ELECTRIC SHOCK

ABOUT US

Laxmi Power Solutions (LPS) is a manufacturing company which was started in 2012 with a focus on power problems, actually, the reason behind it is that the founder of our company was already deeply involved in electrical line from few years ago. Our Company previously deals in the DG Sets-Sales, Repair, Maintenance and also some other types and sizes of Electrical Products After that we saw and realized that many accidents happen in industries due to wrong Earthing system. After that we did a lot of research and practicals on earthing, also understood the conventional earthing system very well, and due to this we made Chemical Earthing System and launched it in the market.

OUR PRODUCTS & SERVICES

- Galvanized Iron Earthing Electrodes
- Pure Copper Earthing Electrodes
- Copper Bonded Earthing Electrodes
- Galvanized Iron Earthing Rods
- Pure Copper Earthing Rods
- Copper Bonded Earthing Rods
- Backfilling Chemical Compound
- Conventional Earthing (Plate Earthing)
- G.I & C.I Pipe Earthing
- G.I & Copper Strips
- G.I & Copper Plates
- Conventional Lightning Protection System
- ESE Lightning Protection System
- Solar Street Light Poles
- Exothermic Welding System
- Poly Plastic Earthing Pit Cover
- RCC Earthing Pit Cover
- SWG Wires & etc. all Earthing equipment's.
- Earthing Installation in all types of Soil Conditions
- Lightning Arrestors Installation
- Soil Resistivity Measurements
- Earth Pit Value Measurements
