COMPANY PROFILE

We Are Pleased To Introduce Herewith A Summarized Pre-Qualification Of Black Arrow Trading Est. Black Arrow Trading Est. Has Ventured Into The Saudi Arabia To Provide The Local Market With Specialized Construction For Electro - Electro-Mechanical And Installation Of Glass And Aluminum Work.

WE AIM TO:

- Provide Miscellaneous Services and Undertaking Subcontract Projects in the Electro-Mechanical and Electrical Operations from the Major International Epc Entities.
- Act As Lstk Contractor In The Fields Of Integrated Infrastructure Security, Upgrade Of Physical Security, Intrusion, Long Range Detection And Force Protection, Surveillance And Reconnaissance Projects To Industrial And Commercial Ventures.

BLACK ARROW TRADING EST. offer services which compliments growing range of integrated services that enable us to take any industrial or public works project from concept through planning, financing, design, construction, operations and maintenance. Every element of the firm is structured to ensure that we can leverage our global resources and know-how to satisfy each client's particular needs.

BLACK ARROW TRADING EST. is pleased to present an outline of its Contracting capabilities and experience with in the HVAC, Electro – Mechanical, Plumbing, Fire Fighting, CCTV System, Telecommunication, Electronics and Information & Technology.

The services provided by BLACK ARROW TRADING EST. are enhanced through working relationships and association with established International and local contractors, and specialized vendors. Using these strategic alliances BLACK ARROW TRADING EST. can provide a combined team of well qualified personnel to implement the successful execution of projects.

We hope that you will find the enclosed information of benefit in assessing our organization and we look forward to having the opportunity of putting our management, Engineering, Installation, & Maintenance skills to work for you.

SCOPE OF BUSINESS:

- ✓ Information & Technology, Networking, Troubleshooting and all kind of IT solution.
- ✓ CCTV security system installation.
- ✓ Heating, Ventilation & Air Conditioning Systems (HVAC) Controls & Instrumentation.
- ✓ Ducting, System Testing, Adjusting, Balancing & Commissioning.
- ✓ Installation of Pipes & Ducts with all accessories.
- ✓ Fabrication of GI, SS & Aluminum Ducts with accessories.
- ✓ Total Cleaning of Ducts & equipment.
- ✓ Supply and Installation of Glass & Aluminum Material.
- ✓ Oil & Water Pumps Installation & Maintenance.
- ✓ Construction along with various other Electric & Electro-Mechanical Works.
- ✓ Fire Protection & Safety for buildings.
- ✓ Gypsum Board Partitioning, Ceiling & Decor Work.
- ✓ Decorative Paints for Buildings & Housing Projects (Both Interior & Exterior).
- ✓ Protective Coatings (For Steel, Concrete, Pipes, Storage Tanks, etc.
- ✓ Building Expansion Joints Repairing & Sealing.
- ✓ Transformer Installations
- ✓ Medium Voltage switchgear installations
- ✓ Lighting and small power distribution
- ✓ Industrial refrigeration installation and maintenance
- ✓ Motor installation and maintenance
- ✓ Earthing and Lightning Protection
- ✓ Maintenance of Low Voltage & Medium Voltage

6	SAAD AL MAFLAH BUILDING	ALL CONSTRUCTION INCULDED ELECTRO-MECHANICAL AND EXTERNAL WORK, DUCTING FABRICATING,	DAMMAM	750,000,000

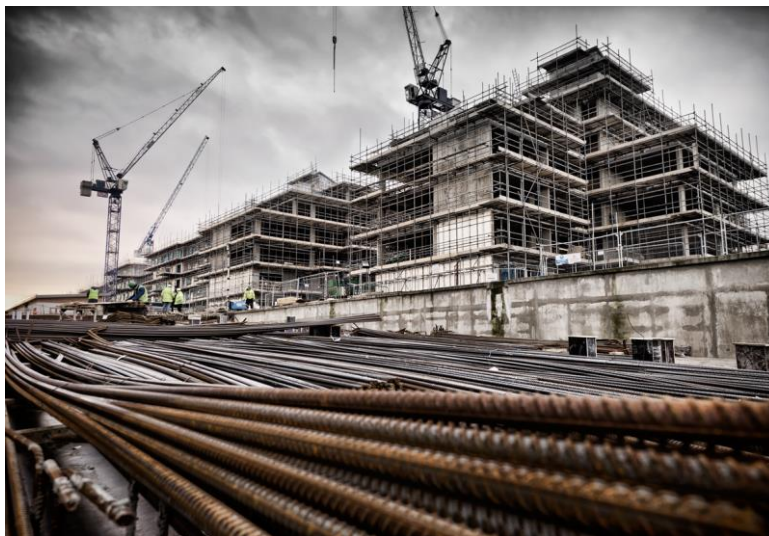

CIVIL CONSTRUCTION

We take this opportunity to introduce BLACK ARROW TRADING EST., a 100% Saudi Establishment based in AL KHOBAR, K.S.A as a construction and maintenance establishment having capability, experience and expertise executing projects in the field of Civil, Mechanical and Electrical disciplines.

Our establishment was formed in the year 2010 in a small way and started working with different companies. During the last 5 years, the establishment has grown steadily & successfully completed various projects for Saudi ARAMCO, Royal Commission, SABIC & Private Clients in the Eastern Province. We have a stable financial base & experienced staff well versed with the stringent requirements of various projects.

ELECTRO-ELECTRO-MECHANICAL ENGINEERING WORKS

Diversity” is the key word when it comes to Electro-Electro-Mechanical Engineering. There are many fields in which Electro-Mechanical engineering plays a role it could be automated manufacturing, environmental control, transportation, biomedical fields, computer fields, fossil fuel and nuclear power the list goes on.

Electro-Electro-Mechanical Engineering is a discipline that applies the principles of physics and material science for analysis, design, manufacturing and maintenance of Electro-Mechanical systems. It is the branch o engineering that involves the production and usage of heat and Electro-Mechanical power for the design, production and operation of machines and tools. It is one of the oldest and broadest engineering disciplines.

The engineering field requires a vast understanding of core concepts including mechanics, kinematics, thermodynamics, material science, and structural analysis. Electro-Mechanical engineers use these core principles along with tools like computer – aided engineering and product life cycle management to design and analyze manufacturing plants, industrial equipment’s and machinery, heating and cooling systems, motorized vehicles, aircrafts, watercrafts, robotics, medical devices and more.

Electro-Mechanical Engineers are concerned with imagining and implementing programs and devices that improve our world and our movement in it. A Electro-Mechanical Engineering major’s designing endeavors are diverse, from tiny measuring instruments to huge aircraft carriers or power plants or a commercial building, residential home, oil rigs etc., Electro-Mechanical engineering is also involved with testing, evaluating, distributing, and marketing of same.

The Electro-Mechanical engineering is one of the major parts of science which deals with basic attics of life rather it be a comfort equipment or transportation, Industrialization etc.

Electro-Mechanical engineering is divided in several divisions based on their area of works i.e. Thermal Engineering (Heat and its properties), Mechanics (Machines and its Flexural Stresses), Fluid Dynamics (Fluid properties and its effects), and Mechatronics (Combination of Mechanics and Electronics) etc.

With the sudden growth of Industrialization and Real estate, there is a huge demand for Air Conditioning, Piping, Plumbing and Fire and Safety, this are all part of Electro-Mechanical Engineering.

In general the huge demand resulted in search for elite professionals those who are capable of fulfilling industrial needs BLACK ARROW TRADING EST.

Our Services for Electro-Mechanical Work:

- Conceptual & and detailed design, supply, installation, commissioning, maintenance & repair of Firefighting and Fire Alarm systems.
- Performance surveys, conceptual & detailed design, supply, installation, commissioning, maintenance & repair of existing and new plumbing structures.
- Performance surveys, conceptual & detailed design, supply, installation, commissioning, maintenance & repair of Heating, Ventilation, Air conditioning (HVAC) & Refrigeration systems.

FIRE FIGHTING AND FIRE ALARM SYSTEM

BLACK ARROW TRADING EST. Group strives for continual improvement through increasing the knowledge and skills the company can offer its customers. We can do Fire Alarm, Fire Safety construction, services and Installation, commissioning, testing/inspections, Electrical, Fire extinguishers installations, Pre action systems, Smoke control, cabling, System monitoring, engineering design and drafting.

As we all know that each and every construction needs to have fire safety and fire alarms installed for safety of their workers, which is a basic need of an organization.

BLACK ARROW TRADING EST. Group consists of highly experienced and skilled workers who are ready to work in professional way to complete your project in a timely manner.

Aims and Objectives:

- We are maintaining high professional standards amongst our staff.
- We satisfy each and every need of our customer/clients.
- To bring those who are innovative for providing a fire safety solutions.
- We use latest technologies for solving problems.
- To forge links amongst advisors, suppliers, manufacturers, staffs and end users for the better understanding of fire safety products and their correct applications.
- To promote a healthy and sustainable environment.

Various Services (Fire Fighting and Fire Alarm)

Engaged in the installation and maintenance of fire prevention and firefighting systems. We provide service and installation of fire alarm, fire safety for commercial and residential systems. Our Trading and Services are involved in and sale of fire alarm and fire prevention and fighting equipment

- FM automatic sprinkler
- Automatic sprinkler
- Intelligent fire
- Dry powder extinguishing
- Foam extinguishing
- Emergency lighting
- Gas fire extinguishing
- Fire alarm and combined operation
- Industrial fire detection
- Building automatic control
- Fire electronic
- Fixed extinguishing
- Gas extinguishing systems

Selection of Fire Protection System

We select the optimum and cost effective Fire Protect System i.e., Wet or Dry Hydrant System, Foam System, Deluge System, Sprinkler System, Suppression etc. which suits the specific requirement complying with International Standards and Local Regulation.

Initial and Detailed Engineering

Based on the system selected, we offer initial and detailed engineering design of the selected equipment's that is shop drawing list materials, BOQ of materials, Scheduled planning.

PLUMBING WORK

BLACK ARROW TRADING EST. Group provides a comprehensive range of services these include performance surveys, conceptual & detailed design, supply, installation, commissioning, maintenance & repair of existing and new plumbing structures.

BLACK ARROW TRADING EST. Group was formed to satisfy the needs of the marketplace for a specialist company to provide a quality fit-for-purpose plumbing engineering service at reasonable cost. Since formation, the company has built up an impressive list of client in Saudi Arabia, for both residential and commercial projects.

Services for Plumbing Works

The design and execution for Residential Building, Restaurants, Schools, Apartments, Office Buildings, Shopping Center, Fire Stations, Recreational Facilities, Hotels Banks, Department Stores.

- Water transfer system.
- Water softening plant
- Automatic Hydro pneumatic water pumping system.
- Hot & cold water piping system.
- Solar water heater installation.
- Soil & waste water disposal system.
- Rainwater installation.
- Automatic sewage transfer pumps.
- Automatic storm water transfer pumps.
- Installation of sanitary wares.
- Rainwater harvesting.

HVAC- R (HEATING VENTILATION AND AIR CONDITIONING REFRIGERATION)

BLACK ARROW TRADING EST. Group provides a comprehensive range of services these include performance surveys, conceptual & detailed design, supply, installation, commissioning, maintenance & repair of Heating, Ventilation, Air conditioning (HVAC) & Refrigeration systems. We was formed to satisfy the needs of the marketplace for a specialist company to provide a quality fit-for-purpose HVAC & Refrigeration engineering service at reasonable cost.

Since formation, the company has built up an impressive list of client in Saudi Arabia, for both residential and commercial projects, with who repeated business has been carried out. We will deliver complete 'turnkey' project management from conception to completion.

In Saudi Arabia we are capable of working to meet specific standards applicable anywhere in the world. Our supplies division, Spares Unlimited, also provides an extensive range of equipment and spares to 'end-user' clients for use across the country.

We offer impartial advice on all aspects of your Heating, Ventilation, Air Conditioning & Refrigeration system requirements and recommend equipment from a wide range of manufacturers. We have assembled a team of specialist staff with many years' experience. All of our HVAC & Refrigeration engineers are qualified to work for the projects and they adhere to strict code of conduct.

Various Services (HVAC Electro-Mechanical Works)

Handle projects right from inception stage like design, engineering planning execution, testing, commissioning and maintenance of all air conditioning and Electro-Mechanical works for multi-story commercial, residential individual and group of villas, showrooms, industries, hypermarkets, power plants, mosque, factories warehouse etc.

Operates as a contractor for commercial and residential projects.

We cater to all air conditioning and air improvement products and services covering all requirements from the smallest room to the largest warehouse, malls, high rise buildings, commercial establishment and factories.

We provide service and installation of cooling, heating, ventilation, insulation and related comfort systems, room air conditioners; commercial and residential unitary central air conditioning systems.

We deal in

- Central air conditioning
- Fresh Air Handling Unit
- Rooftop packaged unit
- Ducted split air conditioner
- Decorative split air conditioner
- Multi split air conditioner
- Window air conditioner
- Cold storages
- Cabinet type air conditioners (floor mounted)
- Ventilation system for bathrooms, kitchens & car parking areas In the basement

It is our goal to provide our customers the best service experience. Most importantly, every technician is experienced and trained -to the highest standards with total customer satisfaction as the primary goal. The product range and technical know-how of the company is constantly updated and upgraded ensuring the availability of the right product and technical expertise from around the world.

Our associates in Saudi Arabia has a fully equipped, duct fabrication workshops with facilities and machinery for shear cutting, lock forming, and press rolling and bending. The facility is also equipped to produce and fabricate all kinds of GI and pre-insulated panels ducting, and various duct accessories.

We have business alliance with the providers of HVAC controls, including thermostats, unit controls, system controls, and building automation systems.

A team of qualified engineers and technicians with decades of experience in the design, execution, and commissioning of various types of air-conditioning systems have helped build our company. Company is all set to soar to new heights keeping with the fast pace of development that is engulfing the horizon of the Middle East.

TELECOMMUNICATION

BLACK ARROW TRADING EST. believes in diversification of activities and market which allows companies to survive and even grow during slowdown in any one of the sectors in which the company is operating.

Based on this policy BLACK ARROW TRADING EST. introduced a division for design, supply, installation and testing of telecommunication networks in the beginning of the year 2009. During one year company has established its name among the competitive telecommunication contractors in the kingdom and GCC.

The major source of business gained during the first year was from main contractors working for Saudi Aramco, SABIC, SEC and various government organizations.

BLACK ARROW TRADING EST. established itself in the telecommunication market by creating an experienced technical manpower team which had handled complex and advanced telecommunication projects.

The main activities in any telecommunication project opportunity are composed of the following:

Review of contract documents, design drawings and bill of quantities if provided.

Check the possibility of accommodation of the new project schedule in the current on-going projects.

Decide if BLACK ARROW TRADING EST. will bid or not bid for the project.

If the decision is to BID for the project then, Engineering and estimation department will prepare the cost which will be incurred by BLACK ARROW TRADING EST. for the project. The estimation is done by engineers with vast experience of execution of such projects.

Mobilization

Supply of equipment and materials

Installation of equipment and materials

Testing and commissioning of the system

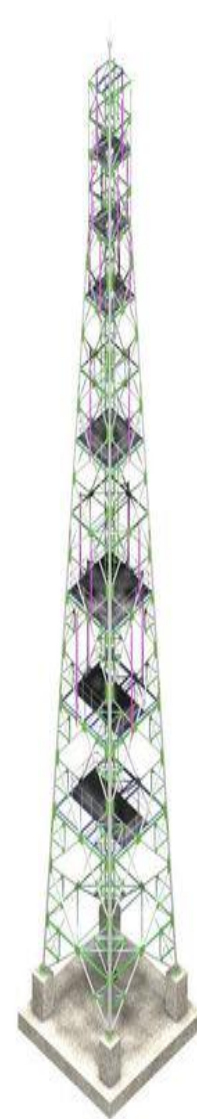

Hand over and project finalization

Services Provided by Black Arrow:

- Designing and Making Towers for Companies.
- Trenching, cable laying and backfilling long haul telecommunication cable routes.
- OTDR and Power Meter/Light source test.
- PMD/CD test for high speed long distance fiber networks.
- Detection and repair of damaged fiber optic cable.
- Installation of cable raceways and conduit system.
- Installation of equipment racks and cabinets.
- Installation of MDF and UTP patch panels.
- Installation of fiber optic patch panels.
- Running the cable on cable trays and inside the conduits.
- Supply and Installation of patch cords.
- Voice and Data Networks:
 - Supply, Installation and testing of Data switches and routers.
 - Supply, installation and testing of fiber transmission equipment.
 - Supply and installation of PABX and Key systems for voice networks.
 - Supply and installation of paging systems.
- Wireless Telecommunication Networks:
 - Installation of GSM towers and shelters.
 - Installation of monopoles and rooftop shelters.
- Point to point MW links.

SECURITY SYSTEMS

Total digital video and audio recording system that provides continuous CCTV recording, archiving and debriefing capabilities that meets the needs of today's demanding security environment. The complete solution for high-level security. Alternatively, the stand-alone CCTV systems, which provides visual display of specific areas of plants or buildings.

CCTV Surveillance Systems Since its inception, Black Arrow Est. Surveillance has successfully installed CCTV Systems across all industries and types of environments. These include Industrial Factories + Offices, Retail Outlets, Supermarkets, Office Blocks, shopping Centers, etc. All the surveillance systems installed & maintained by Black Arrow Est. are Digital.

Almost all CCTV systems share certain fundamentals similarities:

- Video Acquisition and Management
- Multiple Camera and Audio Inputs
- Macro Capability
- Limited User Rights Management
- Time schedule engine
- AVI export utility

Integrated CCTV systems 2 and smart video

- Alarm message sending by modem or email
- Query engine
- Input / Output Capability
- Remote IP based Viewing

INFORMATION & TECHNOLOGY

BLACK ARROW TRADING EST. IT APPLICATION SOLUTIONS

The company's mission is to supply products and services that enable our clients, whatever their nature, to gain their core organizational objectives. Ranging from Custom / Tailored Application that is designed only suitable for Small to Medium Business, to complex ERP Application for your Enterprise. We are offering a wide range of I.T service to the customers which are as follows:

BLACK ARROW TRADING EST. WEB SOLUTIONS

We design web pages using the latest technologies and tools such as:

- HTML
- CSS
- Adobe Flash
- Macromedia Dreamweaver
- ASP
- ASP.net
- JAVA
- JSP
- SERVELTS

By using such technologies we develop all types of web sites includes static websites to large, complex and dynamic web applications according the very demand of the honorable clients.

BLACK ARROW TRADING EST. NETWORKING SOLUTION

The work in I.T industry does not complete if we don't talk about the computer networks. So in this field of I.T we have left no stone unreturned. We have the Network Engineers which are fully equipped with the latest technologies and tools that are being used in this era. We offer all types of services according the very needs of our respected and high valued customers. We offer the service in computer network such as:

Microsoft OS (Server, professional complete a to z configurations)

Mac and OS/2 by Apple Corporation thoroughly administration and configuration

Mail server (MS-Exchange, Outlook, Q mail etc.)

Complete LAN solutions (wired and wireless configuration, installation, maintenance supervision etc.)

BLACK ARROW TRADING EST. BANDWIDTH MANAGEMENT OPTIMIZATION SOLUTION

We provide bandwidth management optimization solutions by opting the Installation, maintenance and configuration of all types of LAN and WAN devices, Network standards and software such as:

LC

Frame Relay

VPN

TCP IP suite

VSAT etc.

BLACK ARROW TRADING EST. NETWORK SECURITY SOLUTION

We also offer the services in network security by installation, configuration and troubleshooting of different network security device of (CISCO, JUNIPER etc) and software such as:

- Firewalls (PIX, ASA, Sonic Wall)
- Internet Security by the means of different utility software etc.

We provide comprehensive IT infrastructure solution to help design, deploy integrate and manage an efficient infrastructure. We work closely with you to help build the right solution for your business needs.

Black Arrow Trading Est. is a major supplier and exporter of Top-branded consumables in Kingdom, major brands is bellow icons:

Our major products: Computers and Laptop, Printers, Copier Machine, Cisco Telephone, Networking Material, Fiber Optics Cable, Cat 6 Cable, Routers, Switches, Original inks and toners and many more... ALSO WE ARE PROVIDING REMOTE INTERNET. We are providing yearly maintenance contract.

Certificate of Registration

Awarded To

BLACK ARROW TRADING EST.

Company Address

Dammam, Kingdom of Saudi Arabia

IQCS Certify that the Quality Management System of the above organization has been audited and found to be in compliance with the requirements of the management system standard detailed below:

ISO 9001:2008

Scope Of Registration

To Trade In Air Conditioning and Refrigeration Devices, Computers, Mechanical and Electrical Devices and Electronics and Spare Parts of the Forgoing and to Provide After Sale Service.

IQCS CERTIFICATIONS PRIVATE LIMITED
90, Main Road, Al Khobar, Al Khobar, Saudi Arabia
E-Mail: info@iqcs.com
This certificate is accredited by Accreditation Service for Certification Bodies (ASCENB) Ltd.
Certification Bodies (SCOPED) Ltd.
1, The Quadrant, Birmingham, B15 4JL, United Kingdom
200808-1

Managing Director

This Certificate is valid for three years, subject to satisfactory completion of annual Surveillance Assessments. In the event of non-compliance with the conditions set out for issuance of this Certificate may render this Certificate invalid. Therefore, this Certificate remains the property of IQCS Certifications Private Limited, to whom it must be returned on request.
