NEW SERIES | INCLINOMETERS

TILT CONTROL | 1 AXIS | 2 AXES | PROTECTED | -40° C | 24H

SERIE IN360C

SERIE IN360A

CANopen

- High resolution (up to 0.001°)
- High accuracy (up to ±0.05°)
- 1D and 2D inclination measurement
- Protection class IP67
- Very easy programming via CAN frames without additional tools
- Temperature compensation available

Analog

- Analog output (4-20mA or 0.5-4.5V)
- 1D and 2D inclination measurement
- Protection class IP67
- Robust metal case protects from shocks and vibrations
- Rugged and protected against electrical disturbs
