About Us

Balaji Acid & Chemicals is a trusted manufacturer, supplier and trader of a wide range of chemicals classified as ETP Chemicals, Industrial Chemical, Reverse Osmosis Chemicals, Swimming Pool Chemicals, Granular Activated Carbon and others. A few of the chemicals in our range includes Poly Aluminium Chloride Powder, Industrial Hydrochloric Chemical, EDTA Acid Powder, Crystal Alum, Liquid Chlorine and various others.

We are into this business since 2001 with our office and factory located at Gurgaon. We have created a large infrastructural setup for the production of all the chemicals in bulk quantity. During more than two decades in the industry, we have served the customers with utmost dedication to their specific types of needs. We supply the products to different industries that are into water treatment, boiler cleaning, water purifying and others. Our products are also used for the treatment of effluent which ultimately provide protection to rivers or water bodies from pollution. We maintain a large stock of the product which enables to deliver the products always on time.

Founded in 2001, Balaji Acid & Chemicals has positioned itself among the most trusted manufacturer, supplier and trader in Gurugram, dealing in a vast range of chemicals used for a variety of purposes. We manufacture high quality Poly Aluminium Chloride Powder, Ferrous Sulphate, Activated Carbon Charcoal, Anti Rust Chemical, Effluent Treatment Chemical and Powder, and various others. Ever since the establishment, we have been working hard to cater to all the demands of customers in the best possible manner. We are a customer-focused organisation always working with the focus on meeting the exact demands of customers.
