Landscaping increases the value of your home while adding character to make your property unique!

An association with

EFQH & ASSOCIATES is a Landscape Developers Firm providing service throughout the India region.

PHILOSOPHY

The EFQH symbol is an amazingly simple yet intense sacred geometric shape. It represents the delicate balance and oneness that is inherent in all of life. In the most successful relationships; be it, in nature or between people, all components work as one. Each component is whole unto itself and yet together they create something completely brand new. Fluidity and boundlessness can be achieved by meeting in the middle. Within this balanced place, components of the relationship can move in and out of one another, sometimes forgetting which part belongs to them and which part belongs to another, thus unbounded creativity is born. As relationships fall out of balance, indeed, they fall out of infinity.

EFQH&ASSOCIATES strives to foster the balanced relationship between their firm's clients, contractors, and consultants so that fluid communication is achieved, unbounded creativity is born, and successful projects are completed to the highest standard of excellence

MISSION

Vision
Mission
& Values

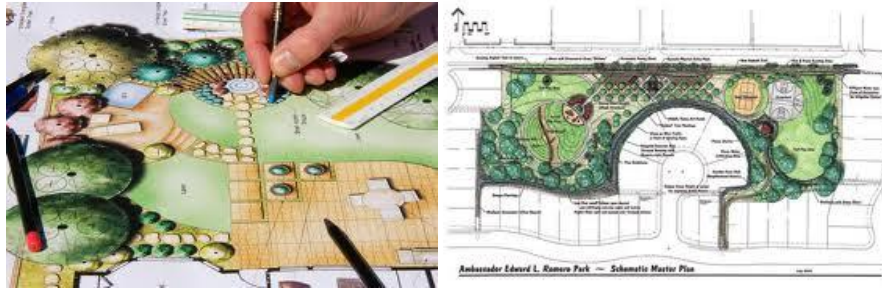

EFQH& ASSOCIATES Inc. exists to benefit the lives of our clientele by refreshing the users of our outdoor spaces in body, mind, and spirit. We strive to inspire moments of optimism and tranquility through our attention to detail and regard for form and function. Our ultimate obligation is to provide value to our customers with consistently attractive, enduring, functional, and environmentally responsible solutions to their landscaping needs.

FIRM PROFILE

EFQH& ASSOCIATES a creative collaboration with clients, architects, consultants, and contractors to develop designs that respond to unique site requirements and individual client program, schedule, and budget. Our firm provides a full range of services focusing on personal involvement and catering to each client with a five step design process which includes:

SITE INVENTORY AND ANALYSIS

DESIGN DEVELOPMENT, MASTER PLANNING & SCHEMATIC DESIGN

EFQH&ASSOCIATES takes design cues from the individual site allowing designs to emerge from a collaborative process to create enduring, innovative landscapes which we nurture from inspiration through installation.
