No. of workers	18

OUR COLLECTION INCLUDES :

- Complete & semi automatic kurkura & puff line
- Fryers
- Conveying system
- Flavouring system
- Feeding system
- Mixing system
- Oil filters & transfer system
- Handling equipments
- Storage system

Kurkure Online System

VERMA GROUP

A leading name with innovation

Kurkura Line

Kurkura Line offers fully automatic and batch type Kurkura production line with different capabilities.

ALL THE LINES HAVE FOLLOWING FEATURES :

- Low edible oil take up
- Low fuel consumption
- Improval productivity with excellent product quality
- Excellent on line oil filtration
- Minimum labour effort requirement

Production Capacity :
300 to 1500 kg/hr

Dimension :
50x100 ft

Fuel :
Diesel, Wood

Material of Construction :
S.S (304)

A leading name with innovation

Fryums Line

We offer fryers for various products like Namkeen, Bhujia, Grthiya, Daals, Fryers & Kurkura. These fryer is based on edible oil circulation systems.

**ALL THE LINES HAVE
FOLLOWING FEATURES :**

Reduced human effort

Indirect heating through boiler

Hood lifting up & down for clearing accessibilities

Production Capacity :
300 to 1000 kg/hr

Dimension :
50x15 ft

Fuel :
Diesel, Wood

Material of Construction :
S.S (304)

VERMA GROUP

A leading name with innovation

Conveyor

(Modular Conveyor & Wiremesh Conveyor)

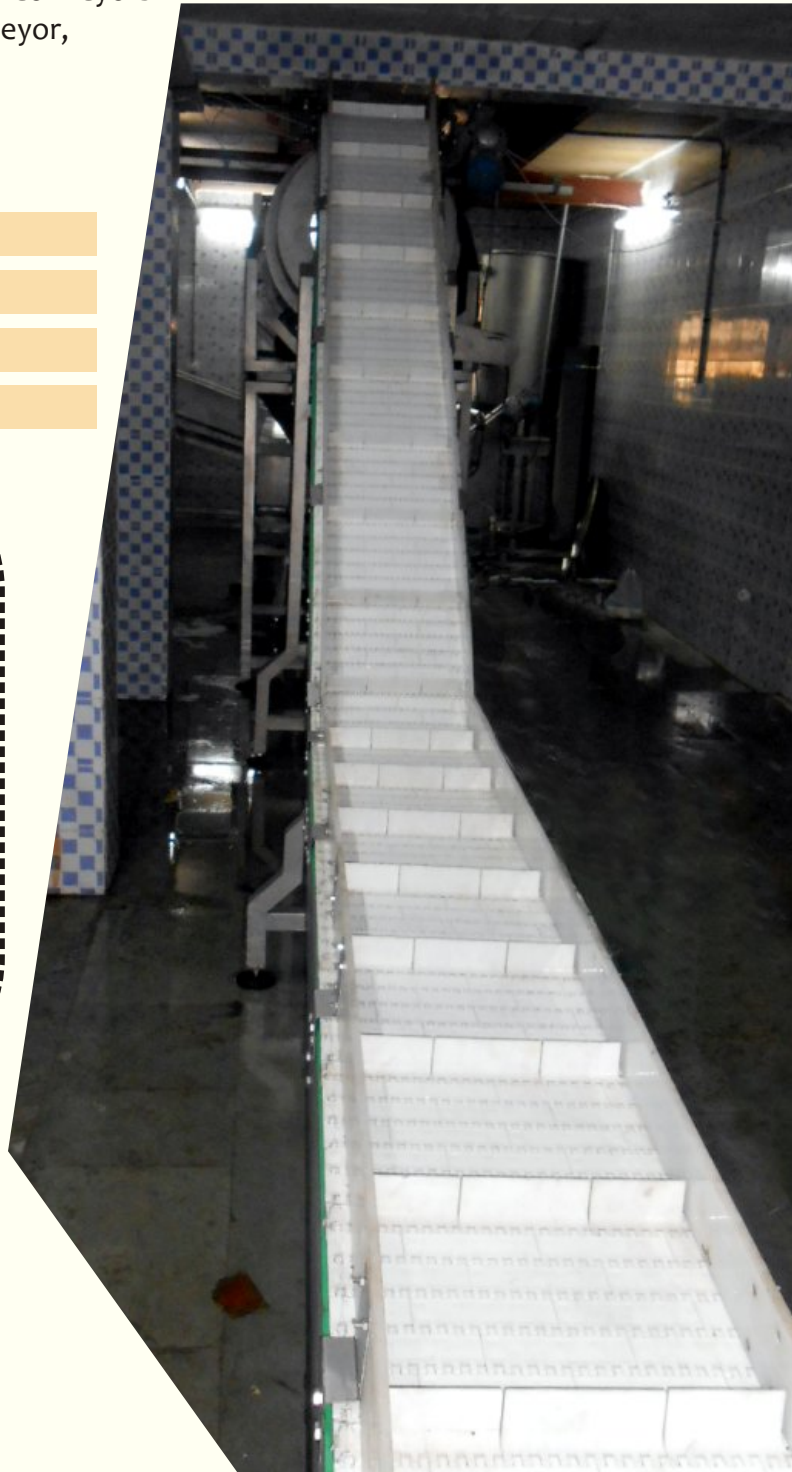

We are trusted manufacturers of different types of Conveyors
theses Conveyor, Modular Conveyor, Cooling Conveyor,
Cartoon Conveyor

FACILITIES :

- Easy to operate
- Less Power Consumption
- Safe to use
- Adjustable Speed

- Production Capacity :
Speed
- Dimension :
Your Requirement Base
- Fuel :
Electrical Motor
- Material of Construction :
S.S (304)

A leading name with innovation

VERMA GROUP

Bucket Elevator

We are a reliable bucket elevator manufacturer, Which is a type of material handling equipment used for transferring powders granules etc. To the needed height in vertical director, Depending on the requirements of product and output we supply buckets made of S.S 304 and M. S Material

FEATURES :

Heavy duty
stainless steel
structure

Heavy duty food
grade bucket

Very less floor
space is required

Dimension :
1 to 10 & Your Requirement Base

Fuel :
Electrical

Material of Construction :
S.S 304 & M.S

VERMA GROUP

Meal Mixer

This machine is mixing the raw material.

SPECIFICATION :

- Low Maintenance
- Improved Productivity
- Excellent Product Quality
- Low Fuel Consumption

Production Capacity :
50 to 500 kg/hr

Dimension :
As Per Your Requirement Base

Fuel :
Electrical

Material of Construction :
S.S 304

VERMA GROUP

A leading name with innovation

Hydro & fiding Conveyor

Hydro is made of S.S 304 material construction. This machine is removes excess & return 25% oil/water from the fryums. The Hydro is available in different models depand on size & output.

Production Capacity :
300 kg to 1500 kg/hr

Dimension :
700 mm to 1500 mm

Fuel :
Electrical Motor

Material of Construction :
S.S 304

A leading name with innovation

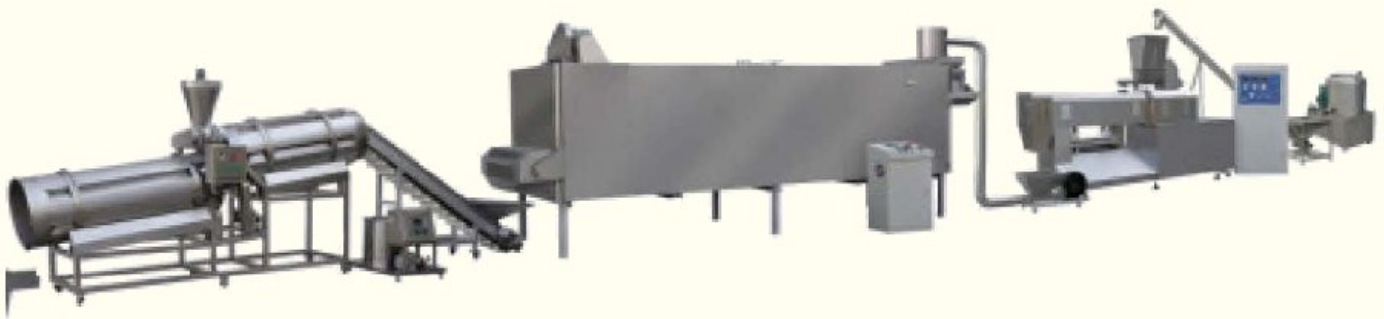

VERMA GROUP

Puff online

We are provide to produce cheese puffs & different shapes.

ALL THE LINES HAVE FOLLOWING FEATURES :

- Production of all shapes of puff.
- Dedicated flavouring system and unique design.
- Low Labour Consumption

Production Capacity :
200, 300, 500, & 1000 kg/hr

Dimension :
30x80 ft

Fuel :
Diesel

Material of Construction :
S.S 304

Slurry Kettle

VERMA GROUP

A leading name with innovation

Potato Chips Line

Potato Chips Line offers fully automatic & semi potato chips line with different capabilities.

ALL THE LINES HAVE FOLLOWING FEATURES :

- Low Fuel Consumption
- Minimum Labour effort requirement
- Improved Productivity with excellent product quality
- Low edible oil take up.

Production Capacity :
200, 300, 500 kg/hr

Dimension :
25x125 ft

Fuel :
Diesel, Wood
