TOWHOM SOEVER IT MAY CONCERN

Sahayamatha Salterns P.Ltd. is the only company in the country mass culturing and supplying the brine shrimp, *Artemia* under the brand name "Marian" to most of the commercial shrimp hatcheries and also to aquarium fish breeders and ornamental fish hobbyist in India.

The company wanted to go in for various valued added products of Artemia such as "Freeze Dried Artemia", "Artemia Flakes" etc. As a first step, a Pilot Freeze Drying unit has been purchased from M/s.Esquire Biotech of Chennai, who has the reputation of manufacturing and supplying quality Freeze Dryers of varying capacities for Research laboratories and to many commercial establishments in India.

The Freeze dryer is working to our satisfaction and the end-product is of very high quality.

We strongly recommend M/s.Esquire Biotech for your freeze-drying requirements.

  
Dr. Joseph P. Royan
