PRACTICA™ T110

HEADSET TELEPHONE WITH NOISE-CANCELING TECHNOLOGY

Comfortable, Cost-Effective Call Center Solution

Promote all-day user comfort and efficiency with the ergonomic, economical T110 Headset Telephone

Practica by Plantronics presents a supremely comfortable, thoroughly reliable audio solution for workers in growing contact centers. The cost-effective T110 Headset Telephone pairs a generously cushioned, noise-canceling headset with an ergonomically designed, firm-key dial pad that reduces the stress of continuous manual dialing. A supervisor port on the dial pad gives users direct access to a supervisor for training or problem resolution. Featuring flash, mute, and redial buttons, as well as three flash settings, the T110 includes adjustable volume and tone/pulse controls for added user convenience.

- **All-day comfort**

Generously cushioned headset with adjustable volume ensures comfortable listening throughout the day.

- **Strong audio performance**

Renowned Plantronics noise-canceling technology improves speech clarity and worker efficiency.

- **Supervisor access**

Users can reach supervisors directly from the keypad to seek problem resolution or additional instruction.

- **Low-stress dialing**

Dial pad designed ergonomically with firm, flat keys to reduce the stress of manual dialing.

- **Adjustable flash timing**

Three flash settings — 98, 300 and 600ms.

- **Call control**

Provides answer/end, flash, mute and redial buttons, and includes online and mute indicator lights.

The T110 solution features a noise-canceling headset
