

D'FOAM ACC 42 D

Powdered Antifoam

Laundry Detergents and Agrochemicals

Typical chemical and physical Properties

D'FOAM ACC 42 D is a free-flowing powdered antifoam suited for manufacturing of non-foaming laundry detergents and making pesticides in powder form.

Powdered Antifoam containing silicone antifoam compound

PROPERTIES:

Appearance White free-flowing granules

Bulk Density 740g/l

Granulometry – mean particle size 0.500mm

Cake strength zero

Applications and typical treat level recommended

D'FOAM ACC 42 D can be easily added / blended into all components of dry mix formulations. Recommended level of addition is approx. 0.1% to 0.4% of total weight.

Benefits

Dry mixes containing **D'FOAM ACC 42 D** wet out faster and more uniformly. Air bubbles that cause problems in pumping, trowelling and obtaining a complete cavity fill, are not trapped in the wet mixture. It also prevents excessive shrinkage, porosity and weakness of set material.

 $\mbox{\sc D'FOAM}$ ACC 42 D renders laundry detergents and insecticide powders as non-foaming.
