

TARA BrickMek

Success Story of Rengali, Orissa

TARA BrickMek green brick moulding machine is a front runner for mechanization of brick moulding process by leading brick makers.

M/s Balaji, Rengali, Orissa is a well known enterprise in the brick field working for more than last 20 years. Recently, the entrepreneur approached TARA for mechanization of the brick moulding process at his site. TARA Machines has provided the ideal solution; its semi-mechanized soft mud brick moulding machine-TARA BrickMek Machine. The machine has the ability to mix materials and internal fuel to reduce the primary coal consumption during the brick firing process.

With the use of TARA BrickMek machine the enterprise has reduced its dependency on moulding labor while achieving a remarkable improvement in quality of finished product.
