      - Baroque Series
      - Country Series

## Exteriors

- WPC Decking (Hollow/Solid)
- Artificial Grass
- Terrace Gardens

# WOOD PLASTIC COMPOSITE (WPC)

*Wood Plastic Composites are produced by mixing wood flour or fiber & plastics to produce a material that can be processed like a conventional plastic & has the best features of wood & plastic*

Growth Rate of WPCs for building products is more than 50 % in US market

American Society for Testing and Materials (ASTM) Standards for building products are now based on WPCs

## WPC BENEFITS OVER WOOD AND PLASTIC

- Will not warp or rot due to harsh weather
- Is splinter-free
- Doesn't need sanding, staining, or painting ever
- Plastic shields wood from moisture and insect damage
- Wood protects plastic from UV damage

# D'SPAZE WPC FOR OUTDOORS

- Low maintenance
- An almost entirely green product
- Soft, splinter less comfort that will never rot or corrode
- Highly resistant to decay and marine borer attack.
- Good workability: Can be shaped using conventional wood working tools
- Homogenous material
- No Paint or polish required

# D'SPAZE WPC BENEFITS

- Because maintenance costs are minimal, D'Spaze WPC saves you money over time.
- D'Spaze WPC doesn't weaken over time the way wood does.
- Maintains its high quality and value for years to come
- A smart investment
- Immediately boost your building value while enhancing its beauty.

# D'SPAZE EXTERIORS

# D'SPAZE DECKING PLANKS

## Specification

THANK  
YOU

The image features the words "THANK YOU" in a bold, 3D, blue font. The letters are arranged in two rows: "THANK" on top and "YOU" below it. The text is set against a solid green background with rounded corners. At the bottom of the image, there is a white, wavy, ribbon-like shape that appears to be a shadow or a decorative element. The overall style is clean and modern.
