

Pellet Agni Batch Stove

Special features & advantages:

-  Saves cost up to 30% over LPG
-  Gasification Stove, smoke free flame
-  Highest Efficiency achieved in India.
-  Best Controls, switches from simmer to High flame quickly.
-  Suitable for all types of cooking.
-  ROI in few months .

APPLICATIONS

SNACKS

MEALS

SWEETS

Advantages of Pellet Fuel:

-  **Cost Efficient.**
-  **Eco Friendly, Clean Fuel.**
-  **Made from Agricultural & Forest waste.**
-  **Safe Fuel in compare to LPG, Kerosene**

PELLET ENERGY Systems has established ASIA'S LARGEST capacity 1,20,000 TONS annual BIO-MASS FUEL PELLET Plant, with WORLD'S BEST STATE OF ART Full Automated European Technology Ensuring Consistent High Quality & Reliable Supplies. Plant is capable of producing different grades and size of Fuel Pellets.

"Biomass Pellets will Change the Way, You Heat Forever"

ADVANTAGES

- Eco-friendly Biomass Fuel Pellets with consistent High Energy.
- Made from agriculture residue & forest waste like baggasse, wood shavings, mustard, sawdust etc...
- Carbon Neutral, Negligible SOx & NOx in flue gas.
- Easy storable & reduces risk of Fire as flash point is at high degree
- Alternate fuel to most of all fuels & can be used in variety of domestic, industrial and commercial appliances.
- Free Flowing, No modification in fuel feeding system.
- Consistent product quality and reliable supply.
- Price is less volatile as compared to Fossil fuels.

Enviro-Pellets Applications & Advantages

Hot Air Generator
can be used in Bakeries and Industries for Powder coating, Baking, Shrink wrap etc.

Hot Water Generator
can be used in Hotels, Hospitals, Hostels, Industrial, Bath heating & Cleaning applications

Spreader
to feed Pellets to Boilers pneumatically like liquid fuel

Pellet Burners

can be used in Namkeen/Sweet manufacturing and Industries for Metal melting furnaces, Heating furnaces & Boilers

Fire Place
to Heat Indoor and Outdoor space

Pellet Stoves
for Bulk Cooking and Domestic Cooking

Saw Dust Pellet

Raw Material	Saw Dust
Diameter	6/8 mm
Length	10 - 30 mm
Caloric Value	4200 ± 2% kcal/kg
Moisture Content	<10 %
Ash Content	Up to 2 %
Bulk Density	>720 kg/m ³

Wood Pellet

Raw Material	Wood Chips
Diameter	6/8 mm
Length	10 - 30 mm
Caloric Value	4000 ± 2% kcal/kg
Moisture Content	<10 %
Ash Content	<4 - 5 %
Bulk Density	>700 kg/m ³

Bio Mass Pellet

Raw Material	Forest /Agri- Waste
Diameter	6/8 mm
Length	10 - 30 mm
Caloric Value	3800 ± 2% kcal/kg
Moisture Content	<10 %
Ash Content	<6 - 8 %
Bulk Density	>650 kg/m ³

ABOUT US

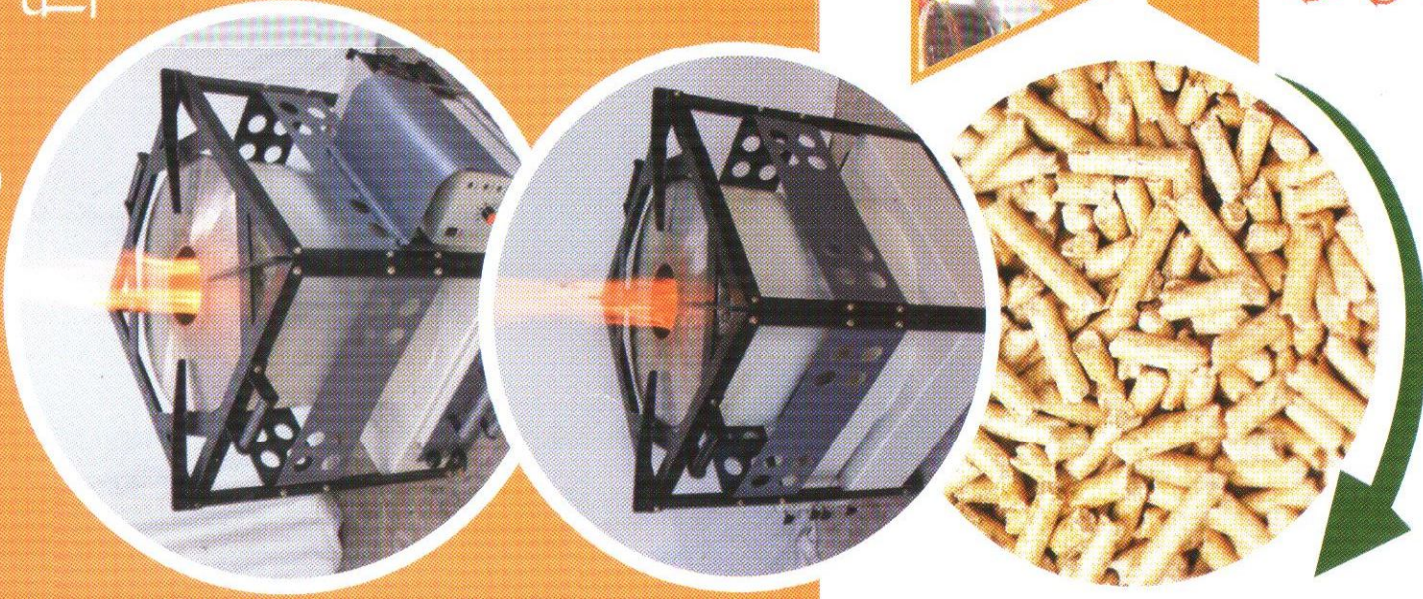

Pellet Energy Systems has developed wide range of High Standard Cost Effective Appliances work on Pellet Fuel in collaboration with an European appliance company. We are soon launching complete range of appliances.

पैलेट आग्नि बैच चुल्हा

विशेषताएँ व लाभः

-  रसोई गैस से 30% तक बचत ।
-  गैसीकरण चुल्हा, धूम मुक्त लौ ।
-  भारत में सर्वोत्तम ज्वलन क्षमता हासिल ।
-  सर्वश्रेष्ठ नियंत्रण, (त्वरित उच्च लौ से धीमी लौ नियंत्रण) ।
-  हर प्रकार का और अधिक मात्रा में खाना पकाने के लिए उचित ।
-  ₹ कुछ ही महीनों में निवेश पर वापसी ।

उपयोगिताएँ

स्नेक्स

पकवान

मिठाई

पैलेट ईंधन के लाभः

- ① लागत कुशल
- ② पर्यावरण के अनुकूल, स्वच्छ ईंधन ।
- ③ कृषि एवं वन अपशिष्ट से बने ।
- ④ रसोई गैस, मिट्टी तेल आदि की तुलना में अधिक सुरक्षित ईंधन ।
