Servoday Grab

The Products range of Grab Equipments

Products:

- *Radio Remote Control Grab*
- *Mechanical 2 & 4 Rope Clamshell Grab*
Orange Peel Grab (Cactus Grab)
- *Electro Hydraulic Log Grab*
- *Electro Hydraulic Clamshell Grab*
- *Electro Hydraulic Orange Peel Grab*
- *Hydraulic Excavators Attachments*
- *Special purpose Grab for Rock & Logs*
- *Port Hopper/Silos*

Radio Remote Control Grab

SUITABLE FOR SHIP CRANE
ENVIRONMENT FRIENDLY GRAB

Product Description:

It runs with 12/24VDC battery, Operation system with Single heavy duty hydraulic cylinder.

Grab suitable for Ship crane rigging system.

100% performance in all kind of bulk cargo.

The Remote control operate up to 100meters distance with multiple channels do not mix with port navigational equipments.

Shells manufactured out of wear resistant steel.

Arms manufactured out of high tensile steel.

Cargo can be use density from 0.75 t/m³ up to 2.8 t/m³

Manufacturing capacity starts from 2 to 50 Cubic meter capacity with capacity reducible by kick plate.

Mechanical 2 & 4 Rope Clamshell Grab

Product Description:

Grab is very suitable for any operation for 2 & 4 ropes various type crane.

Manufactured with very high quality standards.

Our Manufacturing Capacity is from 2.5 Cbm up to 50 Cbm Capacity can be reducible by kick plate.

Grab technical design for Cargo density from 0.75 t/m³ up to 3.5 t/m³

Used for Ports, Ship -Transshipment and all type operational cargo.

100% performance in all types of bulk cargo..

High quality steel material as Hardox 400/500 Weldox 700 and ST 52 - 3

SERVODAY

Mechanical 2 & 4 Rope Orange Peel Grab

(Cactus Grab)

Product Description:

Special design from 1.0 Cbm up to 30 Cbm

Manufacturing in very high quality standards by using High quality steel material as Hardox 450, Weldox 700 and ST 52 – 3

Grab design for various type of material density Normal type - Medium type - Heavy - duty type.

High quality manufacturing Half petal - Full Close and open model.

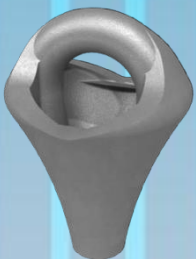

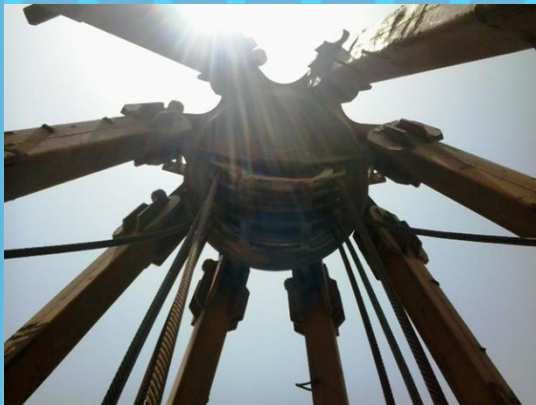

For handling Scraps material - rubbish - waste - wood - chips - etc.

Depend on the grab capacity nail number can be changed as 5 - 6 - 7 - 8 pieces.

Easy periodic maintenance, all moving parts with grease oiling construction.

Arm and Sheave bearing Sea waterproof bronze and double sealed if required.

Grab used in various industries like All

Electro Hydraulic Log Grab

Product Description:

Special design from 1.0 Sq. Meter to 5.0 Sq. Meters.

Manufacturing in very high quality standards by using High quality steel material as Hardox 450, Weldox 700 and ST 52 – 3

Grab design for various type of Timber Logs density Normal type - Medium type - Heavy - duty type.

High quality of Hydraulic components used to deliver the efficient powers.

Easy periodic maintenance and all moving parts with grease oiling construction.

Electo Hydraulic Clamshell Grab & Orange Peel Grab

Clamshell

Starts from 2.0 CBM to 40 CBM

Orange Peel Grab

Starts from 2.0 CBM to 30 CBM

Product Description:

Grab density from 0.7 t/m³ up to 3.5 t/m³

**User group Ports- Ships – Steel Plant ,
Industrial factory etc.**

**Working system 380 V – 415 V 50 Hz or 440
V 60 Hz.**

**Fastest Opening and closing time depend on
grab capacity .**

**Hydraulic pressure from 130 Bar up to 230
Bar.**

**High quality Hydraulic cylinders made from
Stainless (RVS) hard chromed.**

**High Quality of material ware resistance
steel.**

**Manufacturing in very high quality
standards by using High quality steel
material as Hardox 450, Weldox 700 and ST
52 – 3**

Hydraulic Excavators Attachments

Product Description:

- **Hydraulic Clamshell Grab Attachment**
Capacity 1.0 m³ to 2.0 m³
Density 1.8 t/m³ to 2.6 t /m³
- **Hydraulic Orange Peel Attachment**
Capacity 0.4 m³ to 2.5 m³
Density 2.0 t/m³ to 2.5 t/m³
- **Hydraulic LOG (TIMBER) Attachment**
Capacity 1.0 m³ to 3.0 m³

Manufacturing in very high quality standards by using High quality steel material as Hardox 450, Weldox 700 and ST 52 – 3
