Brochure for

LED OT Lights

LED OT Light - Model No MEI Prisma 172

We are offering quality grade range of **MEI - Prisma 172** for respected clients. Engineers design this diversity using premium quality material and most advanced technology. Moreover, our lights are very much appreciated for longer functionality and shock proof nature. Moreover, we are proficient in making these lights available in bulk quantity.

Specification:

- Luminous power-1,50,000 Lux
- Color temp 4000 to 6000 K
- Luminance Field — 15cm to 25 C
- **Color rendering index:** 65 TO 98
- Dome size 800mm (29 inch).
- Electronic transformer.
- Heat resistant fiber housing.
- **Class of protection:** 10E.
- Cold white light.
- No black spot in the centre.
- Superior lamp life of 50000 Hrs.
- Compatible with laminar flow.
- Supply voltage: 230v50 Hz AC

- FULL INTENSITY CONTROLLE

LED OT Light - Model No MEI Prisma 4 Three Wings

We are a renowned name involved in offering an extensive range of **MEI - Prima 4 Three Wings**. Use of quality grade raw material is done which is acquired from certified merchants of the industry. We check them on a variety of restraints prior to final handing it over to valued clients. Our reasonable rates make us preferential choice amongst the clients.

Features:

- Luminous power-1,30,000 Lux (I)
- Color temp 4000 to 6000 K
- **Luminance Field** — 15cm to 25 Cr
- **Color rendering index:** 65 TO 98 Dome size 800mm (29 inch).
- Electronic transformer. Heat resistant fiber housing.
- Class of protection: 10E. Cold white light. No black spot in the centre.
- Superior lamp life of 50000 Hrs.
- Compatible with laminar flow.
- Supply voltage: 230v50 Hz AC 2 years replacement warranty.
- FULL INTENSITY CONTROLLER

LED OT Light - Model No MEI Prisma 2

We are offering an elite range of **LED OT Lights MEI Prisma 2**. Products obtainable are made-up by using premium quality raw material and in harmony with universal standards. Offered diversity is very much used in different households and is known for optimum level performance. Based on most up-to-date technology, our product takes less maintenance and provides safe usage.

Salient Features:

- Cold white light No black Spot in the Centre.
- Superior Lamp life of 50000 Hrs
- Electronic Transformer ensures maintenance free performance
- Microprocessor controlled based circuit. Removable Autoclave handle.

Technical Specification:

- Spot Dia - 15-18cm
- **Luminous power:** 100,000
- **Luminance Field:** 15cm - 30 cm
- Color rendering index (CRI) :95%
- Power consumption-60 wat

- Focusing-adjustable
- Battery back up- optional
- Camera optional
- 100% shadow less

Double LED OT Light - Model No MEI Prisma

In order to meet different requirements of clients, we are betrothed in offering **Double LED OT Lights MEI Prisma** for respected clients. The obtainable product is made-up using finest quality constituents in agreement with the worldwide quality standards. Our available diversity of light is generally used in different offices and household sector.

Salient Features:

- Light column -42inch
- Color temp- Variable or Fixed
- Color rendering index(CRI)->93%(Variable)
- Spot Diameter -15cm to 27cm
- Focusing Type- Electronic or Variable
- Led Arrangement reduction- Matrix type
- Shadow reduction per dome-100%
- Power supply type-12 Volt DC
- Luminox power(At mix)-1,60,000 LUX
- Brightness control-2% to 100%
- Depth of field-34inch
- Rotation 360 Deg.
- Power Consumption 100 Watt
- Stabilizer handel- Available

LED OT Light - Model No 36 LED Dome

Specification :

- 36 LED Dome
- LUX 80,000 (10%)
- Central Focusing
- Focus Point 15 CM
- Penetration Depth 8-10 Inches
- Intensity Controller

LED OT Light - Model No 84 LED Dome

Specification :

- 84 LED Dome
- LUX 1,10,000 (10%)
- Central Focusing
- Focus Point 15 CM
- Penetration Depth 8-10 Inches
- Intensity Controller

LED OT Light - Model No Super Valve LED OT Light

Specification :

- 60 LED Dome
- LUX 1,20,000 (10%)
- Central Focusing
- Focus Point 15 CM
- Penetration Depth 8-10 Inches
- Intensity Controller

LED OT Light - Model No MEI Prima Operation Theatre Lights

Technical Specificion

- Light Column-42inch
- Color Temp.- Variable or Fixed
- Color Rendering Index(CRI)->93%(Variable)
- Spot Diameter- 15cm to 27cm
- Focusing Type- Electronic and Variable
- Shadow Reduction per dome-100%
- Luminous power-1,60,000 LUX
- Depth of Field-34 Inch
- Power Consumption-100 watt

- Vertical adjustments-55.5 cm to 67cm
- Sterilizable handle- Available
