## Ayurveda

Ayurveda is a system of medicine the knowledge of Ayurveda is transferred from Gods to Sages & then to human physicians. In Sushruta Samhita, Sushruta wrote that DHANVANTARI Hindu God of Ayurveda, incarnated himself as King of Varanasi & taught medicine to a group of physicians, including Sushruta The Origins of Ayurveda have been traced to around 6,000 BC Ayurveda is a discipline of upaveda in Atharvaveda There are three principal early texts on Ayurveda, the Charaka Samhita, the Sushruta Samhita & the Bhela Samhita.

**Ayurveda has Holistic & all encompassing definition of beauty**

**“Roopam, gunam, vayastyag, iti shubhanga karanam”**

**3 pillars of beauty**

**Roopam-Outer Beauty – Long Healthy & Shining Hair & Clear and radiant skin**

**Gunam- Inner Beauty- Reflected by Personality, kind heart & mind & talents of a person**

**Vayastyag- Long lasting beauty**

**‘Anti-aging the modern day term to explain shortly. To look younger than actual age**

**Thus, Ayurveda does not focus only on cosmetics to reveal your real beauty**

- **Roopam the outer beauty is not specifically about the color or appearance of skin or hair**
- **Roopam is the signifying good health, good digestion & healthy lifestyle**
- **A clear & radiant skin is majorly dependant on proper nutrition, digestion & excretion.**
- **Dexterous Pharma has a wide range of products which help you to reveal your inner beauty & health.**
