Be it the quality section or the research department, at every junction we have deployed the best combination of man and machinery at par with the latest technology. You can confidently count on us for availing all types of wood, timber and logs meant for construction works.

Range of Products

We maintain a buffer stock of all kinds of wood and logs which are designed, processed and developed to suit every application in the most befitting manner. Saraswati Wood Pvt. Ltd. has a wide range of superior quality imported wood and timber including:

- **Teak Wood** Teakwood is hard strong durable yellowish-brown wood of teak trees; resistant to insects and to warping; used for furniture and in shipbuilding

- **Soft Wood**

- ❖ **Spurce Pine FIR (SPF)** SPF is ideal for residential and commercial construction due to its low cost and high strength to weight ratio. Western SPF lumber tends to be available in larger sizes than eastern SPF due to the climate and size of logs.

- ❖ **Russian Pine** We are reckoned as a prime **Russian Whitewood** Exporter and Supplier present in overseas markets. The Russian Whitewood range offered by us is extensively used in making several home decorative items to provide an elegant look to your living spaces.

- ❖ **German Pine** German Pine used in packing, construction and manufacturing of furniture. Our range of Pine Wood is highly exalted because of its durability and at the same time beauty. The

variety of Pine Wood that we provide, comes with a thick and scaly bark, but some variety has thin and flaking bark. They are also effective in terms of cost and can be customized as per client's requirements.

- ❖ Southern Yellow Pine (SYP) Southern Yellow Pine Lumber Grade #1 and Grade #2
KD & S4S... Length: 8 ft & up Size: 2"x 6"/8"/10"/12" Drying: KD (<19%)

- All Types of Flooring

- HARD WOOD

- **Champ Wood** Our quality range of champ wood logs is highly durable and have some salient features like termite & weather resistant and have high load bearing capacity.

- **Meranti Wood** We have with us a range of Meranti wood that is available in different sizes to meet the varied requirements of the clients. This meranti wood is mainly used for flooring purposes and can also be used for making furniture.

- **Sal Wood** The salwood is whitish in colour, thick and is less durable. The heartwood becomes dark brown to black in colour on exposure. The wood pores are filled with resin.

- Kapoor Wood We provide superior quality of *Kapoor*, sal wood, which is able to be ... premium grade African Teak Wood Cut Pieces, we offer these in varied *sizes*

- All Types of Klin Dried and Seasoned Products

Assured Quality

It is only the quality and variety for which we have approached the overseas regions and have established good export and import relations with them. Quality goods and services are the two fundamentals, based on which we have reached so far, achieving total excellence and prosperity.

Saraswati Wood Pvt. Ltd. has a well equipped in-house quality inspection house where rigorous physical and endurance tests of every sourced wood and log are conducted by our skilled quality personnel. Our products are processed in compliance to international quality parameters (in terms of length, size, shape, thickness, finishing's, and enduring capacity).
