**FEED SUPPLMENTS**

**Mineral Mixture(Powder)**

**1. OCTAVIT Feed Supplements(Methoxy)**

**USES**

- ❖ Improving Fat % of Milk.
- ❖ Higher Bio-Availability of Minerals.
- ❖ Higher Reproduction Efficiency.
- ❖ Improve Health of Animal & Calf.
- ❖ Improve Growth & Milk Production.
- ❖ Prevent Nutritional Deficiency In Animal.
- ❖ Helps In Formation of Strong Bones In Growing Animals.

**2. OCTAVIT Feed Supplements(Chelated)**

- ❖ Improving Fat % of Milk.
- ❖ Higher Bio-Availability of Minerals.
- ❖ Higher Reproduction Efficiency.
- ❖ Improve Health of Animal & Calf.
- ❖ Improve Growth & Milk Production.
- ❖ Prevent Nutritional Deficiency In Animal.
- ❖ Helps In Formation of Strong Bones In Growing Animals.

**Product Range :**

- Veterinary Feed Supplements
- Food Supplements
- Juices

**3. OCTAVIT Feed Supplements(Minerals & vitamins)**

- ❖ Improving Fat % of Milk.
- ❖ Higher Bio-Availability of Minerals.
- ❖ Higher Reproduction Efficiency.
- ❖ Improve Health of Animal & Calf.
- ❖ Improve Growth & Milk Production.
- ❖ Prevent Nutritional Deficiency In Animal.
- ❖ Helps In Formation of Strong Bones In Growing Animals.

**Mineral Mixture(Liquid)**

**4. OCTARICH Calcium(Chelated)**

- ❖ Improves milk yield.
- ❖ Helps formation of strong bones in young growing animals.
- ❖ Ideal feed for pregnant animals.
- ❖ Useful after De-worming.
- ❖ Better health better milk productions.
- ❖ Higher bi-availability of chelated minerals.

**5. OCTARICH Calcium(Non-Chelated)**

- ❖ Improving Milk Yield.
- ❖ Ideal Feed for Pregnant Animals.
- ❖ Useful After De-Worming.
- ❖ Better Health Better Milk Production.
- ❖ Higher Bioavailability of Chelated Minerals.

**Life Sciences**

**Product Range :**

- Veterinary Feed Supplements
- Food Supplements
- Juices

**6. OCTARICH Calcuim Gold (Chelated)**

- ❖ Useful after De-worming.
- ❖ Improving Milk Yield.
- ❖ Ideal Feed for Pregnant Animals.

**7. OCTAVIT GEL**

- ❖ As an aid to prevent milk fever & associated complications.
- ❖ As an aid to increase milk yield.
- ❖ As an aid to favor the normal contraction of uterus normal calving & timely expulsion of placenta.

**8. OCTALITE**

- ❖ Improve Health of Animal & Calf.
- ❖ Fixes the physical problems of animals due to heat.
- ❖ Reduces stress in animals.

## Product Range :

- Veterinary Feed Supplements
- Food Supplements
- Juices

9. OCTA - H 250 ml

- ❖ Improves Fertility of Breeding Bulls.
- ❖ Strengthen Udder Tissues & Muscles.
- ❖ Prevents inflammation of udder.
- ❖ Improves endurance capacity.
- ❖ Animal skin becomes more shiny.
- ❖ Stop Hair Loss.

10. OCAT - UT<sup>+</sup>

- ❖ Tones up the Uterine Muscles & Ensure easy expulsion of placemnets without bleeding of tissue damage.
- ❖ Brings back the uterus to normal, helps next conception.
- ❖ Helps to avoid possible infections like Metritis, Pyometra, Endometritis etc.
- ❖ Boost up the Milching Capacity.
- ❖ Regulates the Flow Lochial Discharge.

11. OCTA-LIV

- ❖ Restores the functions of the liver.
- ❖ Prevents animals from diseases like irritation, stomach gas and liver disorders.
- ❖ Improves digestive system of animals.
- ❖ It helps in rapid regeneration of tissues and cells of liver.

## Product Range :

- Veterinary Feed Supplements
- Food Supplements
- Juices

### 12. OCTA – TOXIN BINDER

- ❖ Effective against wide range of Mycotoxins including aflatoxin, Ochratoxin, T-2 Toxin, Fumonisin etc.
- ❖ Reduces economic losses, via prevents risk of infection.
- ❖ Helps to maintain milk production, DMI (Dry Matter Intake) and reproduction.

### 13. OCTA-M PLUS

- ❖ Prevents from infection of udder.
- ❖ Octa-M is helpful when acute Mastitis, turns to subacute nature and fibrosis is threatened.
- ❖ Octa m saves teats from becoming hard, Cracked and D- shaped.
- ❖ Octa m saves teats from becoming small.

### 14. OCTA – CAL D

- ❖ Complete solution for pregnant animals.
- ❖ Helps in formation of strong bones.
- ❖ Meets the deficiency of calcium & phosphorus.

**Life Sciences**

**Product Range :**

- Veterinary Feed Supplements
- Food Supplements
- Juices

**15. OCTA SUPER GOLD**

- ❖ Useful after De-Worming.
- ❖ Helps in increase of milk yield.
- ❖ Helps in Formation of Strong bones.
- ❖ Complete solution for pregnant animals.
- ❖ High Vitamin D3 ensures better Ca and P absorption.
- ❖ Higher Bio-availability of Amino Acid Chelated Minerals.
- ❖ Boost immune function by increasing activity of B & T lymphocytes and macrophage.
- ❖ Extra calcium, cobalt, phosphorus and vitamin B12 enhances milk production.
- ❖ Potassium iodate provides more metabolic energy for higher milk yield.

**16. OCTA – FAT BOOSTER**

- ❖ Increases milk fat instantly.
- ❖ Improves digestibility of feed.
- ❖ Increases milk yield significantly.
- ❖ Improves energy content of feed.
- ❖ Improves body score condition in animals.
- ❖ Reduces Heat Stress in animals during summer.

**17. OCTA – DIGEST**

- ❖ To stimulates appetite.
- ❖ To exert a tonic activity.
- ❖ To normalises the P.H. of rumen.
- ❖ To improves better milk production.
- ❖ To improves egg production in layers.
- ❖ To Boost up the formation of digestive enzymes.
- ❖ To Simulates Liver and helps digestion / anorexia.
- ❖ To increase resistance against bacterial & viral attacks.

**Life Sciences**

**Product Range :**

- Veterinary Feed Supplements
- Food Supplements
- Juices

**18. OCTA – pHMIN**

- ❖ Uses under high grain diets & low rumen pH conditions.
- ❖ Stabilized rumen pH & bind mycotoxin.
- ❖ Enhances fiber digestibility.
- ❖ Increases milk yield and milk fat percentage.
- ❖ Prevents condition like lameness, heat stress, mastitis, diarrhoea, poor body condition due to acidosis.

**19. OCTAZYME**

- ❖ Immune modulator.
- ❖ To improve liver functions
- ❖ Higher reproduction efficiency.
- ❖ Healthy animal and healthy calf.
- ❖ For Prevention of Nutritional Deficiency.
- ❖ Ensure maximum bio availability of minerals No mineral to mineral interaction (No energy required for absorption) enhances productivity.

**20. OCTA CAL-P GEL**

- ❖ Increases calcium mobilization from bone.
- ❖ Increases calcium absorption from intestine.
- ❖ Activates the vitamin D3 & calcium metabolism.
- ❖ Ensures rapid and efficient absorption of calcium.
- ❖ Provides 5 times more calcium than I/V calcium injection.
- ❖ Maintains serum calcium level; longer than I/V calcium therapy.
- ❖ Enhances serum calcium level within 15min of oral administration.
