades of grey for pleasing aesthetics. Nylon reeves prevent rolling over of belt.

## L.S. Belt Lumbopore

Product Code: A-04 Size: S, M, L, XL, XXL

Anatomical design ensures perfect fitting and more comfort. Pre-shaped semi rigid splints ensure a strong immobilization and perfect posture. Monofilament stripped elastic is highly porous & ventilation improves comfort. Its durable and ensures better compression. Double pull elastic mechanism provides extra compression & improves splinting action. Designed aesthetically in shades of grey.

## Tummy Trimmer/Abdominal Belt 8''

Product Code: A-03 Size: S, M, L, XL, XXL

Extra strong three panel elastic provides a strong compression, improved ventilation and comfort. Optimal compression binds surgical incisions, improves healing, provides comfort during sudden movements or coughing in thoracic surgeries. Can be used to compress the bulge or tone up abdominal muscles. Can also be used in ventral hernia. Nylon reeves prevent rolling over of the belt.

## Lumbo Sacral Belt

Product Code: A-05 Size: S, M, L, XL, XXL

Ideal back support for general use in mild back ache. Flexible back splints, on wearing takes the body's shape for comfortable immobilization. Highly porous elastic webbing improves ventilation and comfort. Heat resistant rubber with high modulus of elasticity ensures durability and resilience. Double pull elastic mechanism provides extra compression & improves splinting action.

### Contoured L.S. Support

Product Code: A-07 Size: S, M, L, XL, XXL

Anatomically contoured, rigid splints provide effective immobilization & maintain correct posture. Malleable aluminum splints can be customized for accurate shape and enhanced immobilization. Double pull mechanism enhances compression & splinting action. Ethafoam back pad offers high cushioning in thin sections, enhances comfort, without compromising on immobilization.

### Ash Brace (Hyper Extension Brace)

Product Code: A-12 Size: S, L

Anodized aluminum body has sturdy construction & appealing aesthetics. Can be shaped for perfect fitting and immobilization. Easy, slide & screw mechanism ensure accurate height customization. Anatomically shaped, Ethafoam covered pads, with swivel joints offer accurate interface & enhanced comfort. Broad & rigid back pad provides strong support to relieve the anterior pressure on vertebrae.

### Rib Belt

Product Code: A-09 Size: S, M, L, XL, XXL

Strong orthopedic webbing, compresses and holds surgical incisions during coughing bouts and alleviates pain. Additional Ethafoam pad offers a strong localized grip at the fracture site, improves immobilization and healing. Large hook loop panel allows controlled compression and flexibility in sizing. Extra porous material ensures good ventilation and patient comfort.

### Taylor's Brace Short/Long

Product Code: A-13 Size: UN, Spl.

Rigid, removable, customizable, anatomically contoured, splints ensure perfect fitting, enhanced immobilization & right spinal posture. Adjustable shoulder straps, offer neutral spinal posture, strong grip & self tightening of the brace. Sleek, PUF fused body offers good cushioning, better comfort and pleasing aesthetics. Convenient sizing in two heights & two circumferences.

### Chest Binder

Product Code: A-11 Size: S, M, L, XL, XXL

Thick, anatomic, extra soft, PUF pad grips and binds the fractured sternum comfortably. Strong, V shaped elastic band gives good compression & helps in equidistribution of pressure. Reduces post operative pain and discomfort, facilitates phlegm expulsion. Bi-tongued hook loop tape ensures controlled compression and easy application. Aesthetically designed in pleasing shades of grey.

### Lumbo Support Uni

Product Code: A-15 Size: UN, Spl.

Strong elastic with high modulus of elasticity ensures better compression & long functional life. Anatomical shape & semi rigid splints ensure perfect posture and effective immobilization. Lean construction, sleek design, pleasing aesthetics, easy to use makes it an ideal back support for general purpose use. Broad hook-loop panel ensures easy application and universal sizing.

## Hernia Belt

Product Code: A-16 Size: S, M, L, XL

Anatomic pads, press the inguinal aperture at the correct angle, enhances effectiveness. Molded ethafoam pads have appropriate hardness, are light in weight, smooth & comfortable. Adjustable pelvic & leg straps, ensure that one size fits a large population & provide customized pressure. Soft and dermophilic with pleasing looks. Can be worn inconspicuously under the clothes.

## Lacepull L.S. Belt

Product Code: A-30 Size: SM, L XL, XXL XXXL

Lace pull mechanism gives a multiplying effect, less force provides a big compression, which elongates the thoracic cavity and decompress the lumbar IVD's. Degree of compression can be changed while wearing. Complex mesh fabric body is highly ventilated, comfortable with a long functional life. Flexible splints take the contour of low back, provide effective support and immobilization

## Pregnancy Back Support

Product Code: A-20 Size: S, M, L, XL

Anatomically contoured, rigid splints provide effective immobilization & maintain correct posture. Malleable aluminum splints can be customized for accurate shape and enhanced immobilization. Double pull mechanism enhances compression & splinting action. Ethafoam back pad offers high cushioning in thin sections, enhances comfort, without compromising on immobilization.

## Posture Corrector

Product Code: A-33 Size: CH, S, M, L, XL

Designed to carefully apply the correct back force for effective posture correction. The PE sheet panel at the back reinforce the back to the correct position. Carefully chosen elastic bands generate the necessary force for posture correction.

## Lumbo Lacepull Brace

Product Code: A-29 Size: UN, Spl.

Lace pull mechanism provides independent top and bottom pressures, minimal force to provide big compression. Decompress IVD. High quality and ventilated fabric for enhanced comfort, long functional life and royal aesthetics. Anatomic Back panel provides excellent fitting, rigid immobilization and posture correction. PU Foam liner enhances comfort. Front panel houses rigid plate for enhanced decompression of IVD. One size fits many.

## Taylor's Brace Urbane

Product Code: A-34 Size: CH, UN, Spl.

Light weight spinal brace provides full support and comprehensive coverage to thoraco-lumbo-sacral spinal sections. Immobilization of the spine is achieved in neutral position with two rigid para-spinal bars, which prevent both flexion and hyperextension. Pelvic splint envelopes the pelvis for rigid immobilization of the entire vertebral column. Thoracic horizontal splint prevents rotation of upper torso.

# FINGER SPLINTS

## Finger Cot

Product Code: F-02 Size: S, M, L

Strong aluminum body ensures rigid immobilization. Anodised surface provides pleasing aesthetics and improved life. U design ensures full protection, easy wearing & good ventilation. "Ethafoam" lining gives enhanced cushioning & comfort, it is also easy to clean. Inbuilt hook loop tape provide close fitting, excellent grip and easy application.

## Frog Splint

Product Code: F-04 Size: S, M, L

Strong aluminum body provides rigid immobilization. Malleable arms, can be shaped for good grip. Anatomic design Immobilizes all joints in neutral position. Sleek, well ventilated, comfortable, does not restrict the movement of other fingers. "Ethafoam" lining gives enhanced cushioning & comfort, it is also easy to clean.

## Finger Ext. Splint

Product Code: F-03 Size: S, M, L

Strong aluminum body ensures rigid immobilization. Malleable, can be bent and customized. U design ensures full protection, easy wearing & good ventilation. "Ethafoam" lining gives enhanced cushioning & comfort, it is also easy to clean. Inbuilt hook loop tape provide close fitting, excellent grip and easy application.

## Mallet Finger Splint

Product Code: F-05 Size: UN

Strong aluminum body provides rigid immobilization. Malleable, can be bent & customized. Highly practical design to maintain DIP joint in hyper extension. Sleek, simple, and comfortable, ensures better compliance. Inbuilt hook loop fasteners provides snug fitting and excellent grip.

## Thumb Spica Splint

Product Code: F-06 Size: UN

Removable malleable splint provide customized abduction of the thumb. Strong splinting ensures excellent immobilization and stability to CMC & MCP joints of the thumb. Durable, PUF fused body provides excellent aesthetics and comfort. Sleek design allows full hand and finger movement.

## Collar Soft (Firm Density)

Product Code: B-01 Size: CH, S, M, L, XL

Anatomical design ensures uniform support, better immobilization & comfort. Very high density P.U. foam offers better immobilization, support & quick relief. Also improves life of the collar. Hypoallergenic cotton stockinet improves comfort and compliance. Perforated collar body improves ventilation and comfort. Long hook-loop tape ensure snug fitting and easy application.

## Cervical Collar Hard Adjustable

Product Code: B-03 Size: S, M, L

Strong PE sheet body provides rigid support and immobilization. Ethafoam edge padding improves cushioning, comfort, and life of the collar. Adjustable height ensures a secure fit & better immobilization. Perforated collar body improves ventilation and comfort. Long hook-loop tape ensure snug fitting and easy application.

## Cervical Collar Soft with Support

Product Code: B-02 Size: S, M, L, XL

High density P.U. foam improves support, cushioning & life of collar. Hypo-allergenic, high GSM cotton stockinet improves comfort & life. Rust proof eyelets improve ventilation and comfort. Long hook-loop tape ensure snug fitting and easy application. LDPE sheet with thick round edges ensures rigid immobilization without a bite.

## Cervical Orthosis (Philadelphia) Ethafoam

Product Code: B-05 Size: S, M, L, XL

Pre-formed chin, improves immobilization & comfort. Balloon design allows minimal contact, ideal for burn patients. Ethafoam is durable, hypo-allergenic, light in weight, and easy to clean. Frontal opening allows use of tracheotomy tube, improves ventilation. Two piece, anatomical design improves immobilization, comfort & application. Splints improve rigidity & immobilization.

### Cervical Collar Soft

Product Code: B-07 Size: S, M, L

Soft polyurethane foam provides unmatched comfort for geriatric/prolonged use. Used as prophylactic collar, for comfortable support during traveling. Hypo-allergenic cotton stockinet improves comfort and compliance. Anatomical design ensures uniform support, better fit and comfort. Perforated collar body improves ventilation and comfort.

### Cervical Orthosis (Philadelphia) Plastazote

Product Code: B-10 Size: CH, S, M, L, XL

Pre-formed chin, improves immobilization & comfort. Balloon design allows minimal contact, ideal for burn patients. "Plastazote" is eco friendly, durable, non-allergenic, light in weight, & easy to clean. Frontal opening allows use of tracheotomy tube, improves ventilation. Two piece, anatomical design improves immobilization, comfort & application. Splints improve rigidity & immobilization.

### Cervical Pillow Regular

Product Code: B-08 Size: UN

Designed to keep the neck in the slightly hyperextension position during night to relieve the stress and strain of the day where neck remains in flexed position. Ideal density PU foam provides soft but firm support to the neck and helps in promoting a healthy, neutral posture of the cervical spine.

### Contoured Cervical Pillow

Product Code: B-19 Size: UN

Scientific design, maintains the neck in slight hyper-extension and provides muscle relaxation. Optimum density, resilience and softness of foam ensure comfort and effective support to the neck. Plush covering provides soft feel, good aesthetics and durability. Extra large size for enhanced comfort. Two heights, one for long necked, other for short.

### Anatomic Pillow

Product Code: B-27 Size: UN

High quality PU foam construction ensures a comfortable and firm support to the upper back, neck and the head. Ergonomically designed raised side panels accommodate shoulder height while sleeping on the side. The center region has a central concavity to comfortably embrace the head. The cervical ridge maintains neck in the natural extension position. A lower sloping wedge provides support and comfort to the upper back.

### Anatomic Pillow Urbane

Product Code: B-28 Size: UN

High quality memory foam construction ensures a comfortable and firm support to the upper back, neck and the head. Memory foam with excellent viscoelastic properties makes it auto-conform to body contour, embracing the body softly. Ergonomically designed raised side panels accommodate shoulder height while sleeping on the side. The center region has a central concavity to comfortably embrace the head. The cervical ridge maintains neck in the natural extension position. A lower sloping wedge provides support and comfort to the upper back.

## Pouch Arm Sling (Tropical)

Product Code: C-01 Size: CH, S, M, L, XL, XXL

Smart, sleek and open design, better ventilated. Three-layered PU bonded fabric offers durability, soft feel, plush looks, and wrinkle free property. Easy closing and opening of buckle allows easy application and closing of the product. Adjustable "Ethafoam" shoulder pad takes the load of the arm. Optimal positioning of the arm can be done by the adjustable sling.

## Clavicle Brace with Buckle

Product Code: C-04 Size: CH, S, M, L, XL

Claw buckles ensure no loosening with time, better tightening and grip. Buckle pad ensures full protection from buckle bite. PU foam padding ensures no underarm rash, better comfort and compliance. Figure of eight design with lateral vector ensures linear union of the bone, easy application and tightening of the brace. Plush fabric covering offers skin friendly interface.

## Universal Shoulder Immobilizer

Product Code: C-02 Size: CH, UNI, Spl.

Three-layered PUF fused fabric offers durability, soft feel, plush looks, and wrinkle free property. Two piece design with pouch offers proper support, correct posture, higher immobilization and easy application. Arm restraint band ensures additional locking and enhanced immobilization of the arm and the shoulder. Double straps on the shoulder divides the load uniformly and improve comfort.

## Clavicle Brace with Velcro

Product Code: C-05 Size: CH, S, M, L, XL, XXL

Reverse buckle fastening with hook loop tapes offer better tightening and grip. PU foam padding ensures no underarm rash on one hand and better comfort and compliance on the other. Figure of eight design with lateral vector, ensure linear union of the bone & also easy application and tightening of the brace. Plush fabric offers skin friendly interface.

## Elastic Shoulder Immobilizer

Product Code: C-03 Size: S, M, L, XL, XXL

Scientific design, provides six-way immobilization, proper ventilation & comfort. Can be used in patients confined to bed or with open shoulder wounds. Additional shoulder cup improves immobilization, grip on the injured shoulder & enhance the confidence of the patient. Provides local warmth. Sleek, smart, convenient, ergonomic and comfortable.

## Pouch Arm Sling (Baggy)

Product Code: C-06 Size: CH, S, M, L, XL, XXL

Designed for maximum support and coverage of the arm and can accommodate bulky casts or bandages. Three-layered PU bonded fabric offers durability, soft feel, plush looks, and wrinkle free property. Thumb cradle reduces thumb fatigue. Adjustable "Ethafoam" shoulder pad takes the load and improves comfort. Optimal positioning of the arm can be done by adjustable sling.

#### Cast Shoe (Rocker Sole)

Product Code: C-08 Size: S, M, L, XL

Rocker Sole is light in weight. It improves balance, restores normal gait, enhances ease of walking and helps in early ambulation. Has pleasing looks. Strong and Durable Upper protects the cast. Prevents soiling and mechanical damage. Quick drying material with enhanced aesthetics. Uniquely designed hook loop closure system ensure good grip, flexibility in sizing and ease of application & removal.

#### Cast Cover (Leg)

Product Code: C-16 Size: UN

Expandable rubber diaphragm accommodates different dia's of legs, makes water tight seal, allows easy pull on application. Rigid ring offers easy to wear, self sealing mechanism. Transparent flexible body is non porous, with pleasing aesthetics, is durable, non sticky, & light weight. Anatomic shape ensures that the leg remains functional.

#### Cast Cover (Arm)

Product Code: C-19 Size: UN

Expandable rubber diaphragm accommodates different dia's of arms, makes water tight seal, allows easy pull on application. Rigid ring offers easy to wear, self sealing mechanism. Transparent flexible body is non porous, with pleasing aesthetics, is durable, non sticky, & light weight. Anatomic shape ensures that the hand remains functional.

#### Pouch Arm Sling Urbane

Product Code: C-21 Size: S, M, L, XL

Premium class product, designed for the high-end patient. Provides maximum support to the injured arm, can accommodate bulky casts. Triple layered fabric with perforation and air flow channels ensure maximum ventilation and comfort. Adjustable super soft cushion pad ensures high level of comfort and least pressure at the shoulder. Y Clamp hook fasteners allow customized size of the sling.

# ANKLE SUPPORTS

## Ankle Binder

Product Code: D-01 Size: S, M, L, XL

3 D, knitting with mellowed heel spot, ensures snug fitting, strong compression, comfortable ankle movement and perfect conformance to the complex anatomy of the ankle.

Elasticized wrap in figure of eight stabilizes ankle, controls inversion / aversion & plantar flexion. Dermophilic cotton ensures, comfort in all weather conditions. Nylon outside ensures durability & nice aesthetics.

## Anklet

Product Code: D-03 Size: S, M, L, XL

Bi-layered construction, dermophilic Cotton inside ensures comfort in all weather conditions. Nylon outside ensures long life, excellent aesthetics & color fastness. Four way stretchable knit with "Spandex" provides effective compression, comfort and no buckling of fabric. Thick knit retains body heat, provides therapeutic warmth and assuring support. Simple pull on application is easy to use.

## Ankle Brace

Product Code: D-02 Size: CH, S, M, L, XL

Triple stabilization through hook loop closures, lace tightening & rigid splinting, ensure firm protection. Rigid, anatomic splints ensure strong immobilization of both dorsi & plantar flexion movement. It also gives sufficient room for malleolus. PUF fused, matte fabric body ensures durability, high cushioning, enhanced comfort & pleasing aesthetics. Lace pull mechanism, ensures single stroke tightening.

## Foot Drop Splint (Rt/Lt)

Product Code: D-17 Size: CH, S, M, L, XL

Polypropylene body offers better durability and resilience. Leaf spring action assists the walking process. Rigid construction and anatomical design provides support & maintains the hemiplegic foot in functional position. Can be customized. Can be worn with or without shoe. Inbuilt hook loop closures & padding ensure better fitting, comfort & ease of application.

NEW

### Ankle Support Urbane

Product Code: D-18 Size: S, M, L, XL

Knitted on an advance state of art CNC flat knit machine to provide , 3 D shaped fabric, in a double layer nylon yarn. Intermingled spandex provides the unique four way stretch to the fabric which gives a superior compression and ankle support. The strong spandex thread runs spirally in the matrix of nylon locks to ensure its free movement to allow uniform compression even on uneven diameters of the foot and ankle.

### Foot Raiser

Product Code: D-24 Size: UN

Foot raiser is designed to lift, support and stabilize the ankle in the dorsiflexion position for patients with foot drop. It is a versatile device which is equally suitable, to act as a night splint or active daytime use.

### Anklet Comfeel

Product Code: D-25 Size: S, M, L, XL, XXL

3 D, knitting with mellowed heel spot, ensures snug fitting, strong compression, comfortable ankle movement and perfect conformance to the complex anatomy of the ankle. Dermophillic cotton inside ensures, comfort in all weather conditions. Nylon outside ensures durability, excellent aesthetics & color fastness. Two layered with interwoven air space retains therapeutic warmth. Pleasing aesthetics is a further advantage.

### Ankle Splint

Product Code: D-26 Size: UN

Molded splint with perfect anatomy ensures good immobilization & pleasing aesthetics. Unique figure of eight strapping improves grip and control on inversion/eversion movement. Molded Ethafoam pad provides optimal cushioning. Large room for ankle can accommodate, swollen or distorted ankles. Neoprene sleeves protect from abrasion and pressure of tight straps.

### Walker Boot

Product Code: D-32 Size: CH, S, M, L, XL

Molded foot & rocker sole, promote early ambulation, improves gait & protects lower leg. Customizable, aluminum bars offer rigid support, & improved immobilization. Foam liner ensures comfort & perfect fitting of the leg in the orthosis. Hook loop system, ensure perfect grip & improved stabilization. It also allows inspection, personal hygiene and easy application.

### Air Ankle Splint

Product Code: D-40 Size: UN

Air takes contours of ankle, allows easy customization of pressure and compression, thus provide high degree of immobilization on one hand and good cushioning/ comfort on the other. Molded splint with perfect anatomy provides effective immobilization, can be used inside the shoes. Ergonomic design, has universal size and can be used for either ankle.

### PF Night Splint (Derotation)

Product Code: D-41 Size: S, M, L

Molded foot casing provides full protection to ankle & foot and maintains ankle in neutral position. Removable de-rotation bar arrests the rotation of the leg in post-op care. Effective, thick liner enhances cushioning and grip to the leg. Highly functional design, wherein degree of dorsi-flexion can be customized, it is light in weight with bilateral symmetry. Can be used as a night splint and as an ambulatory day splint. It is durable, aesthetically pleasing and is easy to maintain.

### Foot Drop Splint with Liner (Rt/Lt)

Product Code: D-43 Size: CH, S, M, L, XL

Anatomical shape, to maintain the foot in the functional position and ensure good weight distribution. Polypropylene construction enhances durability and resilience, allows customization using hot air gun and provides strong leaf spring action. Ethafoam moulded liner ensure cushioning, protection from the edges, extreme comfort, and better fitting. Thin, semi rigid construction allows use in the shoe.

NEW

### Walker Boot Short

Product Code: D-45 Size: S, M, L, XL

Molded foot & rocker sole, promote early ambulation, improves gait & protects lower leg. Customizable, aluminum bars offer rigid support, & improved immobilization. Foam liner ensures comfort & perfect fitting of the leg in the orthosis. Hook loop system, ensure perfect grip & improved stabilization. It also allows inspection, personal hygiene and easy application.

### Walker Boot Air

Product Code: D-51 Size: S, M, L, XL

In-built, pneumatic air compression system provides superior immobilization with air. Air flows to fill the anatomy, ensuring highly effective immobilization of foot, ankle and lower leg. Freedom to adjust level of immobilization. Easy to use air bulb for quick inflation. Quick pressure-release dial for air compartment deflation. Rigid upright bars ensure rigid immobilization. Wider Rocker sole promotes natural gait and enhances stability. Light weight and molded design improves compliance.

NEW

### Walker Boot Air Short

Product Code: D-52 Size: S, M, L, XL

In-built, pneumatic air compression system provides superior immobilization with air. Air flows to fill the anatomy, ensuring highly effective immobilization of foot, ankle and lower leg. Freedom to adjust level of immobilization. Easy to use air bulb for quick inflation. Quick pressure-release dial for air compartment deflation. Rigid upright bars ensure rigid immobilization. Wider Rocker sole promotes natural gait and enhances stability. Light weight and molded design improves compliance.

NEW

### Ankle Binder Urbane

Product Code: D-53 Size: S, M, L, XL

Knitted on the worlds most advance state of art CNC flat knit machine to provide , 3 D shaped fabric, in a double layer nylon yarn. Intermingled spandex provides the unique four way stretch to the fabric which gives a superior compression and ankle support. The strong spandex thread runs spirally in the matrix of nylon locks to ensure its free movement to allow uniform compression even on uneven diameters of the foot and ankle.

# KNEE SUPPORTS

## Knee Cap

Product Code: D-04 Size: S, M, L, XL, XXL, XXXL

Bi-layered construction, dermophillic cotton ensures, comfort in all weather conditions. Nylon outside ensures long life, excellent aesthetics and color fastness. Four way stretchable knit with "Spandex" provides effective compression, comfort and no buckling of fabric. Thick knit retains body heat, provides therapeutic warmth and assuring support.

## Knee Cap Open Patella

Product Code: D-05 Size: S, M, L, XL, XXL

Anterior patellar opening relieves patellar pressure and positions the patella. Cotton on the inside, a dermophillic interphase improves sweat absorption and comfort. Nylon on the outside ensures durability, aesthetics and color fastness. Interwoven Spandex ensures effective compression and no degradation on contact with pain balms and oils. Four-way stretch ensures ease of flexion and no bunching at the back.

## Knee Cap (with Rigid Hinge)

Product Code: D-06 Size: S, M, L, XL, XXL

Bi-layered construction, dermophillic cotton ensures, comfort in all weather conditions. Nylon outside ensures long life, excellent aesthetics and color fastness. Strong hinges provide rigid side splinting and free flexion movement. Anti tourniquet strapping, provide better grip and ensure no blood constriction as well.

## Knee Cap with Patellar Ring

Product Code: D-07 Size: S, M, L, XL, XXL

Advanced 3 D woven patellar pouch relieves patellar pressure, enhances comfort during sitting and squatting. Removable Silicon Patellar Padding compresses patellar tendon, reduces patellar pressure and positions patella. Nylon- Spandex, stretchable fabric ensures uniform compression, snug fitting, warmth for quick healing, long functional life, soft feel and appealing aesthetics. Multiaxial hinges assist in walking and do not allow the product to roll down. Anti migration "Silicone" coating arrests slippage.

### Elastic Knee Support

Product Code: D-08 Size: S, M, L, XL, XXL

Strong aluminum hinges provide rigid side splinting & free flexion movement. Open patella with cushion, release the patellar pressure, improves comfort. Can be used for Patello - femoral problems. Wrap design allows customized compression and easy application on swollen, geriatric or asymmetric knees. Large dorsal opening ensures no buckling or vaso constriction.

### Knee Immobilizer 19" & 22"

Product Code: D-11 & D 28 Size: S, M, L, XL, XXL

Anatomically contoured aluminum splints ensure perfect immobilization & grip, enhanced comfort and no hot spots. Body of PUF fused fabric ensures proper cushioning, enhanced comfort, long life & anti slip properties. Removable patellar strap improves immobilization further. Light weight, aesthetically smart, improves comfort and compliance.

### Functional Knee Support

Product Code: D-09 Size: S, M, L, XL, XXL

Bi axial heavy duty hinge ensures full weight bearing & free flexion movement. Four way stretchable fabric offers comfortable compression & no buckling. Wrap design with anterior closing ensure customized compression, easy application on swollen or geriatric knees. Anti tourniquet strapping ensures snug grip, but no blood constriction. Open patella design, can be used for patello - femoral diseases.

### Knee Immobilizer 14"

Product Code: D-13, D-44 Size: CH, S, M, L, XL, XXL

Anatomically contoured aluminum splints ensure perfect immobilization & grip, enhanced comfort and no hot spots. Body of PUF fused fabric ensures proper cushioning, enhanced comfort, long life & anti slip properties. Removable patellar strap improves immobilization further. Light weight, aesthetically smart, improves comfort and compliance.

### R.O.M. Knee Brace

Product Code: D-10 Size: UN

Range of Motion from 0 to 120 degree flexion and 0 to 60 hyper extension with locking intervals at 15 degrees. Pleasurable locking, using easy pull mechanism. Straps with reverse buckle mechanism provides controlled tightening. It is easy to wear. Neoprene liner with silicone coating enhances product grip, improves cushioning and comfort. One size fits all.

### Thigh Support

Product Code: D-14 Size: S, M, L, XL

Cotton inside provides dermophilic interphase for better sweat absorption, comfort, and hypoallergenicity. Nylon outside ensures product durability, better aesthetics and good heat retention. Four-way stretchable weaving enhances comfort and compression, but ensures no vaso- constriction. Tapered shape and unique weave ensures uniform compression, firm support to quadriceps/ hamstrings and allows simple pull on application.

NEW

### Patellar Support

Product Code: D-19 Size: UN

Anatomical pad design lifts and positions the patella properly. Provides optimal compression to the patellar tendon in patello-femoral problems. Silicon pad grips & absorbs the vibrations. Nodular surface provides good massage, proprioception & quick healing. Reverse buckle design allows customized compression. One size fits all.

### Knee Immobilizer Urbane 19"

Product Code: D-42 Size: S, M, L, XL, XXL

Anatomically contoured aluminum splints ensure perfect immobilization & grip, enhanced comfort and no hot spots. Body of PUF fused fabric ensures proper cushioning, enhanced comfort, long life & anti slip properties. Removable patellar strap improves immobilization further. Light weight, aesthetically smart, improves comfort and compliance.

NEW

### Knee Cap Comfeel

Product Code: D-23 Size: S, M, L, XL

Anatomically shaped with "reduced compression spot" ensures no patellar pressure. Three dimensional knitting provides anatomical shape, snug fitting & strong compression. Bi-layered construction. Dermophilic cotton ensures, comfort in all weather conditions. Nylon outside ensures durability excellent aesthetics & color fastness. Thick knit retains therapeutic warmth & provides assuring support.

### Knee Protector

Product Code: D-46 Size: S, M, L, XL, XXL

The hex padding ensures robust protection and comfort with its flexible structure which ensures no restriction of knee motion. Intelligent design to withstand high impacts and injury to the knee in sports or daily life.

NEW

### Knee Support Urbane

Product Code: D-47 Size: S, M, L, XL

Knitted on the state of art CNC flat knit machine to provide a 3 D, anatomically shaped fabric, in a double layer of nylon yarn. Intermingled spandex provides the unique four way stretch to the fabric which gives a superior compression and knee support. Spandex thread runs spirally in the matrix of nylon locks to ensure its free movement to allow uniform compression even on uneven diameters of the limbs.

### R.O.M. Knee Brace 22"

Product Code: D-48 Size: UN

Range of Motion from 0 to 120 degree flexion and 0 to 60 hyper extension with locking intervals at 15 degrees. Pleasurable locking, using easy pull mechanism. Straps with reverse buckle mechanism provides controlled tightening. It is easy to wear. Neoprene liner with silicone coating enhances product grip, improves cushioning and comfort. One size fits all.

# WRIST & FOREARM

## Elastic Wrist Splint (Rt/Lt)

Product Code: E-01 Size: S, M, L, XL

Made of strong and porous, high quality elastic, which ensures adequate compression, strong support and durable product. Removable and malleable splint ensures good immobilization, helps in customized fitting and achieving required degree of dorsi-flexion. Built in opening for thumb abduction for neutral positioning and quick healing.

## Wrist & Forearm Splint (Rt/Lt)

Product Code: E-03 Size: CH, S, M, L, XL

Made of breathable PUF fused fabric which ensures excellent aesthetics, comfort and a long life. Removable and malleable splint ensures good immobilization, helps in customized fitting and achieving required degree of dorsi-flexion. Top edge abuts the palmar crease to allow free hand and finger movement. Long length of the brace provides enhanced immobilization and quick relief.

## Wrist Brace with Double Lock

Product Code: E-05 Size: S, M, L

Double locking ensure stronger grip, better fitting and universal sizing. Strong elastic with excellent compressive strength, supports, protects & provides requisite immobilization of the wrist. Striped elastic with excellent porosity ensures improved comfort. One piece fits both hands.

## Wrist Brace with Thumb

Product Code: E-06 Size: UN

Strong elastic with excellent compressive strength, supports, protects & provides requisite immobilization of the wrist. Striped elastic with excellent porosity ensures excellent comfort. Anatomical thumb opening is designed for slight abduction and comfort of the thumb. Allows free movement of the thumb & fingers. One piece fits both hands.

## Tennis Elbow Support

Product Code: E-10 Size: S, M, L, XL

Breathable PUF fused fabric give excellent aesthetics, comfort and long life. Reverse buckle strapping ensure strong grip and firm compression. Silicon pad interface absorbs impact and vibration very effectively, it provides proprioception and quick healing. Smart and sporty, can be used both for therapeutics and prophylaxis.

## Elbow Support

Product Code: E-11 Size: S, M, L, XL

Anatomically shaped with extra stretch at elbow allows easy elbow movement, better comfort, better compression and grip. High quality Nylon – Spandex yarn provides four-way stretchability for snug fitting and excellent compression. It ensures long life, soft feel, excellent aesthetics and color fastness. It retains body heat for quicker healing. Elasticized band provides controlled and targeted compression at the site of inflammation. Alleviates pain and reduces vibration.

NEW

### Wrist Support Urbane

Product Code: E-17 Size: S, M, L, XL, XXL

Knitted on the world's most advanced state of art CNC flat knit machine to provide, 3 D shaped fabric, in a double layer nylon yarn. Intermingled spandex provides the unique four way stretch to the fabric which gives a superior compression and support. The strong spandex thread runs spirally in the matrix of nylon locks to ensure its free movement to allow uniform compression over the wrist and hand. Anatomical thumb opening is designed for slight abduction and comfort of the thumb.

### Hand Resting Splint (Rt/Lt)

Product Code: E-29 Size: CH, S, M, L

Anatomically designed to immobilize the wrist, fingers and the thumb in the functional or neutral position. Molded from high quality polymer with high impact strength. Removable PE foam, finger separator provides extremely comfortable resting area & keeps the fingers separated, ensuring no contractures in burn patients. Soft padded tapes provide comfort, good feel and are easy to wear.

### Forearm Splint

Product Code: E-30 Size: UN, Spl.

Extra long & strong, dorsal& volar splints ensure good immobilization. Customizable aluminum, splints ensure perfect fitting & enhanced comfort. PUF lined matty fabric body ensures durability, improved comfort & better aesthetics. Two part, amphi-dextrous design allows customized compression and ease of use .One size fits all.

IMPROVED

### Wrist Splint (Ambidextrous)

Product Code: E-43 Size: S, M, L, XL

Removable, aluminum splint allows customized dorsi-flexion, enhanced grip and immobilization. Thumb abduction reduces fatigue, Improves healing and pain relief. High quality Elastic Webbing is strong, durable, porous and has soft feel. Hook loop closures allow customized compression and easy application. One pc fits both hands.

### Wrist Splint with Thumb

Product Code: E-44 Size: S, M, L, XL

Provides complete thumb splinting in the abduction position. Removable, double splinting ensures rigid immobilization at the required degree of wrist dorsiflexion. Lace pull and reverse buckle mechanism allows single pull tightening and better grip. Long length of the brace, ensures enhanced immobilization. PU lined, matte fabric enhances durability, aesthetics, and comfort. Brace abuts the Palmer crease to allow free finger movement. Ambidextrous.

IMPROVED

### ROM Elbow Brace

Product Code: E-46 Size: UN

ROM dial ensures quick locking, for immobilization at 90°, 100° & 110°. Provides setting from 0° - 120° Flexion and 0° - 90° Extension. Lift n slide mechanism provides quick length change from 14.5" to 18.3". Semi flexible arm cuffs are durable and have 3D cushion Pads. Y Clamp fasteners enables customization. Reverse buckle strapping provides effective grip.

NEW

### Elbow Support Urbane

Product Code: E-48 Size: S, M, L, XL, XXL

Knitted on the most advanced machines to provide, 3 D shaped fabric for the most effective anatomic fitting. Intermingled spandex provides the unique four way stretch to the fabric which gives a superior comfort, compression and elbow support. The strong spandex thread runs spirally in the matrix of nylon locks to ensure its free movement to allow uniform compression even on uneven diameters of the elbow.

### Wrist Splint

Cross section engineered to add strength and make it light in weight. Anatomically contoured for perfect fitting and immobilization. Improved rigidity enhances immobilization.

### Forearm Splint

## Skin Traction Set (PUF Liner)

Product Code: G-01 Size: CH, AD

Made from 3 layered laminated fabric base with high density PU foam. Anti skid silicone coating has surface adhesive properties to enhance grip and prevent liner migration due to traction force. It improves the effectiveness of the traction.

IMPROVED

## Cervical Traction Kit (Sleeping)

Product Code: G-26 Size: UN

Tynor CT Head Halter is highly anatomic halter to provide effective and comfortable traction. Made out of three-layered aesthetically pleasing, PU bonded fabric. The skin interface layers provides soft feel and plush looks. Polymer gel insert gives excellent cushioning to the occiput with no pressure points.

IMPROVED

## Leg Traction Brace

Product Code: G-05 Size: S, M, L, XL

PU sandwiched fabric offers cushioning, and strong grip along with soft feel and durability. Skin facing layer provides good frictional property. Multiple hook loop tapes ensure controlled compression, easy application and no loosening. Large skin contact area eliminates need for adhesives or over tightening. Ideal for weak or geriatric skins. Inbuilt spreader bar and traction cord.

## Cervical Traction Kit (Sitting)

Product Code: G-25 Size: UN

Tynor CT Head Halter is highly anatomic halter to provide effective and comfortable traction. Made out of three-layered aesthetically pleasing, PU bonded fabric. The skin interface layers provides soft feel and plush looks. Polymer gel insert gives excellent cushioning to the occiput with no pressure points.

IMPROVED

## Pelvic Traction Kit

Product Code: G-24 Size: S, M, L, XL

Pelvic traction belt is a traction halter which holds the pelvic area and pulls the vertebral column. Made out of three-layered aesthetically pleasing, PU bonded fabric. The skin interface layers provides soft feel and plush looks. Middle PUF layer imparts excellent cushioning and wrinkle free property. Large hook loop area not only makes the belt more versatile in size but also improves the holding and the grip.

## Traction Weight Bag

Product Code: G-20 Size: UN

Extra large capacity, 12 Kg with sand. sealed with "state of art", radio frequency waves, which ensures no leakage or spillage, even on prolonged use. Thicker & softer material makes it durable & crack resistant. Elliptical, drop shape ensures better aesthetics. Larger filling port ensures quicker & easy filling of water or sand. Bold & clear markings make it easy to fill and use.

IMPROVED

## Weight Cuff

Product Code: H01 Size: 1/2Kg  
H02 Size: 1Kg  
H03 Size: 2 kg

Weight Cuff is made out of three layered Neoprene foam bonded fabric, with a four way stretch, the outer layers are made out of strong nylon fabric which ensures a long life, good aesthetics and color fastness. Filled with steel balls. It has a long and double safety hook and loop closure for easy adjustment and a secure fitting. Improved aesthetics and color combination makes it appealing for any exercise setting.

NEW

## Exercising Gel Ball Trio

Product Code: H-10 Size: UN

Made of superior quality gel with high resilience, to provide extreme cushioning, firm support and desired resistance.

## Exercising Ball PU

Product Code: H-5 (Ortho / Neuro)

Inert MDI PU foam - safe to use. Excellent resilience with a long functional life. Two resistances Ortho (hard) & Neuro (soft). Compatible for thermal or hydrotherapy. Flexible and pleasurable exercise plans can be designed to give better compliance.

## Tyroband

Product Code: H-14-H18 Size: UN

Resistant bands with unique property to provide a calculated and consistent counter force for any kind of Isotonic exercise plan. Series of bands with increase in resistance force are available with color codification. Useful for rehabilitation and strength-gain exercise plans.

NEW

## Super Exercising Gel Ball

Product Code: H-27 Size: UN

Made of superior quality gel with high resilience, to provide extreme cushioning, firm support and desired resistance

## Cool Pack

Product Code: H-11 Size: Std., CH, S

High cooling hydrophilic gel is an excellent tool for cold therapy, it provides effective relief from fever, injury and inflammation. The gel pouch is made out of soft and flexible PU/PVC film for effective cooling. Fabric cover prevents cryo burns and ensures convenience. The product remains soft and supple even at below zero temps.

## Cool Pack Knee Wrap

Product Code: I-02 Size: UN

The anatomical knee wrap design ensures best coverage of affected knee. The gel pouch is made out of soft and flexible Poly Vinyl film, filled with a high performance hydrophilic gel. Fabric on the inner side prevents cryo burns and ensures easy application. 3 elasticized straps ensure good compression against the knee for fast therapy and recovery.

## Hot & Cold Pack (Beads)

Product Code: I-44 Size: UN

Versatile device to provide both hot and cold compresses with temperature range 4 to 60 degree C. Reusable with a long functional life. Can treat inflammation, muscle spasm, pain, injury and hyperpyrexia. Non-toxic, biodegradable gel remains soft and flexible on freezing. Plush fabric cover is durable, soft and gentle. The elastic belt makes it "hands free" & body conforming.

## Heating Pad Ortho

Product Code: I-73 Size: Std., Spl.

PTFE extruded heating element ensures, complete protection against electric shock, higher temp stability and long functional life. High quality fabric Pad has excellent aesthetics and workmanship with a feather touch soft feel. It is flexible, conforms to the body contours and ensures no hot spots. Design features: Water repellent thermostat, Detachable cord, Stable heating temp, 90 min. shutoff with a LED indicator, 40°-80° temperature range.

## Ortho Heating Gel Bag (Electric)

Product Code: I-87 Size: UN

Portable device to provide effective heat therapy for long duration. The warmth decreases muscle spasm, relaxes tense muscles, relieves pain and can increase the range of motion by inducing vasodilation and tissue healing. Quick electric charging ensures product is ready in minutes and is cordless in-use for safety and unrestricted access.

## Ortho Heating Gel Bag (Electric) Trend

Product Code: I-96 Size: UN

The gel pouch is 3 layered, with appropriate materials, properties and heat conduction. Multiple safety features like thermal cutoff & thermal fuse ensures better life & safety.

NEW

## Morflo KN95 Mask

Product Code: H-24 Size: UN

Entire mask is a respirator with high filtering property to maximize area for performance and comfort. The anatomic design ensure, nose, mouth and chin are fully covered with sufficient breathing space. All the layers are optimally selected to maximize filtering efficiency and ease of breathing.

NEW

## Mask Fabric Washable

Product Code: H-25 Size: UN, CH., Spl.

User friendly, hygienic protective mask with 3 layers of filtering fabric. High hygiene, possibility of reuse with washing is the hallmark of this product. The anatomic design ensure, nose, mouth and chin are fully covered with sufficient breathing space. All the three layers are optimally selected to maximize filtering efficiency and ease of breathing. The anatomic design ensure, nose, mouth and chin are fully covered with sufficient breathing space.

NEW

## Morflo N95 Mask with valve

Product Code: H-26 Size: UN

Meets high standard of filtration, Approved as per European Certificate EN149/ FFP3/KN95/ N95. Uni-direction, exhalation valve is expertly designed and is extremely efficient. It clears the warm and moist exhaled air keeping the mouth area cool with least carbon dioxide accumulation. The anatomic design ensure, nose, mouth and chin are fully covered with sufficient breathing space. All the layers are optimally selected to maximize filtering efficiency and ease of breathing.

NEW

## Personal Protective Equipment Kit

Product Code: PPE 1-24 Size: S, M, L

Made from, lightweight fabric, impermeable to liquids and body fluids. Coverall with shoe covers is made out of high tensile strength, light weight soft laminated fabric. Morflo KN95 Mask anatomical design ensures nose, mouth and chin are fully covered with sufficient breathing space. Goggles are made of Soft Polymer, designed to keep eyes protected from any kind of contaminations, fully transparent material resulting in clear visibility.

## Cocyx Cushion Seat

Product Code: H-13 Size: UN

Anatomical design distributes body weight equally. Promotes a perfect posture. Recess and a hole reduce the pressure on the anal area and the tailbone. High density foam with high viscoelastic properties has excellent cushioning & a long functional life.

Fabric cover has a non-slip rubber bottom and a highly stretchable top to conform to the body contours.

## Breast Prosthesis

Product Code: H-19 Size: B30/75, B32/80, B34/85, B36/90, B38/95, B40/100, B42/105cm

An artificial breast form that gives the appearance, feel, touch, softness and weight of a real breast. High quality silicone material used which is similar to our body tissue. Silicone is skin friendly and highly inert material

## Breast Prosthesis Featherlite

Product Code: H-21 Size: B30/75, B32/80, B34/85, B36/90, B38/95, B40/100, B42/105cm

Made from high quality polymer with superior aesthetic value.

The breast form is covered with a soft fabric cover which is gentle to the skin and fits perfectly when worn with a mastectomy bra.

## Mastectomy Bra

Product Code: H-22 Size: B30/75, B32/80, B34/85, B36/90, B38/95, B40/100, B42/105cm

Sleek and anatomic design with ultra soft fabric and good ventilation. Cotton blend gives a stretch-perfect fit and is gentle on the healing tissue. The inner pockets are designed to comfortably and securely hold breast prosthesis with gentle seams not irritating the sensitive skin around.

NEW

## Ortho Cushion Seat

Product Code: H 23 Size: UN

Molded out of high density, superior quality PU foam with high viscoelastic properties, to provide firm support, high cushioning and desired comfort. It is anatomically designed and has a cut out for anal and the tail bone area relief.

## Tourniquet

Product Code: I 01 Size: S, M, L

A convenient vaso-constricting device used to restrict venous blood flow in the appendages for a short period of time. Made up of durable hook loop tape and buckle, to ensure sufficient constriction force using reverse pull mechanism.

### Ortho Stockinete 10 Mt.

Product Code: I-09 Size: 50 mm  
I-10 Size: 75 mm  
I-11 Size: 100 mm  
I-12 Size: 125 mm

Made from high quality long stapled cotton. Seamless fabric knitted on state of art looms provides a durable, comfortable and hypo-allergenic interface between skin and various orthotic or prosthetic devices. Comes in easy dispenser packs.

IMPROVED

### Back Rest Full

Product Code: I-46 Size: UN

Anatomic design, maintains the natural low back curve & relieves the anterior pressure on the vertebrae. Side supports hold the body and enhance comfort. High density of PU foam used offers high resilience, better cushioning and longer functional life of the product. Removable and washable cover gives plush looks to match, car or office interiors.

### Scrotal Support

Product Code: I-59 Size: S, M, L, XL

Anatomical pouch provides sufficient space, effective support, lift to the scrotum, and a separate pocket for penis. Strong, stretchable fabric provides required compression and comfort.

Stretchable waist belt with broad hook-loop panel ensure easy application, sizing flexibility, customized compression and perfect fitting. Dermophilic materials enhance comfort, ensure no rash, allergy or abrasion. Light in weight, can be worn inconspicuously under the clothes.

### Restrainer

Product Code: I-65 Size: UN

Wrist cuff with air filled bubble interface ensure good grip, high cushioning, enhanced comfort and increased air circulation. Soft & non abrasive materials ensure no rash or allergy and no wound or injury even on repeated use. Polyester strap with Adjustable buckle provide secure tying to the bed/chair and easy length adjustment Universal size, for both wrist and ankle.

NEW

### Lumbo-Back Rest

Product Code: I-91 Size: UN

Resilient foam material and shape to provide complete back support to the lower back while sitting. Adjustable strap can be fixed to any chair. Soft, plush yet durable outer cover imparts a nice touch and feel and an aesthetic outer to match any environment.

NEW

### Lumbo-Back Rest Urbane

Product Code: I-92 Size: UN

Made out of high quality memory foam, with excellent viscoelastic properties making it auto-conform to body contour, embracing the body softly. The anatomic shape supports the profile of lumbar back, maintaining the natural curvature of the spine on one hand and the lateral support on the other. It is covered with a plush fabric for comfortable user experience.

NEW

### Travel Pillow

Product Code: I-93 Size: UN

Constructed from high density PU foam that adjusts anatomically to the neck and shoulder providing excellent neck support. Spring-based, single push-button tightening mechanism can be quickly adjusted to achieve the correct fit. High quality fabric cover provides plush looks to go well with any social setting.

NEW

### Travel Pillow Urbane

Product Code: I-94 Size: UN

Constructed from high density memory foam that adjusts anatomically to the neck and shoulder providing excellent neck support. Excellent viscoelastic properties of memory foam makes it auto-conform to body contour, embracing the body softly. Spring-based, single push-button tightening mechanism can be quickly adjusted to achieve the correct fit. High quality fabric cover provides plush looks to go well with any social setting.

NEW

### Bed Back Rest

Product Code: I-95 Size: UN

Made of high strength mild steel frame with strong riveted joints, adds to overall strength. High cushion PU foam covers the seating region and headrest for complete comfort. Ventilated back fabric to prevent sweating and discomfort. Powder coated frame finish for excellent aesthetics.

## Compression Stocking-Classic

Product Code:  
I-15 Mid Thigh  
I-16 Below Knee  
Size: S, M, L, XL, XXL

High Quality, high denier Nylon yarn is dermophilic, provides strong, durable product with long functional life, excellent aesthetics and color fastness. Higher Spandex and Rubber content ensures effective compression. Tapered shape offers graded compression upwards from toe for effective blood evacuation. Closed heel and open toe ensures comfort at the heel, effective blood evacuation and reduced wear and tear.

## Tubular Elastic Bandage 1 Mt.

Product Code: I-27 Size: 45 mm  
I-28 Size: 63 mm  
I-30 Size: 75 mm  
I-31 Size: 88 mm  
I-32 Size: 100 mm

Made from high quality Cotton yarn which remains cool in summers & warm in winters, is dermophilic, hypo allergic and breathable. Lycra and rubber yarns provide strong and uniform compression, firm fitting and a long functional life. Tubular design allows quick pull on wearing. Pleasant skin colored, can be worn inconspicuously under the clothes.

## D.V.T Stocking

Product Code:  
I-66 Knee High  
I-69 Thigh High  
Size: S, M, L, XL

Anatomical shape and graded Spandex ensures accurate compression for effective blood evacuation. High quality Nylon yarn is dermophilic, provides excellent aesthetics and color fastness. Closed heel and Open toe design reduces wear and tear, is easy to wear and improves comfort. Top Silicone band ensures no slippage and no constriction.

## Medical Compression Stocking

Product Code:  
I-67 Knee High Class 2  
Size: XS, S, M, L, XL, XXL  
I-68 Knee High Class 3  
Size: S, M, L, XL  
I-70 Thigh High Class 2  
Size: XS, S, M, L, XL, XXL  
I-71 Thigh High Class 3  
Size: S, M, L, XL

Anatomical shape and graded Spandex ensures accurate compression for effective blood evacuation. High quality Nylon yarn is dermophilic, provides excellent aesthetics and color fastness. Closed heel and Open toe design reduces wear and tear, is easy to wear and improves comfort. Top Silicone band ensures no slippage and no constriction.

## Compression Garment Arm Sleeve + mitten (with thumb)

Product Code:  
I-74 C. Arm Sleeve  
I-75 C. Arm Sleeve + mitten (with thumb)  
Size: SN,SW,MN,MW, LN,LW,XLN,XLW

Garment is designed to provide an anatomical shape with a graduated and a controlled compression. Very helpful in Burns, Lymphedema and other vascular conditions. Stitched from high quality, Rayon and Spandex yarn fabric. It is aerated and has a strong four way stretch for optimum compression of the arm. Mitten fitment prevents upward displacement of garment.

## Compression Garment Arm Sleeve with Shoulder Cover

Product Code: I-77 Size: SN,SW,MN,MW, LN,LW,XLN,XLW

Garment is designed to provide an anatomical shape with a graduated and a controlled compression. Very helpful in Burns, Lymphedema and other vascular conditions. Stitched from high quality, Rayon and Spandex yarn fabric. It is aerated and has a strong four way stretch for optimum compression of the arm.

### Compression Garment Leg Mid Thigh Open Toe

Product Code: I-78 Size: SN,SW,MN,MW,  
LN,LW,XLN,XLW

Garment is designed to provide an anatomical shape with a graduated and a controlled compression. Very helpful in Burns, Lymphedema and other vascular conditions. Stitched from high quality, Rayon and Spandex yarn fabric. It is aerated and has a strong four way stretch for optimum compression of the entire leg.

### Compression Garment Leg Mid Thigh Closed Toe

Product Code: I-79 Size: SN,SW,MN,MW,  
LN,LW,XLN,XLW

Garment is designed to provide an anatomical shape with a graduated and a controlled compression. Very helpful in Burns, Lymphedema and other vascular conditions. Stitched from high quality, Rayon and Spandex yarn fabric. It is aerated and has a strong four way stretch for optimum compression of the entire leg.

### Compression Garment Leg Below Knee Open Toe

Product Code: I-80 Size: SN,SW,MN,MW,  
LN,LW,XLN,XLW

Garment is designed to provide an anatomical shape with a graduated and a controlled compression. Very helpful in Burns, Lymphedema and other vascular conditions. Stitched from high quality, Rayon and Spandex yarn fabric. It is aerated and has a strong four way stretch for optimum compression of the lower leg.

### Compression Garment Leg Below Knee Closed Toe

Product Code: I-81 Size: SN,SW,MN,MW,  
LN,LW,XLN,XLW

Garment is designed to provide an anatomical shape with a graduated and a controlled compression. Very helpful in Burns, Lymphedema and other vascular conditions. Stitched from high quality, Rayon and Spandex yarn fabric. It is aerated and has a strong four way stretch for optimum compression of the lower leg.

### Compression Vest (Sleeveless)

Product Code: I-83 Size: SN,SW,MN,MW,  
LN,LW,XLN,XLW  
XXLN,XXLW

Garment is designed to reduce swelling, offering optimum compression to therapeutically protect and support the breast/chest and abdominal areas. Very helpful in Burns, Lymphedema and other vascular conditions. Stitched from high quality, Rayon and Spandex yarn fabric. It is aerated and has a strong four way stretch for optimum compression.

### Compression Garment Face Open Hood

Product Code: I-85 Size: UN, SPL

Face Open hood helps reduce swelling, offering optimum compression to therapeutically protect and support the facial region. Very helpful post facelift and other cosmetic surgery, apart from Lymphedema and other vascular conditions. Stitched from high quality, Rayon and Spandex yarn fabric. It is aerated and has a strong four way stretch for optimum compression.

# NEOPRENE PRODUCTS

## Knee Support Hinged (Neo)

Product Code: J-01 Size: S, M, L, XL, XXL, XXXL

Bi axial, strong hinge ensures full weight bearing along with free and natural knee flexion. Silicon patellar padding compresses the patellar tendon, relieves patellar pressure, positions patella in patellar dislocations. Anatomic construction ensures strong support and a comfortable fit. Anti tourniquet strapping ensures snug fit but no constriction to blood flow. Ideal Neoprene fabric construction.

## Wrist Wrap (Neo)

Product Code: J-04 Size: UN

Neoprene sandwiched in nylon fabric has 4 way stretch, excellent durability, strong compression with appealing aesthetics. Wrap around design with UBL fabric layer, ensure customized compression, better grip, better wrist stabilization and easy application. Thicker fabric ensures therapeutic heat, increased blood circulation, & faster healing.

## Wrist Brace with Thumb (Neo)

Product Code: J-03 Size: UN

Neoprene sandwiched in nylon fabric has 4 way stretch, strong compression with appealing aesthetics. Wrap around design with UBL fabric layer, ensure customized compression, better grip, and easy application. Anatomical thumb opening gives abduction & comfort to thumb. Thicker fabric ensures therapeutic heat, increased blood circulation & faster healing.

## Knee Wrap (Neo)

Product Code: J-05 Size: UN, Spl.

Anterior wrap around design with UBL fabric layer, ensure customized compression, better grip, and easy application. Neoprene sandwiched in nylon fabric has 4 way stretch, strong compression, excellent durability with appealing aesthetics. Thicker fabric ensures therapeutic heat, increased blood circulation, & faster healing.

## Abs Wrap (Neo)

Product Code: J-06 Size: UN, Spl.

UBL fabric layer, ensure customized compression, better grip, and easy application. Neoprene sandwiched in nylon fabric has 4 way stretch, strong compression, excellent durability with appealing aesthetics. Tones up loose abdominal muscles. Excellent workmanship and pleasing looks. Can be worn inconspicuously under the clothes.

## OA Knee Support (Neo) (Rt/Lt)

Product Code: J-08 Size: S, M, L, XL, XXL

Oblique elasticized bands provide counter force to correct varus or valgus thrust, & allay pain. Corrects the mild deformity on prolonged use. Rigid bi axial hinge ensures full weight bearing along with free and natural knee flexion. Anterior closing & anatomic construction ensures strong support no bunching & easy application. Ideal Neoprene fabric construction.

### Knee Support Sportif (Neo)

Product Code: J-09 Size: S, M, L, XL, XXL

Aesthetically designed for sporting activity. Pleasing, double colored & trendy, can be worn fashionably. Top and bottom bands allow a controlled compression, better grip and easier slide while wearing. Back perforation, improves ventilation & comfort, ensures no bunching. Anterior patellar opening relieves patellar pressure, positions patella in dislocations. Ideal "Neoprene" construction.

### Knee Wrap Hinged (Neo)

Product Code: J-15 Size: CH, S, M, L, XL, XXL

Aesthetically designed for sporting activity. Pleasing, double colored & trendy, can be worn fashionably. Top and bottom bands allow a controlled compression, better grip and easier slide while wearing. Back perforation, improves ventilation & comfort, ensures no bunching. Anterior patellar opening relieves patellar pressure, positions patella in dislocations. Ideal "Neoprene" construction.

### Ankle Support (Neo)

Product Code: J-12 Size: UN

Semirigid splint arrests the inversion and aversion motion, enhances grip in sprains and ankle roll overs. Wrap around wearing ensure easy application, removal and customized compression. Neoprene fabric ensure comfort, durability and better grip. It retains heat for faster healing and pain relief. Anatomical, sleek design ensure perfect fitting and use inside the shoe.

### Shoulder Support (Neo)

Product Code: J-14 Size: UN, Spl.

UBL fabric layer, ensure customized compression, better grip, and easy application. Neoprene sandwiched in nylon fabric has 4 way stretch, strong compression, excellent durability with appealing aesthetics. Better heat retention promote faster healing & pain relief. Anatomical shape ensures good grip around the shoulder & better immobilization. Can be worn inconspicuously under the clothes.

### Ankle Wrap (Neo)

Product Code: J-16 Size: UN, Spl.

Figure of 8 wrap design provides customized compression for strong binding and stabilization of all ankle movements. It provides extra protection to lateral ligaments. Ergonomic design ensures perfect fitting. Can be used inside the shoe & has easy application and removal. Neoprene fabric provides high compression, comfort, better grip, durability, heat retention for pain relief and faster healing.

# FOOT CARE PRODUCTS

## Insole Full Silicone

Product Code: K-01 Size: S, M, L, XL

Ergonomic and Anatomical Design ensures better weight distribution, reduces strain on muscles and tendons. Transparent Silicone has high cushioning, excellent shock absorption and long functional life. It is odorless, hypoallergenic, easy to clean and aesthetically pleasing. Soft Spots relieves pressure at the base of the Calcaneus, provides focused pain relief. Optimal thickness for effective cushioning. Can conveniently be put into shoes.

## Metatarsal Pad Gel

Product Code: K-08 Size: UN

Metatarsal Pad is designed to provide prevention of Metatarsal pain, soreness, corns, mortons, neuroma etc. Absorbs shock, and alleviates painful rubbing and friction on walking. Made from Silicone/TPE, has high cushioning coefficient, resists bacterial/fungal growth, has long functional life, is odorless and washable. Easy stick on application and thin construction allows easy positioning inside the shoe.

## Heel Cushion Silicone

Product Code: K-02 Size: S, M, L, XL

Transparent Silicone which has high cushioning coefficient, excellent shock absorption/energy return and long functional life. It is odorless, hypoallergenic, easy to clean and aesthetically pleasing. Soft Spots relieves pressure at the base of the calcaneus and provide focused pain relief. The honey comb structure further enhances shock absorption properties.

## Heel Cup Silicone

Product Code: K-09 Size: S, M, L, XL

Thin construction ensures, it can be used in normal shoes. Anatomical design, ensures better weight distribution. Helps to reduce peak load & correct any body misalignment. Extra soft spot relieves pressure and pain at calcaneus. Silicone has high cushioning coefficient, absorbs impact, has a long functional life. It is odorless, easy to clean & maintain.

## Toe Separator Silicone

Product Code: K-04 Size: S, M, L

Anatomically designed, aligns big toe, relieves pain in Halux valgus, callus, corn or bunions. Separates toe fingers, takes care of toe fungal infections like Dhobi itch. Silicone has high cushioning coefficient, absorbs impact, has a long functional life. It is odorless, easy to clean and maintain. Comfortable, offers better tolerance and compliance. Can be used in post surgical care.

## Bunion Splint

Product Code: K-14 Size: UN

Ergonomic design : Light weight, sleek design, anatomically shaped for good fit. For day or night use. Can be worn in shoes. One size fits almost all. Dynamic Hinge Joint allows walking. Metal rivet ensures durability of the joint. Molded PE foam Cushion Pad provides enhanced cushioning and comfort. High quality tapes and fasteners are durable, Are easy to wear and remove.

### Medial Arch Orthosis

Product Code: K-10 Size: S, M, L  
K-11 Size: CH1, CH2, CH3

Moulded, PU body gives a perfect foot anatomy for proper weight distribution, has antifungal, anti slip properties. Ensures long life with no cracks or deformation. Honey comb design makes it light in weight, and improves aesthetics. Fabric lining gives feathery feel, improves aesthetics & wearing, absorbs sweat & improves comfort. Quarter design is easy to wear in a regular shoe.

### Arch Support Semi Pro

Product Code: K-15 Size: S, M, L

Easy stick on application, optimal curvature for effective arch support, comfortable hardness, streamlined shape, matte surface for good grip to the foot. Molded out of strong transparent elastomer for long functional life, it is odorless and hypoallergenic with pleasing aesthetics. Easy to clean and maintain.

### Insole Gel Female

Product Code: K-16 Size: S, M, L

Anatomical design ensures better weight distribution, reduces strain on ligaments, muscles and tendons. Easy stick on application and optimal thickness gives effective cushioning on one hand and convenience of use inside the shoe. Made of transparent elastomer with high shear strength, very high cushioning & excellent shock absorption. It is aesthetically pleasing, odorless and easy to clean.

### OA Wedge Insoles

Product Code: K-18 Size: S, M, L, XL

OA Wedge Insole is designed to effectively correct and manage the foot position in Osteoarthritic knee with varus-valgus deformity. Molded from an advanced and highly durable elastomer.

### Heel Protector

Product Code: K-17 Size: UN

Ergonomic design, It is soft and cushiony with easy stick on application. It improves shoe fit and comfort, reduces slipping and rubbing and protects against blisters and irritation. It is made of transparent elastomer with high cushioning coefficient, excellent shock absorption and energy return. It has high shear strength and a long functional life. It is odorless, hypoallergenic, aesthetically pleasing and easy to clean.

## Contoured L.S. Belt

Product Code: L-01 Size: S, M, L, XL

Pre-contoured, anatomical, rigid splints provide effective immobilization, maintain correct & comfortable posture. Extra strong elastic ensures good compression and effective immobilization. Double pull mechanism, enhances compression & splinting action. "Ethafoam" back pad offers high cushioning in thin sections, enhances comfort, without compromising on immobilization.

## Abdominal Belt

Product Code: L-03 Size: S, M, L, XL

Extra strong three panel elastic provides a strong compression. As a post operative or post delivery aid, binds surgical incisions, improves healing. Provides comfort during sudden movements or coughing in thoracic surgeries. Can be used to compress the bulge or tone up abdominal muscles. Can also be used in ventral hernia. Soft splints prevent rolling over of the belt.

## Lumbo Sacral Belt

Product Code: L-02 Size: S, M, L, XL

Ideal back support for general use in mild back ache or as a prophylactic aid. Flexible back splints, on wearing takes the body's shape for comfortable immobilization. Elastic with high modulus of elasticity ensures durability and resilience. Double pull mechanism provides extra compression & improves splinting action. Effective design with high value for money.

## Pouch Arm Sling (Oxypore)

Product Code: L-04 Size: S, M, L, XL

Sleek and ergonomic design. Extra thick spacer fabric offers durability, smart looks, and is wrinkle free. It ensures very high ventilation. Highly porous, ensures extreme comfort to the patient in hot and humid conditions. The closing and opening of buckle allows easy wearing. Adjustable "Ethafoam" shoulder pad takes the load of the arm. Optimal positioning of the arm possible by adjustable sling.

## Knee Cap

Product Code: L-06 Size: S, M, L, XL

It is tubular support which anatomically envelops the knee joint to provide effective compression, warmth & support. It has two layers, interwoven with rubber thread for high elasticity. The outer layer is Nylon and inner layer is cotton, which is hypoallergenic, absorbs sweat, is warm in winters and cool in summers.

## Knee Immobilizer 19"

Product Code: L-42 Size: S, M, L

Made out of high quality, three layered P.U. foam fused fabric which is breathable and cushiony to provide patient comfort. The splinting system ensures a complete immobilization of the knee joint post surgery/injury to allow healing. The back splints are shaped to provide an angle of 165 degrees to ensure immobilization in slight flexed position. The lateral splints are shaped to allow space for the anatomical protrusion at the knee.

## Walking Stick (Soft Top Handle)

Product Code: L-07  
Color: Silver, Black

Double molded handle with extra soft cushioning provides comfortable grip, can be used for extended hours by geriatric patients. Light weight aluminium body is strong with high weight bearing. Anodizing enhances the aesthetics. Excellent workmanship, pleasing looks, smooth functioning and customization. TPE pod with innovative design is durable with anti slip properties.

## Walking Stick (L Type)

Product Code: L-08  
Color: Gold, Silver, Black

Light weight aluminium body is strong with high weight bearing. Anodizing enhances the aesthetics. Anatomical ABS Handle is durable, provides comfortable grip and is nice to touch. Excellent workmanship, pleasing looks, smooth functioning and customization. TPE pod with innovative design is durable with anti slip properties. Available in multiple colors.

## Elbow Crutch Adjustable

Product Code: L-13 Size: UN

Customized sizing of elbow and leg piece improve weight bearing & user confidence. Flipping elbow piece with loop tightening ensure better user confidence, allows free use of hands. Soft top handle improves cushioning, reduces hand fatigue. Polymer elbow piece is anatomically shaped, strong & comfortable. Excellent workmanship ensure easy size customization & improved aesthetics.

## Walking Stick Quadripod

Product Code: L-12 Size: UN  
Color: Silver

Broad base ensures high stability, confidence and higher load bearing. Left and right hand use flexibility offers one size for both hands. Special pods are durable with antislip properties. Light weight Aluminum body is durable and strong. Anodizing enhances the aesthetics. Anatomical handle with soft top is durable and provides comfortable, fatigueless grip. Excellent workmanship ensure pleasing looks, smooth functioning and customization.

## Walker Invalid's Recp. - All Pods - AL

Product Code: L-20 Size: UN

Both Reciprocating & conventional modes. Switch by convenient lock pin. In reciprocating action, two legs remain grounded, ensures stability for weak patients. Maintains natural gait. Strong, anodized aluminum body is durable, light in weight, rust proof with pleasing aesthetics. Folded height 10 cm only, easy to transport or store. Smooth functioning, comfortable use with pleasing looks.

## Walker Foldable Ergo

Product Code: L-37 Size: UN

Made from high strength Steel alloy. Durable with good weight bearing capacity. Strong riveted joints add strength. NiCr plating gives a long lasting, superior finish and perfect aesthetics. High performance TPE Pods provides excellent traction, high wear resistance and high resilience. Foldable for easy storage and transportation. Foam Hand grips are extra soft & comfortable, they ensure less fatigue.

## Pod 13,15,19,22, 25 & 28mm

Product Code: L-09 Size: 19 mm, L-10 Size: 22 mm  
L-11 Size: 13 mm, L-33 Size: 28 mm  
L-38 Size: 15 mm, L-39 Size: 25 mm  
L-40 Size: 13 mm

TPE construction ensures a very long functional life, excellent aesthetics and antislip property. Steel disc inside ensures a durable interface between the metallic pipe and the pod and doesn't let the pipe cut the pod, thus enhancing life of the pod. Ergonomic design enhances aesthetics and functionality.

### Auxillary Crutch

Product Code: L-21 Size: S, M, L

Made from high strength grade aluminum. Ergonomically contoured underarm piece with very comfortable, highly resilient, elastomeric, cushioning pad. Soft padded, anatomically shaped, hand grip with a flat top for enhanced user comfort & pleasure. Easy height adjustment with 1 inch increment. Pods with high wear resistance & excellent traction.

### Walker Invalid's HD- All Pods/wheels

Product Code: L-29 & L-34 Size: UN

Rigid steel frame ensures durability with a high weight bearing capacity. Chrome finish makes it aesthetically pleasing and rust proof. High density Foam Hand Grips, give a soft and fatigueless usage. High quality workmanship, improved aesthetics & smooth adjustments adds pleasure for the user. Small foldable depth, improves ease of carrying and storage. Front wheels allow patient to glide on the walker without lifting it.

### Walker Invalid's - Front Wheels - AL

Product Code: L-28 Size: UN

Durable polymer wheels provide a gliding movement. Wheels are mounted on a swivel joint, which ensures smooth 360 degrees turning radius. Ideal for very weak patients. Strong anodized aluminum body is durable, light in weight, rustproof with pleasing aesthetics. Folded height 10 cm only, easy to transport or store. Smooth functioning, comfortable use with pleasing looks.

### Commode Chair

Product Code: L-35 Size: UN

Ergonomics at its best. It can be easily folded without dismantling. Occupies least space, has adjustable height and a removable sanitary container. Rigid steel frame ensures a very sturdy, durable product which has a high weight bearing capacity. Chrome finish makes it aesthetically pleasing and rust proof. Molded polymer components are durable, aesthetically pleasing, hygienic and easy to maintain.

### Walking Stick Tripod

Product Code: L-32 Size: UN

Color: Silver

Broad base ensures high stability and fall angle, confidence and higher load bearing. Left and right hand use flexibility offers one size for both hands. Special pods are durable with antislip properties. Light weight Aluminum body is durable and strong. Anodizing enhances the aesthetics. Anatomical ABS handle with soft top is durable and provides comfortable, fatigueless grip. Excellent workmanship ensure pleasing looks, smooth functioning and customization.

### Quadra Stick

Product Code: L-36 Size: UN

Color: Black

Aerodynamic base design ensures high stability, confidence and load bearing capacity. 20% lighter than conventional product. Ambidextrous design offers one size for both hands. Special material of pods ensures a long life and anti-slip properties. Lightweight Aluminum alloy body provides high strength and durability. Anodizing enhances aesthetics. Anatomical handle with soft top provides comfortable, fatigue less grip.

NEW

### Pod Trio (19mm)

Product Code: L-46 Size: UN

Made from combination of multi body rigid polymer and semi-rigid elastomer. These components are designed to provide an excellent flex property at the pod neck to allow natural walking gait. The pod tip material is chosen to provide superior traction and anti-skid properties.

NEW

### Pod Tetra (19mm)

Product Code: L-47 Size: UN

Made out of a semi-rigid and durable elastomer. The pod material has among the best anti-slip properties and can flex at the neck to allow natural walking gait

NEW

### Walker Invalid's - All Pods

Product Code: L-41 Size: CH

Highly functional design. Covers wide user height from 3'8" to 5'. Quick, self locking mechanism. Ready to use with very easy locking system. Pods provides excellent traction, high wear resistance and high resilience. Strong, anodized Aluminum Body is rust proof and Durable. Strong riveted joints, strengthen the walker. Light weight aluminum frame. Easy to carry and fold for convenient storage and transportation.

NEW

### Commode Chair Ergo

Product Code: L-43 Size: UN

Robust and Safe design. Foldable Secure Latch locking and user handling. Wide seating space. Ergonomic backrest Durable, non-slip floor pods secure the chair to the floor. Long rust free life. The sanitary container easily comes out for easy removal and cleaning.
