ABOUT US

NATIONAL PORTABLE CABIN, a name that provides enduring commitment and personal touch to our clients. NPC-offers a wide range of containers and containerized systems for commercial application. It's a well known name in manufacturing Porta Cabin (Site offices, Bunkhouses, Maintenance unit, Laboratory units, Cafeteria or Tailor made accommodation) We are passionate about producing products of extraordinary quality with world class finishes.

The combination of high-quality raw materials with proprietary manufacturing processes give customers the desired quality they expect.

Our name is synonymous with premium quality and reliability that our products exhibit. We make use of sturdy and finest quality rugged steel that is procured after rigorous testing of chemical and physical attributes. Our offerings can be broadly categorized as kitchen bunkhouse, bunkhouse, office containers, lodging container, sanitary and workstation. The

prompt and quality services rendered by us have enabled us to create a niche for ourselves in the market.

We have sophisticated manufacturing facilities that enable us in offering products that are safe, dry and easy to transport. With our unmatched quality we have won the appreciation of our wide client base that is spread all across the India. Owing to our customer-oriented philosophy, we have been consistently providing our customers with the superior quality containers and bunkhouses to almost any location.

Resting our back on our work force, we have also been able to provide efficient customized solutions to our clients. Not only do we manufacture, we also assist our clients in tasks such as management, shipment, repair and modification of the installed containers. Thus, we are the preferred name in the containers installation segment and have come up to the expectations of our clients who are spread all across the Country.

ORGANISATIONAL OBJECTIVE

We are a dynamic company that believes in constant motion that is directed towards excellence. We have a systematic approach towards all the tasks and processes. Given below are some of our objectives that we are determined to achieve:

- We have plans to implement high standards of hygiene, safety and general working conditions for our staff, so that they are fully satisfied. We will ensure that these standards are supported with proper documentation and instructions.
- We are working to make sure that we mold our resources in order to achieve the above-mentioned standards.
- We encourage our staff for an interactive and open atmosphere in the company so that we can improve and implement these standards.

OUR PRODUCTS

PORTABLE CABINS

We have a wide range of well designed and constructed prefabricated cabins made from low maintenance materials that are easy to transport and install. There is a good resale market for cabins and they are easy to relocate when no longer required for their original purpose. Ask us for a quote on one of our designs or supply your own design for us to quote on.

NATIONAL PORTABLE CABIN provides secure, comfortable working accommodations to project staff engaged in the delivery of fast track building solutions. These durable steel units are supplied in various standard layouts, which embrace office and welfare accommodations.

As one of India's leading cabin manufacturers we have lots of different cabin designs that are suitable for caravan park accommodation or backpacker units and are happy to customize them to your requirements. For example, if you are looking to cater for backpackers and want a long module that has 4 bedrooms with 2 double-decker bunks in each bedroom, we can build it! We can supply prefabricated transportable buildings, or buildings in kit form if that is what you require. Contact us via the enquiry form and we will quote on your requirements or your design.
