We encourage, for example, placing the concrete foundations ourselves in the crucial beginning stage of the project. And we do our own carpentry work to ensure that the finishes are also carried out with precision and skill .The pride we take in our work explains why we refuse to take shortcuts. It's why we are such sticklers for making sure our subcontractors use the right materials and techniques. It's why we feel such urgency to manage costs and meet our clients' needs. And it's why, for the last two years M/s Bhushan's has never missed a deadline.
