THE FRAGRANCE LARGER THAN LIFE

Who We Are

Established in 1985, Anant was pioneered by the Late Shri Chinubhai Shah, an entrepreneur of great foresight. Today the Company has nearly four decades of experience & distributes over 500 products in the Indian market as well as global market. Perfume is, quite simply, a mastery of some of the most frequent scents, and the artful combination thereof to produce a unique smell for an individual person. Anant believes in making customised fragrances for our clients as per their brief.

Fragrance is formulated as perfume for direct application on one's self and garments, and also sourced as incense, pulverised, emulsified, kneaded and hand-rolled around sticks (Agarbatti; joss sticks) to burn and give off vapours of fragrance that suffuses the entire ambience of an enclosed chamber or hall.

Anant rides the same wave that discoverers once traversed on to compound exotic formulas. Centuries old proven formulas that are timeless have once again proved a hit with contemporary tastes. Close on the heels of tradition, continuous research brings new fragrances for the modern milieu and environment we are so familiar with, befitting the changing times and temperament.

When in need of the perfect fragrance for your new product that will appeal to your target market, trust Anant Fragrances to provide the perfect solution. Our customer-centric creative teams, talented chemists, marketing experts and manufacturing excellence will support your brand.
