**KRISHNA STONES**  
ROCKS THAT TALK

**KRISHNA STONES**  
ROCKS THAT TALK

## Company Profile

From the humble beginnings as a family business venture started by Mr. Anand Khatri in 1982, We are well and truly International with a vision & approach to serve the domestic and international market with the exotic natural stone from India and to obtain a prominent place in Indian Stone sector by virtue of trust worthiness & reliability.

The Key values of our company being making available Products with perfection and excellence in quality, We have a dedicated, skilled & qualified work force to oversee inspections on quality checks before dispatching our products. We leave no stone unturned to ensure & maintain delivery schedules.

All these are aimed at providing "Absolute Customer Satisfaction". Because of the consistency in providing customer oriented services and transparency in business dealings, KRISHNA STONES has earned an excellent reputation in international markets

Changing lifestyles & evolving technology have ushered in a different dimension in ones perception of excellence. To suit your creative & contemporary interior décor ideas we give you exotic & sophisticated flooring options through our range that has excellence in quality.

### Motto

"Rocks that Talk" - To supply processed and finished rocks with quality that speaks for itself.

### Vision

To set benchmarks of quality and excellence in stones providing qualitative contribution to our customers, people and community.

### Our Values

**Integrity** - We are upright and fair

We are incorruptible. We are trustworthy

**Teamwork** - We work together to achieve our customers 100% satisfaction and build our company reputation.

We care for one another. We share knowledge. We put aside personal interests.

**Commitment** - We pledge to be the best we can be.

We strive for excellence. We take ownership. We deliver what we promise.

**Courage** - We do the right things despite risk and danger.

We encourage different views and ideas. We dare to change. We are not afraid to fail.

**Responsiveness** - We anticipate changing needs and act promptly

We keep ahead of changing realities. We take quick and decisive actions. We continuously learn and adapt.

Black Gold

# Sandstones

Sandstone is actually a sedimentary rock formed by the consolidation and compaction of sand, which is held together by a natural cement, such as silica. Natural sandstone is an extremely hard and tough material. Sandstone is typically the youngest of the quartz-based stones, with each stone having a different level of porosity, hardness and compressive strength. Indian sandstone is suitable for domestic and commercial use. Owing to their natural beauty, sandstones are used for interior as well as exterior decoration including flooring, paving, cladding walls and floors.
