Not Failures , But Low aim is Crime

Remote Operated SMART SWITCH BOARDS with Fan Regulator and Timer

Model No. RSSB01- 2L1FR

Input Voltage : AC 130 V - 240 V , 50 HZ
 Fan Regulator Output Volatge AC 130 – 230 V
 Power Out Each Switch : 100 W Max.
 Low Heat Losses.
 2 Remote operated Lamp Switches
 5 Steps Fan Speeds Regulators
 5 OFF Timer Settings

Model No. RSSB02 - 4L1FR

Input Voltage : AC 130 V - 240 V , 50 HZ
 Fan Regulator Output Volatge AC 130 – 230 V
 Power Out Each Switch : 100 W Max.
 Low Heat Losses.
 4 Remote operated Lamp Switches
 5 Steps Fan Speeds Regulators
 5 OFF Timer Settings

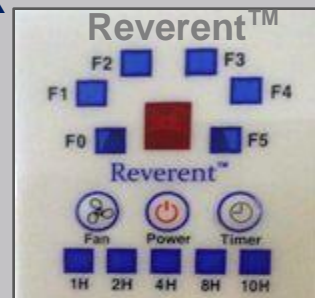

ROTARY TYPE FAN REGULATOR Model No. RFR – RS 01

Input Voltage : AC 230 V Phase , 50 Hz
 Out Put Voltages : AC 130 to 230 V Phase , 50 HZ
 Power Output : 100 W Max.
 360 Degrees Rotations
 Low Heat Losses.
 Low Power Consumption.
 0 Plus 5 Speeds in Steps .
 Most Reliable Capacitive Switching

Remote Operated FAN REGULATOR 0 to 5 Steps Fan Speed

Input Voltage : AC 230 V , 50 Hz
 Out Put Voltage : AC 130 to 230 V Phase , 50 HZ
 Power Output : 100 W Max.
 Remote Operated 5 Speed Fan Regulator
 Low Heat Losses. , Low Power Consumption.
 5 OFF Timer Settings
 Low Heat Losses.
 Manual Switching Facilities
 Supplied with Remote Hand Set

Reverent™

ISO 9001: 2015

Remote Operated **SMART SWITCH BOARDS** with Fan Regulator and Timer

Model No. RSSB02 - 4L1FR

Input Voltage : AC 130 V - 240 V , 50 HZ
Fan Regulator Output Voltage AC 130 – 230 V
Power Out Each Switch : 100 W Max.
Low Heat Losses.
4 Remote operated Lamp Switches
5 Steps Fan Speeds Regulators
5 OFF Timer Settings

Model No. RSSB01- 2L1FR

Input Voltage : AC 130 V - 240 V , 50 HZ
Fan Regulator Output Voltage AC 130 – 230 V
Power Out Each Switch : 100 W Max.
Low Heat Losses.
2 Remote operated Lamp Switches
5 Steps Fan Speeds Regulators
5 OFF Timer Settings

Remote Operated FAN REGULATOR 0 to 5 Steps Fan Speed

Input Voltage : AC 230 V , 50 Hz
Out Put Voltage : AC 130 to 230 V Phase , 50 HZ
Power Output : 100 W Max.
Remote Operated 5 Speed Fan Regulator
Low Heat Losses. , Low Power Consumption.
5 OFF Timer Settings
Low Heat Losses.
Manual Switching Facilities
Supplied with Remote Hand Set

Reverent Products are Designed , Developed and Manufactured in India by meeting International Quality Standard

HEAT CONVECTORS

Reverent HEAT CONVECTORS Model No. RHC- 01

IS : 302-02-30

CM/L 8100012482

Input Voltage : AC 230V V , 50 HZ
Power Consumption : 1000 W / 2000 W
Auto Cut Off hence Low Heat Losses.
Safe High Grade ISI Marked Input Cable
BIS Approved , ISI Marked

Reverent HEAT CONVECTORS Model No. RHC- 01

IS : 302-02-30

CM/L 8100012482

Input Voltage : AC 230V V , 50 HZ
Power Consumption : 1000 W / 2000 W
Auto Cut Off hence Low Heat Losses.
Safe High Grade ISI Marked Input Cable
BIS Approved , ISI Marked

Reverent Products are Designed , Developed and Manufactured in India by meeting International Quality Standard

Reverent™

ISO 9001: 2015

MOBILE CHARGERS , AC –DC ADAPTORS

Model No. RMC0502 -02

Voltage Output 5V
Current Output 2 A
Input Voltage 100 V – 260 V
Frequency 50 Hz
Fast Charging .
Low Heat Losses.

Model No. RAD 24V2P5A -01

Model No. RAD 12V5A -02

Voltage Output 24 V / 12 V
Current Output 2.5A / 5 A
Input Voltage 100V – 260 V
Frequency 50 Hz
Fast Charging .
Low Heat Losses.

Reverent JUMBO TORCH EMERGENCY LIGHT

Model No. REL – 01 JT

Input Source for Charging : AC 230V V , 50 HZ
Most Reliable SMPS Charging ...
Power : 5 W Max.
Automatic Turns On in the absence of AC Mains.
Service Warranty : One Year
Batteries Replacement Warranty - One Year..

Reverent Products are Designed , Developed and Manufactured in India by meeting International Quality Standard

Not Failures , But Low aim is Crime

CLOTH IRONS

Reverent CLOTH IRONS Model No. RCI – 01 750W

IS : 366

C/M/L A/F

Input Voltage : AC 230V V , 50 HZ
Power Consumption : 750 W Max.
Auto Cut Off hence Low Heat Losses.
Safe High Grade ISI Marked Input Cable
BIS Approved , ISI Marked

Reverent CLOTH IRONS Model No. RCI -02750W

IS : 366

C/M/L A/F

Reverent™

Input Voltage : AC 230V V , 50 HZ
Power Consumption : 750 W Max.
Auto Cut Off hence Low Heat Losses.
Safe High Grade ISI Marked Input Cable .
BIS Approved.

Electrical Switches & Sockets

IS : 3854

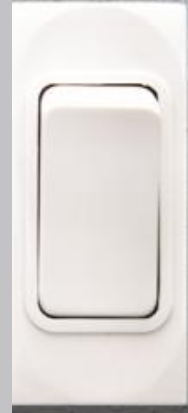

CM/L A/F

Reverent **SAFE** Switches Series
6 AMPS / 16 AMPS

- S - Safe
- A - Adheres to Global Standards.
- F - Fire Retardant
- E - Elegant Look

IS : 694

CM/L 8655901

Reverent Electrical Wires and Cables

0.75 Amp. Sq.mm / 1.00 Amp. Sq.mm
PLUS

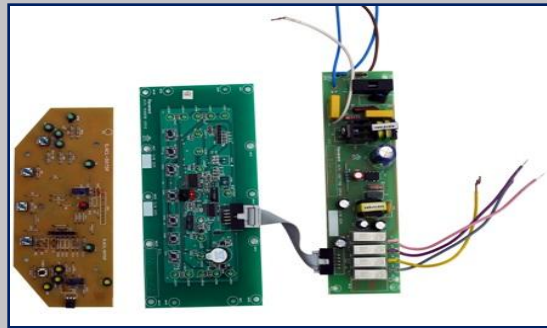

FR Grade- Fire Retardant **SMART** Cables...

- S - Safe Insulation.
- M - Measured accurate Specifications.
- A - Adheres to Global Standards.
- R - Redefines Quality
- T - Total Value for Money.

Reverent Products are Designed , Developed and Manufactured in India by meeting International Quality Standard

Not Failures , But Low aim is Crime

Remote Operated AIR COOLER PCB SOLUTION

Reverent Remote Operated PCB Solution is based on world class Technologies including Most Advanced Panasonic Micro controllers and Power Supply SMPS high end Device of Power Integration USA . The Products matches the International Standards and is most suitable for Exports as well due to its built in Safety and Reliability characteristics.

Technical Specifications & Features :

Input Supply : 110 V - 230 V , 50 Hz.

Out Put Power : 300 W max.

Power Supply : SMPS

Most Reliable 3 Speed Controller : TRIAC Based

Pump and Swing ON – OFF Operations through Relays

Fan Speed 3 HIGH – MEDIUM – LOW with LED Indications

OFF Timer - 1 HR – 2 HR – 4 HR – 8HR

Conformal Coated PCBs with most advanced Moisture Resistant

Coating Material being sourced from Most Reputed German Company.

REVERENT UPCOMING PRODUCT RANGE

Remote Operated SMART SWITCH BOARD With POWER SOCKETS

Reverent SMART SWITCH BOARD Model No. RSSB03 - 3L1FR1PS

Input Voltage : AC 130 V - 240 V , 50 HZ
Fan Regulator Output Voltage AC 130 – 230 V
Power Out Each Switch : 100 W Max.
Low Heat Losses.
3 Remote operated Lamp Switches
5 Steps Fan Speeds Regulators
5. OFF Timer Settings
1 Power Socket.

Reverent WATER MANAGEMENT SYSTEM Model No. RWMS- 01 / RWMS – 02

Application A . Automatic Senses Water Supply Resumption from the water Pipes And Switches on The Pump Motor with BUZZING Sound ON. Automatically switches Off the pump Motor as and when Water Supply from the water pipes are stopped.

Application B . Automatically Switches On The Pump Motor as soon the Water Level in the Water Tank goes to minimum set level...and Automatically switches Off The Pump Motor as The Water Level touches the Set Water Tank Filled Level..

Reverent Water Management System RWS-WP 01 RWS-WT 02

Reverent Power Management System RPS-PG 01 RPC- AC02

Reverent Power Management System Model No. RPMS- 01 / RPS – 02 RO

Application A - Whenever Generator Supply in the Society Flats or Bungalows is switched On , The Power Management System will give a Buzzer Alarm 2 Times at intervals of 5 Seconds . Also one Light Neon Lamp / Bulb 0.5 W starts Glowing to provide visual Indication.

Application B - Remote Operated POWER SWITCH CUT OFF SWITCH ON for AC or HIGH CURRENT 16AMPS to 25 AMPS RATED POWER PUMP MOTORS.

COMPANY'S VISION

Reverent Electronics Design & Services Pvt. Ltd. has been established to take India to next level of self reliance in design and development of commonly used electronically Controlled Home Appliances and Electrical Smart Switches Boards , Remote Operated Fan Regulators , Rotary Switch Fan Regulators , Remote Operated Air Coolers , Room Heat Convecter , Remote Operated LED Ceiling Fans , LED Emergency Lights , Home Security Alarms , Solar Emergency LED Lights & Street Lights , Mobile Chargers SMPS Power Supplies , House Wiring Cables & Switches .

The Company has come up with a humble vision of Designing and manufacturing Remote Operated Electrical products of outstanding quality at a time when the market is flooded with cheap imported electronically controlled switches and appliances or is handled by the unorganized sector with no focus to quality and safety of Products and their users The advent of Reverent is not only to organize the sector, but also is to add on feather to The wonderful Drive of Make in India by providing an excellent Services to all The Brand Owners of Appliances and Electronic Switches Manufacturing and Marketing Companies by providing to them most advanced technology based electronic products solution at most reasonable cost . As a Brand, "Reverent " signifies Dedication , Safety and Reliability. These qualities are helping " Reverent " to carve a niche for itself to become a most Reliable source for Electronically Remote Operated Home Appliances Products Line . Reverent is actively engaged with major world class Semi conductors Manufacturing Companies so that to keep it always updated with latest world Technology to enable its business associates to produce world-class eco-friendly products that have added value to the lives of people.. Reverent is committed to and shall continue to deliver the most reliable services and long lasting products of top quality in India and other neighboring markets.

Reverent

Yourself

Quality , Innovation and Customer Satisfaction is our Road to Growth

Our Faith

God is one , it is Thy different expressions which is visible and felt by The People keeping different faith in accordance to their place , culture and languages being spoken. The definition of Religion, as being described in The Holy Books of all faiths is to Live for Humanity , Love for All living beings on this earth with no space for Hate and disparity..

Not Failures , But Low aim is Crime
