

# TARA Paper Recycling Enterprise

**New skills and livelihoods for visually handicapped men & women using TARA Paper Recycling Technology.**

National Institute for Visually Handicapped (NIVH) at Dehradun is a pioneer in imparting new livelihoods skills to aspiring men & women. TARA Machines has provided the equipment, technology know-how and training to operate the equipment. At the institute, waste brail paper is recycled to produce high quality paper used for office stationary and Dona / Pattal.

Similarly SAMARTHANAM in Bangalore, is a society helping in rehabilitation of visually handicapped people. TARA

Paper Recycling Technology provides livelihood opportunities to these differently able people by converting paper and cotton waste to high quality paper and paper products. TARA has established this unit at Bangalore in 2009.

**Other valued TARA customers include Ambuja Cement Foundation, Ropar, Punjab technology used by HIV +ve people, Literacy India, Gurgaon .**
