About us

Established long years back in 1980 (35 years of establishment), we, Electromech Services, are one of the leading **Manufacturers, Suppliers and Traders** engaged in manufacturing and supplying of an unbeatable range of best quality electrical products. We have a wide collection of these products so that each and every precise requirement of our valued clients can be met effectively. Our range of products comprises of Air Break Switch, G.I. Pin (Electrical), Stay Sets, Tension Fitting, and Electrical Clamps & Connector. All these products are fabricated by using cutting edge technology and supreme quality raw material, sourced from well-reputed vendors of the market. Additionally, we are offering these products in different specifications and capacities so that clients can purchase the best suitable products as per their requirement. Since our presence in the market, we have always been committed towards presenting best in class quality products at most competitive rates. Today, we are counted among the reputed manufacturers of good quality electrical products.

Why Us

Our years of experience and in-depth knowledge make us capable to present an excellent range of best in grade electrical products. We use innovative techniques and modern technology while fabricating these high quality products. All our products are delivered to our clients with the assurance of quality and high performance. Moreover, we follow transparent business policies while dealing with our valued patrons based across the city. Our high quality products and ethical business policies make us preferred choice of our esteemed clients. We are committed to maintain the quality of our products, owing to which we have established ourselves as a reputed firm.

Our Team

It is our belief that an adroit team of skilled personnel plays a vital role when it comes to the growth and success of any firm. It is our team that has taken us to the position of a well-established organization. All our personnel work dedicatedly to attain the trust and satisfaction of our valued clients. They assist us in fabricating only premium quality product using their innovative ideas and best techniques. We have skilled engineers in our team, who are recruited by us on the basis of their educational background and experience in the relative domain.
