

- Five Section centrally positioned RADIO – TRANSLUCENT table top without any cross member facilities C-arm imaging.
- Operating positions i.e. Height adjustment, Trendelenberg, Reverse Trendelenberg, Lateral Tilt and back section are precisely and smoothly controlled by cabled remote control through imported Linear Actuators.
- Remote is ergonomically designed to have an easy and better grip with symbolic position figures.
- The head and leg section are detachable and interchangeable capacitating a single table's use in varied surgical procedures. These are manually operated by means of ratchet system.
- Manually operated jack type kidney elevator flushed with the table top.
- Lock & Unlock Lever for the movability of the table on wheels
- Remote Control with cable connection having Appropriate length

ACME
(A Company of Medical Equipments)

CE

**EUROPEAN QUALITY
CERTIFIED**

Infrastructure

We have state-of-the-art infrastructure located in Jaipur. The manufacturing facilities are equipped with the latest production machinery in order to produce high quality, ergonomically designed Operation Tables & hospital furniture

We have a team of trained and experienced staff including middle and senior level engineers and technicians. All the production work is done in-house that ensures optimum utilization of available resources. It also enables us for adhering to on-time delivery schedules.

Our Machinery includes: Hydraulic Shearing Machine, Hydraulic Press brake, Hydro Pneumatic Pipe Cutting Machine, Mechanical Pipe Bending Machine, Mig Welding, Argon Welding, Hydraulic Press.

O.T. Tables

ACME 1201BS is specially designed for bariatric surgery. Being robust and reliable the O.T. Table can bear load of heavy patient of up to 250kgs. Its steep reverse trendelenberg position, surgeon can easily sit during long surgery.

**Electric O.T. Table
(For Bariatric Surgery)**
Code : ACME 1201 BS

Its split leg section(0° to 180°) provides the surgeon wide and easy access between legs of patient.
