

**Foam Control Agent**

General Purpose

---

**Typical chemical and physical Properties**

**D'FOAM OF 3520** is a silicone-based defoamer catering to multiple applications across wide spectrum of applications such as industrial waste cleaning, waste water treatment ,Gas Sweetening and gas Drying etc.

**A Blend of polydimethyl siloxane, silica, polyether silicones and surfactants**

PROPERTIES:

Appearance	Milky White Emulsion
Active content (%)	20 ± 1
Diluent	Water
pH	7.5 ± 1.0
Specific Gravity	approx. 1.00
Ionicity	Non-Ionic

---

**Applications and typical treat level recommended**

Dosage\* 50ppm to 100ppm

\* - exact dosage can only be arrived at by conduction a plant scale trial.

It is recommended to use **D'FOAM OF 3520** in its natural state or in pre-diluted state of upto 5% solution in water. Concentration can be adjusted according to the stubbornness of foams.

**D'FOAM OF 3520** may also be distributed with a water dilution system and / or with a special metering system for automatic dosing, which means product will be automatically added only when needed.

---

**Benefits**

**D'FOAM OF 3520** performs tremendously in controlling foam generation in general chemical processing applications such as industrial cleaning, waste water treatment, Gas drying & Gas Sweetening etc.

It is very effective even at low concentrations and facilitates smoother pump operation, transport.

**D'FOAM OF 3520** leaves no residues in the pipes or valves of the equipment used.

# D'FOAM OF 3520
