About Us

For more than 25 years, we, **Shri Avirat FRP Moulders** have been keeping an edge over our competitors in markets by making available a world class gamut. The range we bring-forth comprises **Cooling Tower Fan, Cooling Tower Aluminum Fan, Cooling Tower Aluminum Sprinkler, Cooling Tower Electric Motor, Water Cooling Tower** etc. This range is the marvelous creation of our team of experts. They make the best use of premium grade raw material and prepare a best grade range. After the items are ready, we test them on various parameters to be sure about their features. Owing to our promise of offering clients with the best products, we exercise a rigid quality control system at our premises.

We are one of the most experienced **manufacturers** who is very well aware of the requirements and expectations of customers. Along with delivering excellence with consignments, we take care of other factors also like timely shipment and accurate packaging. By our reliable services, we have been able to win the hearts of customers and are serving a huge client base today.

Why Us?

Our company offers a wide product range that comprises Cooling Tower Aluminum Sprinkler, Cooling Tower Fan, Cooling Tower Aluminum Fan, etc. These products have features such as corrosion resistance and durability. Offering a high in class range is our USP and taking care of each of the needs of customers is our passion. Clients who are associated with us praise us for our caring and attentive nature.

Positive Leadership

One of the strengths of our business venture is a diligent team that has been supporting us since our commencement. The employees of our company are able to participate in every small and big decision. Above them, there is a strong and positive leadership of our administrators which motivates the workers to use and suggest their ideas in different situations. This makes our team active and passionate about their jobs thereby helping us ensure best results.
