INTRODUCING HIGH
EFFECTIVE GOMA CLEANTCH
SANITIZING MACHINE

GoSanitizer F05

SALIENT FEATURES:

Strong penetration, fast spread: With adjustable and uniform droplets. The fogger is applied for both space spray and residual spray.

The solution pipe and air pipe are anti-corrosion: The fogger head is anti-cracking, shockproof and constant temperature. The lifespan of the whole machine is long.

The scale of solution tank and translucent tank cover is easy for you to mix chemical solution precisely.

Patented technology adopted to prevent the solution from flowing back.

With frequency-conversion motor, adjustable delivery lift and noise, the fogger is very chemical saving.
