

# BOND - SE-01

## SILICONE SOFTENER MACRO-EMULSION

**BOND-SE-01** is a high solids macro-emulsion of modified silicone fluid and an environmentally friendly emulsifier that gives excellent surface smoothness along with durable softness and a unique handle. **BOND-SE-01** can be used by exhaust as well as padding processes as per requirements.

### CHARACTERISTICS ADVANTAGES

- Excellent surface smoothness, slipperiness and softness with a unique handle
- Excellent durability
- Dilution stable
- Very low yellowing
- Compatible with other finishing agents
- Non-ionic
- Effective at very low concentrations

### PROPERTIES

Type	Silicone emulsion
Appearance	Milky white liquid
pH	6
Solid Content	~55%
SHELF LIFE from dt. of mfrg.	6 months in the original container when stored below 32oC. Do not subject to temperatures below 0oC and above 38oC.
PACKING	50 kg HDPE carboy and 200 kg drums

### APPLICATIONS AND INSTRUCTIONS

Shake before use. Customers are advised to check results on specific cloth themselves. It is especially useful for polyester, cottons, sarees, and suiting, woven & knitted fabrics as well as for their garments. For fabric mainly it can be used by padding and for garments mainly it can be used by exhaust method.

The information contain here in is reliable and accurate the best of our knowledge. Technical services will provided for guidance when required. However conditions of uses and methods of application are beyond our control, no warranty is expressed or implied.

ALSO AVAILABLE CONSTRUCTION CHEMICALS FOR REPAIRS, REHABILITATION OF BUILDING, BRIDGE, DAM, CANAL, TUNNEL & MARINE STRUCTURES, ETC.

RESINS	PAINTS	GROUTS	CONCRETE ADMIXTURE	FLOORINGS	WATERPROOFING	ADHESIVE	LACQUERS
