

Paints, Coatings & Adhesives

---

### Typical chemical and physical Properties

**D'FOAM AP 9L** is an oil-soluble defoamer for all coating systems based on synthetic latex systems such as in paper coating, in synthetic latex emulsion for paints and adhesives.

#### A Blend of Mineral Oil with fatty acid esters

##### PROPERTIES:

Appearance	Mildly hazy amber liquid
Active content	99.9 %
Solubility	- Soluble in Oil - Dispersible in water - Easily dispersible in latex paint and adhesive system.
Specific gravity	0.87 ± 0.02

---

### Applications and typical treat level recommended

Paints	0.2% to 0.5% of weight of foaming- media
Adhesives	1% - 2% of weight of latex solid

**D'FOAM AP 9L** may also be distributed with an oil dilution system and or with a special metering system for automatic dosing in any system, which means product will be automatically added only when needed.

---

### Benefits

**D'FOAM AP 9L** is a 99.9% active product and performs tremendously in controlling foam generation in coating systems based on synthetic Latex Emulsion

It extends excellent brushability and does not cause fish eyes, thereby not affecting the finished product.
