FILTRATION PAR EXCELLENCE

The Company

Established in 1976 in the city of Vadodara, Western India, Raj Filters is one of the leading manufacturer of Stainless- Steel Wire mesh Filters and Gaskets. Our business transactions are being carried out in India as well as International.

Raj Filters is a professionally managed company that believes in profitable, sustainable, and enjoyable long-term relationships with its all its key stakeholders—including employees, customers, suppliers, local communities members, and advocacy groups.

Based at Savli site the company employs over 160 dedicated individuals that identify and exploit the right opportunities. This is further enhanced by the innovative ideas of the management, who strive from time to time in creating awareness and keeping the company at par to the latest development of today's world.

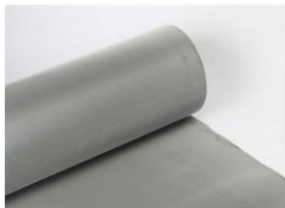

Modern Facilities

Raj Filters is amongst the very few companies who are involved in making the latest technologies work for the betterment of their customer's. We are resourced with the well-established state-of-the-art infrastructure facilities, which backed us to serve the clients' specified products in global markets. Our well-organized infrastructure is equipped with all resources that are mandatory to manufacture quality Wire Mesh and its products.

Our in-house weaving facilities are most efficient to overcome any challenges and nothing stops us to fulfill the commitments on schedule. Our mechanical workshop develops and maintains the largest stock of the dies (moulds) required producing all the running and custom sizes of the filters to meet any requirements of our clients.

Extensive Product Range

Stainless Steel Woven Wire Mesh:

We manufacture Stainless Steel Wire Mesh in 304, 304L, 316, 316L Premium Grade. Our product range comprises 20 Mesh to 2300 Mesh, available in Plain Weave, Twill Weave, Dutch- Plain, Dutch- Twill Weave, and Reverse Twill Weave.

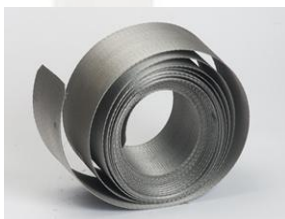

Multilayer Cut Wire Mesh

Varied Wire meshes are uniformly cut as per desired shape and size and then they are assembled properly and spot welded on edges to form layers

Filter Packs (Disk & Specially Designed):

Varying Wire meshes are combined and bounded with Aluminum, Steel and Copper rim form multilayer screen pack and spinneret.

Continuous Filter Belts:

We supply a complete range of wire cloth filter belts for continuous screen changers, utilized for screening foreign particles out of molten plastic.

Prompt Service

Raj Filters specialize in a totally flexible approach to the Production of Wire mesh, allowing a customer driven Solution to be offered. With the ability to manufacture 7 days a week 24 hours per day Raj Filters offers a prompt and reliable service to ensure customer deadlines are met.
