

WATER STILL Manesty Type (LI-WS(A)-21, LI-WS(S)-22)

APPLICATION :

The Water Still is specially designed and fabricated to suit various IS Standards to filter water from impurities, dissolved salts & odour in the field of Medical, Agricultural, Industrial, Chemical, Research Laboratories and Hospitals. General laboratory purpose water distillation plant.

FEATURES :

- The instrument is recommended for making pyrogen free distilled water for routine laboratory requirements.
- Made of Aluminium or SS sheet.
- A wall-mounting clamp provided with the unit.
- Supplied with dual cord and plug.

Technical Specifications :

Model : LI-WS(A)-23			
Output Capacity (per Hr)	2 to 3 Ltrs	3 to 4 Ltrs	5 to 6 Ltrs
Construction Material	Aluminium		
Power	230V AC Single Phase		

Model : LI-WS(S)-23			
Output Capacity (per Hr)	2 to 3 Ltrs	3 to 4 Ltrs	5 to 6 Ltrs
Construction Material	Stainless Steel		
Power	230V AC Single Phase
