Powered by German Technique

We, "Ceeon India" was included in the year 2014 and are an eminent Manufacturer, Supplier and Wholesaler of Battery-Operated Electric Rickshaw & Scooty which have revolutionized the era of Automobile Industry. Driven by advance technology and innovation, the products such as Electric scooter, electric Bike, Battery Rickshaw, E Rickshaw and Loader Rickshaw & E Garbage etc. are assembled with high-grade component, making them swift in performance. We offer our products under the brand name of Easy Way for e rickshaw and MARENO, MARENO+, KVR-X, KVR-X 1, KVR-X2, TRUENO, FAXION for Electric Scooter. The other added features of these aforementioned Electric Battery Rickshaw are low maintenance cost, accurate dimensional finish and high efficiency rate, which eventually sets them on high demand. It is solely due to our engineering designing and capabilities along-with stringent quality testing on regular basis, we are able to come out with a range of high-end e-rickshaw. The philosophy of the organization is to carry the business with updated work methodologies and strategic planning. Blushed in the year, 2012, we have been continuing the smart work in order to sustain our place in this period of rigorous market competition. The company function to work for its clients based on ethical and transparent business policies by manufacturing Battery Rickshaw. There is team of experienced professionals, who works round the clock and complete all the assigned tasks within the stipulated period. As a quality guided company, we majorly focus on product development and updation, giving due emphasis on clients drawn specification.

In order to develop and design this presented product in tandem with market quality guidelines, we have designed the modern and hi-tech infrastructural unit. To manage the whole business processes in the best possible way we have divided our infrastructure unit into several sub-units such as production unit, warehousing & packaging unit, designing unit, quality testing unit and logistics unit. All these units are well-armed with pioneering tools, machinery and equipment that empowers us to meet the voluminous necessities of our prestigious patrons within the scheduled time span.

Under the distinguished tutelage and profound guidance of our mentor, Mr. Anil Goel and Mr. Sunil Goel, we have consolidated our market place. His zeal to maximize clients' satisfaction, brilliant managerial skills and enormous industry understanding has enabled us to carve a remarkable position in the industry.

FaXion

Wireless controller with German technique.

Battery 60V/72V
Battery Capacity - 32AH
Battery Type - Lead Acid & Lithium Ion
Battery Warranty - 1 Years & 3 Years
Battery Life - 2 Years & 5 Years
Speedometer - LED
Shocker Type - Hydraulic
Charger Capacity - 4AH
Motor - 1000 Watt Brushless
Motor Capacity & Volt - 30AH (60V/72V)
Controller Type - Intelligent German Technique
Light Type - LED
Range - 100 km
Break Type - Front Disc, Rear Drum
Tyre Size - 3.00-10
Rim Type - Alloy Rim
USB Charger, 1-2-3 Gear adjustment, 2 Mirrors,
Reverse Gear, Iron Wheel, Remote control,
anti theft alarm

TRUENO

Battery 60V/72V
Battery Capacity - 28AH
Battery Type - Lead Acid & Lithium Ion
Battery Warranty - 1 Years & 3 Years
Battery Life - 2 Years & 5 Years
Speedometer - LED, Shocker Type - Hydraulic
Charger Capacity - 3AH
Motor - 1500 Watt Brushless
Motor Capacity & Volt - 30AH (60V/72V)
Controller Type - Intelligent German Technique
Light Type - LED, Range 60-80 km
Breaks Type - Front & Rear Disc Break
Tyre Size - 3.00-12
Tyre Rim Type - Alloy Rim
USB Charger, 1-2-3 Gear adjustment, 2 Mirrors, Reverse
Gear, Iron Wheel, Remote control, anti theft alarm

Battery 48V/60V
Battery Capacity - 28AH
Battery Type - Lead Acid & Lithium Ion
Battery Warranty - 1 Years & 3 Years
Battery Life - 2 Years & 5 Years
Speedometer - LED
Shocker Type - Hydraulic
Charger Capacity - 3AH
Motor - 1000 Watt Brushless
Motor Capacity & Volt - 30AH (48V/60V)
Controller Type - Intelligent German Technique
Light Type - LED
Range 60-70 km
Break Type - Front Disc, Rear Drum
Tyre Size - 3.00-10
Tyre Rim Type - Alloy Rim
USB Charger, 1-2-3 Gear adjustment, 2 Mirrors, Reverse Gear, Iron Wheel, Remote control, anti theft alarm
