

Press Release III | March 2018

wire China 2018 - International Wire & Cable Industry Trade Fair
Tube China 2018 - International Tube & Pipe Industry Trade Fair
Fastener Shanghai 2018 - Shanghai Fastener & Tech Show
Shanghai New International Expo Centre, Shanghai, China
26 - 29 September 2018

The theme of Tube & Pipe Industry Development Seminar 2018 has been confirmed, join for the opportunity to be a speaker.

The world's economy is undergoing a major adjustment after the international financial crisis. While growth will eventually pick up, the current trend is likely to continue. Additionally, competition will become more intense due to decreasing demand in the downstream industries,

In a tough economic environment, how do enterprises cope with the adjustment? How do exporters respond to international trade frictions? How can we find mutually benefiting relationships or level the playing field? A platform is needed to explore these issues, and to this end, we offer the Tube & Pipe Industry Development Seminar, held in Shanghai, China during Tube China 2018, together with ITA - International Tube Association.

The theme of Tube & Pipe Industry Development Seminar 2018 is:

How to Stay Competitive in Difficult Times - Innovations & Latest Technical Solutions.

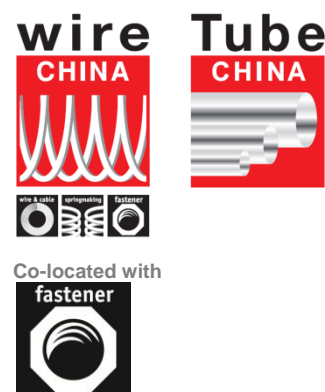

In preparation for the event, we invite you to apply to be a speaker during our seminar. We ask that speakers focus on topics such as technical/economical trends, new technologies, modernization, R&D or recent case studies, rather than company presentations. Joint presentations between pipeline operators and technology providers are welcome. All applications will be reviewed by ITA's Technical Committee.

Interested parties may download the 'call for paper' to learn more details.
