## ***Double Side Foam Tapes***

---

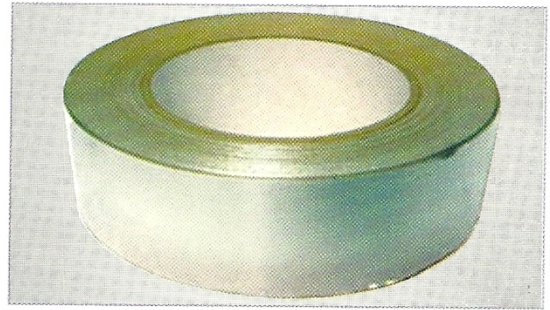

Double sided foam tapes are considered to be an essential item for industry – particularly for the permanent bonding of both rigid and semi rigid materials. Our range of conformable foam tapes are manufactured by several of the worlds leading adhesive tape manufacturers and these foam tapes are specifically designed to offer unbeatable bonding performance. Supplied with the standard rubber or incredibly popular acrylic adhesive systems, we have a range of foam tapes which will suit almost any internal or external, industrial or domestic bonding application. Our vast stocks of foam tapes offer you the choice of varying foam densities and thicknesses. Standard product thicknesses range from 0.4mm up to 4.5mm and we do specialize in bespoke laminations which enables us to offer double sided foam tapes up to 5 mm in thickness.

## ***Aluminium Foil tapes***

---

Aluminum foil tapes available without paper lines, offered in wide variety of adhesives to best suit application.

## ***Allied Packaging products***

---

- 1) LDPE Stretch Films Available in manual and machine grades. USP - Printed shrink films of upto 4 colours.
- 2) LDPE Shrink Films Available in modest and high barrier strengths. USP - Multicolour printed films value engineered to bring your packaging costs down.
- 3) LDPE Carry Bags / Courier Fliers Available in variable gauges and with very high printing finesse to exponentially increase brand value of your products.
