ABOUT US

Emphasis Innovations established in 2010, is the footwear manufacturer for major brands such as Provogue, Slazenger, Police, Swiss Military etc.

The company has its headquarters in Faridabad near New Delhi, India.

Emphasis Innovations caters to all kinds of footwear needs.

The company is backed by highly experienced and inventive minds in the field of footwear manufacturing.

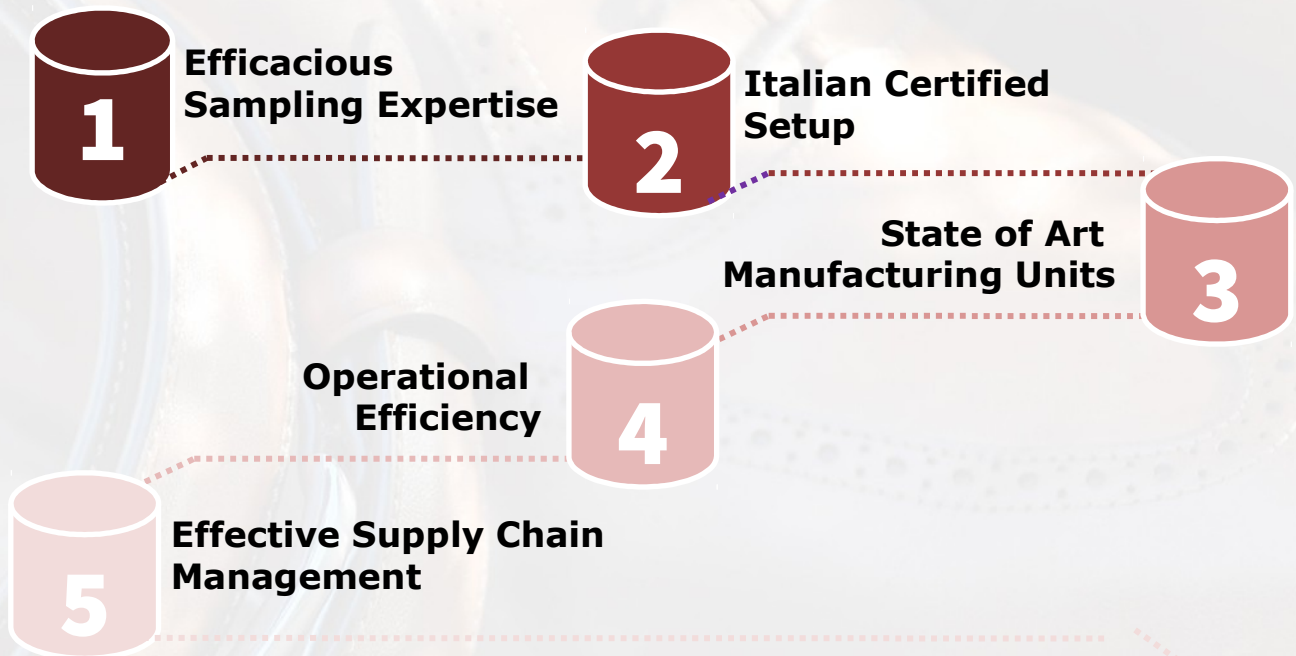

On all the levels of management, Emphasis Innovations is managed by experienced and efficient managerial personnel.

Every product segment is convincingly worthy to be a Lifestyle Statement

The group understands the potential of the industry and accordingly maintains high business standards.

PRODUCTION INFRASTRUCTURE

With the production capacity of more than 6 lacs pairs per annum, Emphasis Innovations operates a modern and integrated manufacturing facility.

EXPERIENCE AT THE INDUSTRY LEVEL

NO PEDAGOGUE LIKE EXPERIENCE

We at Emphasis Innovations firmly believe that the conviction can not be achieved in a single day. It takes a lot of brainstorming to reach there.

Likewise, the effective enterprising comes from years of experience.

Our founder Mr. Naveen C Arora, who is breathing the air of the footwear industry for more than half a decade now, leads a team which is equally resilient, resourceful and perceptive in approach.

OUR KEY PEOPLE

Amidst the dynamic and complex business environment; engaging and retaining skilled and experienced professionals is what we strive to achieve.

COMPLAINTS

Emphasis Innovations has always adhered itself with more than just the internal regulations.

Voluntary commitments and ethical principles are an integral component of our corporate culture.

Sustainable adherence to compliance by documentation and retention of all the creative and procedural decisions including designs, design reviews is ensured.

We also raise awareness among employees through suitable preventive measures and integrate them in the existing management system.

WAY FORWARD FOR US

Emphasis Innovations aspires to become the No. 1 footwear manufacturer within the industry.

The company aspires to become “Anchored Harbor for Footwear Solutions” in the world of footwear manufacturing.

Manufacturing houses are often perceived to be just the production hubs and let the creativity take a back seat. However, we aim to excel at both spectrums i.e. Innovative Product Design and Production Infrastructure.

We wish to be the bridge to the Industry’s economic forces, i.e. a place where the demand for a footwear is fulfilled with the supply of the real product.
