SUBJECT:QUOTATION FOR MACHINES

Sir/Madam

Kindly find our best quotation for machines as per your requirement.

http://www.youtube.com/watch?v=n5_RbcP6f

Price: Flour ball making Machine

Price: Air compressor (China)

**1HP motor per hour 2500 to 3000 pieces.speed Adjstament
Flour Kneading Machine two model**

Automatic Chapati Making Machine (RM-10)

Saving Data

LPG Savings for 5000 Chapattis / Day

LPG Consumption	In Machine	In Manual
5000 Chapattis / Day	8.50 Kgs	23.50 Kgs
LPG Cost Rs. 60 / Kg	Rs. 510.00	Rs. 1410.00

Total LPG Saving (Rs. 1410.00 - 510.00) = 900.00 Rs.....(A)

Labour Cost Savings for 5000 Chapattis / Day

Man Power	In Machine	In Manual
5000 Chapattis / Day	2 Men	6 Men
Labour Charge	400	1200

Total Labour Cost Saving (Rs. 1200.00 - 400.00) = 800.00 Rs...(B)

Total Saving / Day LPG (A) + Labour Cost (B) = 1700.00 Rs.....(C)

Costing for 1 Nos. Chapatti

Raw Material Cost	55 Paise
LPG Cost	10 Paise
Electricity Cost	1 Paise
Labour Cost	5 Paise

Total Cost 71 Paise

Note : All data are approximate and may be vary.

Automatic Chapatti making machine

We have developed Automatic Chapatti making machine with new innovative designing approach. It designed entire machine from scratch and made it with superior grade material. It is very much Compaq in size hence uses very less space compared to other chapatti making machines. It uses precision motor and gearbox and rotary indexing mechanism which delivers high production of chapatti. Due to its innovative insulation and other heating component, it consumes very less electricity compared to other chapatti making machines.

Technical Specification

Type	RM10
Capacity	1000 nos./hr
Weight of chapatti	25 to 45 grams
Thickness of chapatti	1.5 to 2.5 mm
Size of chapatti	4.5" to 6.5"
LPG consumption	1.25 to 1.75 kg/hr
LPG Pressure	5 to 7 P.S.I
Elec. Consumption	2 kw/hr
Weight	350 kg approx
Overall dimension (mm)	1350*1800*1450

Advantages:

1. 25% less LPG gas consumption compared to manual chapatti making machine.
2. Highly economical Production due to huge saving on man power requirement, electricity and gas consumption compared to manual chapatti making machine.
3. Negligible noise and vibration compared to other chapatti making machine.
4. Better body insulation to reduce outer body temperature and overall heat loss.
5. "U" type button sensor is used for precision and repeatability.
6. Control panel with PID based temperature controller and SSR for precise temperature.
7. Teflon coated roasting plate.
8. Newly designed energy efficient heater with toggle switch for heater on/off.
9. Machine structure and covers are made from S.S to avoid rusting.
10. Easily openable and convenient body cover.
11. Very Compaq in size requires less space.
12. Superior quality gear box for maintenance and repair free operation.
13. Heavy duty and robust mechanical structure.
14. Easily to operate and high performance capability.

NOTE: Travelling, lodging and boarding will be charged extra.

TERMS & CONDITION

- 1) Taxes as per applicable will be charged extra.
 - 2) Transportation at actual by you
 - 3) Packing and Forwarding 2.5% extra. (8000/ Rs to 10,000/ Rs Appro)
 - 4) Travelling, lodging and boarding will be charged extra.
 - 5) These prices are valid for 30 days only.
 - 6) Advance 60% against confirmed purchase order, 40% against delivery from our side.
 - 7) Warranty of the machine is six months.
- Delivery 30/40 days after the receipt of confirmed P.O. with advance amount
- 7) Subject to Surat Jurisdiction only.

8) Goods once sold will not be taken back.

We are looking forward for your confirmed and valued order. Thanking you and assuring you of our best service at all times.

For SHRI SAIRAM.

AIRONI SATYAM
