INTRODUCTION

In Geekay we aim at giving the best cleaning provisions to our customers. Our superior quality at the most competitive prices has made us stand against tough competitors, and we have maintained a reputation of good quality in UK, Middle East, Germany, France and other countries. Our vision of catering only to international markets, has kept us, on the move for new introductions, variants, and superior quality.

HAND BRUSHES – PP, BASSINE & COCO

We supply hand brushes in elegant white wood finish, made in PP (Poly Propylene), Nylon, Coco and Bassine fibre. The same brushes can be varnished coated at a slightly extra cost. These brushes have household and office use, for cleaning, floor, carpets, window panes etc. these brushes are also used on machinery for cleaning wastes etc. Coco Hand Brush Code (GKHBCO), Bassine (GKHBBS) & PP (GKHBPP).

Standard Dimensions :- Length 11", Breadth 1.5"
Wood thickness 2 cms.

BRUSH HEADS – BASSINE

We supply brush heads, in Bassine fibre with plastic head fitting so that the same give ease for floor cleaning. The sizes of these brushes vary basis the usage they are put to. At the same time, plastic heads are not used in order to save of costs and hole is drilled in the center of the brush, where the handle is fit. The most standard brush in bassine is the 9 inch “DECK BRUSH”. The Deck brush (GK09BS) has the following dimensions. Length 9”, Breadth 2.25” wood thickness 2.1 cm, Fibre height 4.5 cms.

The other 2 variants are the 10 inch Bassine brush head (GK10BS) has the following dimensions. Length 10”, Breadth 2.5” wood thickness 2.1 cm, Fibre height 7 cms and the 11 inch bassine brush head (GK11BS) has the following dimensions. Length 11”, Breadth 2.5” wood thickness 2.1 cm, Fibre height 7.5 cms.

Similarly large variants of made to order bassine brushes can be made as per customer requirement.

BRUSH HEADS – COCO

We supply brush heads, in Coco fibre with plastic head fitting so that the same give ease for floor cleaning. Coco fibre is soft, and is used in applications, where gentle cleaning is applicable ie:- glass, or shining floors, etc. The Coco Brush comes in 2 variants the 10 inch Coco brush head (GK10CO) has the following dimensions. Length 10", Breadth 2.5" wood thickness 2.1 cm, Fibre height 8 cms and the 11 inch Coco brush head (GK11CO) has the following dimensions. Length 11", Breadth 2.5" wood thickness 2.1 cm, Fibre height 8.5 cms

Similarly large variants of made to order Coco brushes can be made as per customer requirement.

BRUSH HEADS – PP/ NYLON

For long term use, slightly expensive brushes in the Poly propylene & Nylon range are also available. These brushes have a long life and have a neat look, but have an issue of de-composition. The PP Brush comes 11 inch brush head (GK11PP) has the following dimensions. Length 11", Breadth 2.5" wood thickness 2.1 cm, Fibre height 7.5 cms

BRUSHES – MADE TO ORDER

There is no end to application or usage of brushes. There are multiple variants and various combinations, of domestic and industrial cleaning brushes that are available.

There is a hardened fibre know as cane & bassine, for tough cleaning, at the same time, there are made to order industrial cleaning brushes of various dimensions. The process and requirement is never ending. But we here is Geekay aim to deliver the best to our customers, and be geared to cater to any requirement on board.
