www.manmanindia.net

We have been involved in **manufacturing** and **export** of extensive array of **Surgical instruments**. Our extensive array carries features like **precision engineered** and **low maintenance**.

Profile

Founded in the year 1978, at Pune, Maharashtra, India, we, “**Manman**”, are an ISO certified manufacturer, trader and exporter of **Cutting** and **Drilling** systems for surgeries. Our entire array encompasses **Cardiac, Neuro, Paediatric/Plastic** and **Orthopedic** surgery instruments. Our drilling and cutting instruments are provided with superior quality components such as blades and electrical motor for precision and smooth surgical operations.

The entire surgery instruments of our company are made in a modern and expanded infrastructure, which are handled by the team of self motivated and self learning professionals. These professionals work with their maximum efficiency to deliver surgery instruments as per the industry defined quality norms. Due to high performance and easy to use features, our range is greatly demanded by the surgeons and physicians of the Hospitals, private clinics and community health centers in India and abroad.

Satisfying the client’s requirements in the best manner, has been the key agenda of our business. We have formulated several plans to achieve the goal of total customer satisfaction. Our all medical equipments are designed in customized capacity, size an polished designs. Furthermore, we have easy payment options (Cheque & Demand Draft), after sales support services and competitive price policy to garner valuable trusts of various clients.

For consistently manufacturing and supplying of medical instruments as per the industry specific norms, we have been awarded ISO 9001-2008 and ISO 13485 quality certifications in the years 2003 and 2005 respectively. We march ahead in the competitive market under the active and brilliant leadership of our mentor, **Mr. Madhukar Gokhale**. He with his profound business skills helps us in meeting the client’s orders within the specified time schedule.
