CETPATCH FH

3117

Non metallic non oxidizing floor hardener

Description:

Range of CETPATCH FH are supplied as a ready to use factory controlled cementitious system blended with special aggregates selected for high abrasion and wear resistance and additives. Based on non metallic non oxidizing aggregate used to produce an impact and wear resistant, dust free surface suitable for most heavy duty area.

Advantages:

- Highly impact and abrasion resistance.
- Long lasting wear resistant surface
- Dry shake on applied over fresh concrete to provide a monolithic bond.
- Ready to use, factory controlled eliminates on site mixing.
- Resists oil and grease penetration and reduces dusting.
- Low maintenance and easy to use.
- Non slip and anti skid.

Area of application:

- | | | |
|---------------------------|---------------------|------------------------|
| ➤ Engineering work-shops, | ➤ Garages, | ➤ Loading bays, |
| ➤ Where houses, | ➤ Subways | ➤ Ship yards & Utility |
| ➤ Production areas, | ➤ Railway platforms | building |

Direction for use:

- The base concrete should have a minimum cement of 300 kg/cm² with a slump of 40-60 mm with low water cement ratio. (can be use CETPLAST CA).
- The bleeding water should evaporate and CETPATCH FH can be broadcast after initial set.
- CETPATCH FH is broadcast evenly manually and when the surface darkness with the absorption of water the surface is floated.
- To apply second application immediate.

Packing: Supplied in 30 kg
