European Technology at Indian Price. ECOSTRETCH from **CYKLOP**
INTERNATIONAL

**Stretch Wrapping Machine
Standard Models**

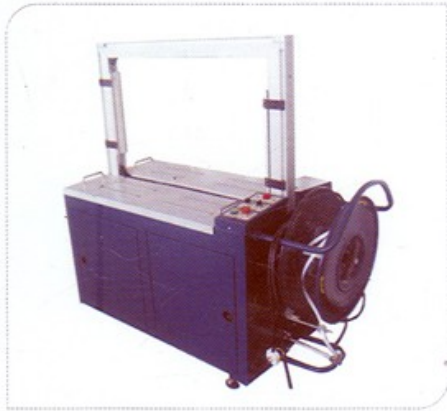

Wraps irregular shaped loads. Uses forktruck/palletjack to load stretch wrapper. Operator starts wrap cycle at machine. Operator manually cuts/attaches film.

Strapping Machines & Strapping Tools

VG Packs strapping machines, ranging from affordable semi automatic units, to fully automatic high tech, ease of use machines. Our strapping machines will suit 6-16mm strap, as well as having many features to suit your warehousing requirements.

Automatic Strapping
Machine - Standard Model

Semi Automatic Strapping
Machine - EXS306

Floor Model Semi Automatic
Strapping Machine - EXS306L

Battery Powered Strapping Tools

The high strap tension of these portable plastic strapping tools permits the processing of plastic straps up to a width of 19 mm and a thickness of 1.35 mm. The heavy polyester straps permit the problem-free replacement of the traditional steel straps and result in considerable savings.

Zapak ZP 26

Cyklop CMT 250

Pneumatic Strapping Tools

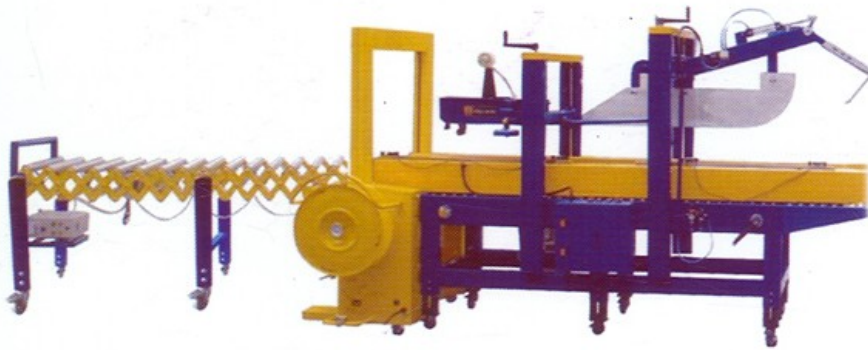

These stationary strapping machines facilitate perfect strapping of packaged goods in the most diverse industries and for a multitude of strapping applications. These are suitable for use with PET straps up to a thickness of 1.35 mm and achieve a very high strap tension.

CPC 16-19

Carton Sealing Machines

VG Pack Carton sealing machines work well for low & high volume and low & high speed productions, in which an operator loads the carton, folds the flaps, and pushes the carton into the carton sealer. These reliable case sealers are designed for industrial environments, and seal a wide range of cases.
