LARGEST INSECT PROTECTION SYSTEMS RANGE IN INDIA

Roller Mesh System (Window mesh System)

Roll Down Insect Mesh System is manufactured with spring loaded mechanism (imported from Germany) and fiber glass mesh (imported from U.S.A) The system is more economical than wooden shutters. It ensures clear visibility, better ventilation, is space saving and has no maintenance.

The Roller Mesh System is very easy to install and can be adapted to Wooden, Aluminium and UPVc frames. Repairs if any, are not cumbersome. 12 months limited warranty from date of installation. Roller Mesh System is a win product.

Magnetic Mesh (Velcro Mesh)

On All Products

Barrier free door Mesh system

The best Insect Protection solution for large entrance doors, French door, patio doors, collapsible doors, etc. The system has pleated mesh which is stacked on sides when not in use. The state of art caterpillar chain link movement systems smoothen the stacking of the mesh sideways. The 3 mm thick bottom strip does not pose any hindrance to the movement in and out of the door. The pleated mesh is easy to clean and maintain.

Pleated window mesh system

Horizontal sideways movement of pleated mesh is a cost effective insect protection system for window. The mesh operates on polyester thread with filament core on tension based technology. Ideal for large windows with strong wind pressure.

**10 Years
Warranty**

MESH ROLLS

- Stainless Steel Mesh
 - SS 304 Natural
 - SS 304 Black Coated
- (10 Years warranty)
- Fibre Glass Mesh
